### Do Your Part As The Boys In France Are Doing Theirs.

(Publicity Bureau)

Your dollars do not measure your patriotism.

The dollars you put into the Liberty Loan over and above what you can spare—those constitute your PATRIOTIC money.

The money that carries with it everlasting plugging, patching, mending, fewer lights in the house, less palatable food on the table, cutting out the extras—that is the money that labels the quality of YOUR PATRIOTISM.

Uncle Sam asks for SIX BILLIONS OF DOLLARS for money is the sinews of war.

The Government wants a mere loan, offering in return indisputable security at 4 1/4 per cent. interest.

The amount asked is Six Billions. Let us make it Ten Billions and that represents only about one-twenty-first of our pile.

That will get the Kaiser and his servile subjects to stop, look and listen.

It will do more—it will cause them to QUIT.

And in their change they'll QUIT THE KAISER.

Now for a Liberty Loan pull altogether. Every past War Drive has one or more Slackers in this War Zone. In the Fourth Liberty Loan let there be none.

What a happy combination of circumstances to have the Fourth Liberty Loan make its start to the accompaniment of such inspiring news from over the seas!

Have you heard from Bulgaria? SHE'S OUT OF THE WAR. The Allies have bowled her out.

Keep your eye on Turkey, Rumania, Austria and then—Germany, with Potsdam as its active center. Bulgaria's downfall is attributed to the Americans by General March and March knows.

The beneficent results of the three previous loans are quite apparent—they have made America the Cock of the Walk in this great war. The new loan will strengthen all this fine work.

It is the sale of these bonds that will provide cannon, ships, supplies, food, convoys—all that has made us the admiration of the world in 18 months' preparation.

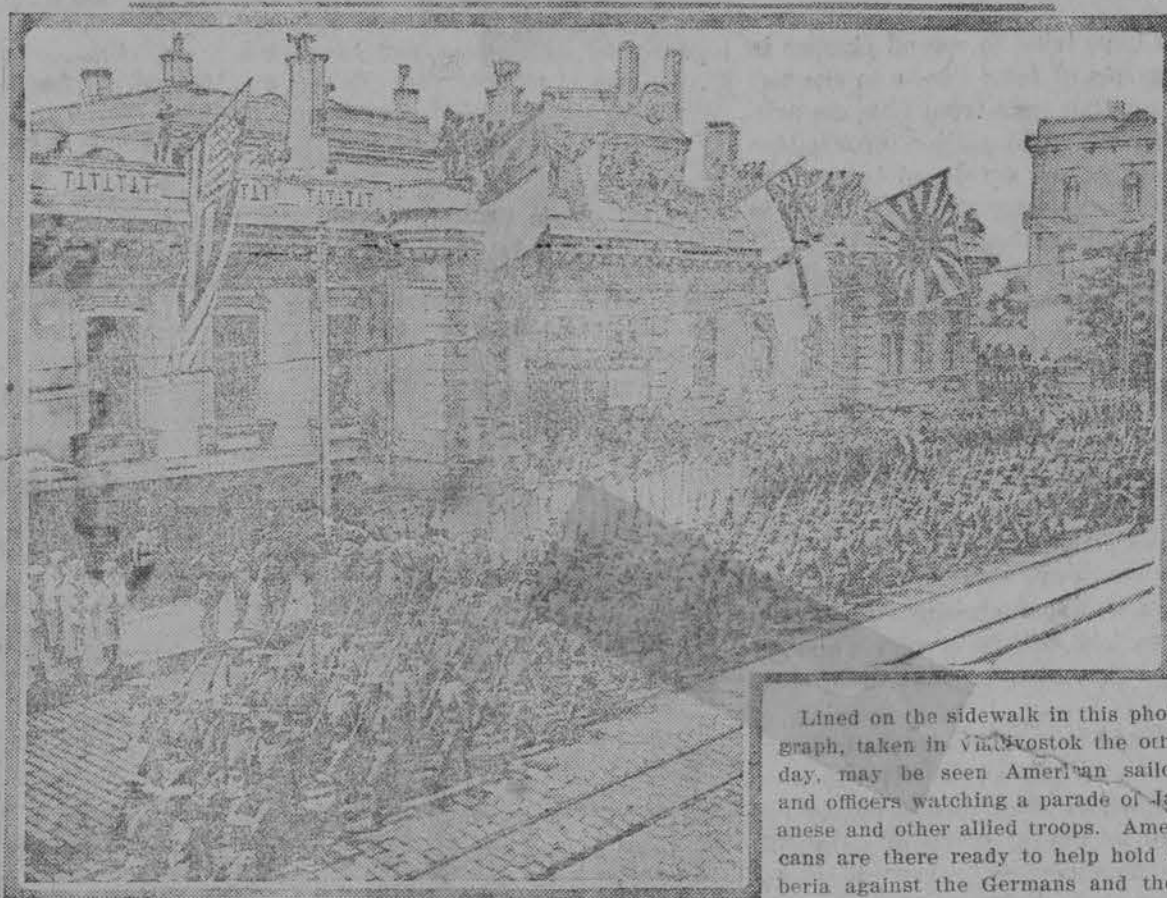

The Liberty Loan campaign is short-lived. Do what you intend to do and thus encourage your neighbor as well as do your duty.

The campaign in Zone Eight has not as yet formally opened but when it does, jump into it, whether your subscription be only a single bond or scores of them.

OUR QUOTA HAS GONE UP. That means your purchase must also go up to make good and Zone Eight always "goes over the top."

Do your part as the boys in France are doing theirs.

### American Sailors Ready for Action in Vladivostok. Watch March of the Allied Soldiers

Lined on the sidewalk in this photograph, taken in Vladivostok the other day, may be seen American sailors and officers watching a parade of Japanese and other allied troops. Americans are there ready to help hold Siberia against the Germans and their friends, the Bolsheviks.

### CAMBRAI SET ABLAZE BY ENEMY

LONDON, Oct. 1.—Fighting was resumed on the St. Quentin sector this morning, Field Marshal Haig announced. The Germans have set fire to Cambrai.

The British have captured Leverges five miles north and slightly east of St. Quentin.

English and Canadian troops closing in upon Cambrai yesterday, captured Troville and Tilloy despite strong resistance, the statement said. "Cambrai has been set afire by the enemy."

"This morning's fighting recommenced north of St. Quentin and in the Cambrai sector."

### IN CONFERENCE AT CAPITAL

WASHINGTON, Oct. 1.—Secretary of Labor Wilson, Fuel Administrator Garfield and James B. Neale, of the Fuel Administration, are conferring today with Frank J. Hayes, President of the U. W. of A. and James Matthews, John Dempsey and Thomas Kennedy, district presidents of the mine workers in the anthracite district. This conference is for the purpose of discussing living wage conditions and to aid in determining whether the workers on strike recently are making just demands for wage increases.

#### Aerial Mail Carrier

The aerial mail carrier from New York to Chicago passes over Locust Valley every Thursday between noon and 5 o'clock in the afternoon. The "wings" of the machine are quite discernible. It passes in the direction of Frackville and Pottsville.

Attention, Fourth Ward Red Cross Solicitors

Meet tonight at home of the captain and then proceed to make the last collection on Red Cross pledges.

### BROKE ALL RECORDS FOR SPEED

WASHINGTON, Oct. 1.—Breaking all records for speed America's third and greatest lottery ended at 8 o'clock this morning after proceeding without pause for 20 hours.

Working in shifts throughout the night the officers in charge reached a speed of 18 numbers listed per minute in the closing hours. Until midnight the big draft room was filled with interested spectators. It had been expected that the lottery would take at least 26 hours and would not be over till this afternoon. The speed may indicate that the master lists will be ready for mailing late today.

### ROY ELLIOTT DIED AT STATE HOSPITAL

From a broken back sustained at the Buck Mountain mine August 25th, when caught under falling rock, Roy Elliott, aged 37 years, died at the Fountain Springs State Hospital at 2:15 o'clock this morning.

The remains were brought to the Clifford morgue to be prepared for burial. Funeral will be held from the home of Edward Hume, Jr., 631 East Mahanoy Avenue.

Elliott is survived by the following brothers and sisters: Robert, Charles, Joseph, Albert, of this city; Thomas, of Jersey City; Mrs. Jonas Lord, of Newark, Edward, of Reading; and Mrs. Myles Stauffer, Barnesville.

Roy Elliott numbered many friends who will be pained to hear of his death.

### GERMANS RUSHING REINFORCEMENTS

By Frank Taylor.  
WITH THE AMERICAN ARMIES OF VERDUN, Oct. 1.—The Germans are frantically rushing reinforcements into the Argonne region in an effort to block the American advance.

The enemy apparently is determined to make permanent stand on its present line rather than fall back to the Brunhill de Stilling defences. Intense fighting continues with American artillery and infantry on the aggressive.

Heavy German counterattacks have slightly delayed the American advance.

The infantry in attacking are almost wholly with light machine-guns. The artillery is exceedingly active.

Missouri and Pennsylvania troops encountered stiff fighting shortly after noon today. The Germans threw in fresh divisions from the Metz region in addition to the usual resistance. The Pennsylvanians while pushing over the crest of the hill south of Escremont ran into overwhelming numbers of the enemy obliging them to withdraw with their advance line slightly to enable the artillery to lay down barrage.

In the meantime the Pennsylvanians, flanking the Germans from the right attacking eastward, inflicted great losses on the Boche.

#### Lieut. Kromas

Jno. A. Kromas, twenty-six years of age, who left this town in 1912, and joined the U. S. Army has been promoted again and now sports the stripes of a First Lieutenant as a reward for his hard work and perseverance while a member of the army. John is a member of the 14th U. S. Cavalry and is at present stationed at Ft. Sam Houston, Texas, getting men ready for the trip over-seas. His many friends in town will be pleased to know that the young man is making good in the army and hope to see him go still higher.

He is the oldest son of Mr. and Mrs. Anthony Kromas, 813 East Pine street, and brother of Joseph Kromas, the popular salesman of the Kafer Co.

#### NOTICE

### LOCOMOTIVE BLEW UP TWO KILLED

LEBANON, Oct. 1.—Two men were killed and three others injured today when a locomotive on the P. & R. Railway here blew up today.

The dead include J. P. Bohannon, conductor, Port Carbon.

All of the men were on the locomotive which was pulling an east bound freight train at the time of the explosion of the boiler.

### GERMANY'S POLICY IN THE BALKANS COLLAPSED

WASHINGTON, October 1.—Russian and Rumania diplomats here today, foresaw the complete collapse of Germany's policy in the Balkans and in the East.

The signing of the armistice by Bulgaria and the terms laid down by the Allies were interpreted by officials at the Russian embassy as the resumption of power in Bulgaria by the Russophile group of Bulgarian statesmen represented by Premier Malinoff. This, it was declared, would prove in the near future a most powerful stimulant to the effect of the revolutionary democracy of Russia to restore Russia's unity and independence.

Complete anarchy is raging in Sofia official cables from Athens state today. Establishment of a Bolshevik regime is feared also. This would mean massacre of all Germans.

### AIRPLANES DOING FINE WORK

By Fred Ferguson.

WITH THE AMERICANS WEST OF VERDUN, Oct. 7.—In heavy fighting throughout today the infantry was forced to operate virtually alone because heavy rains penetrated aerial observation for the artillery. Toward evening, however, the weather suddenly cleared and the aeroplanes hurried over the German lines signalling back to the gunners who cut loose in a way that indicated they were determined to make up for lost time. Bombing squadrons aided the artillery by showering explosives on enemy concentrations.

### POLISH LADY AT POTTSVILLE WED. EV'G.

Madam Aure de Tourtewitz, of Poland, who was in that country when the Prussian hordes overrode it, will be the speaker at the Pottsville Armory Wednesday evening at 8 o'clock.

Madam Aure de Tourtewitz is the author of that famous war book, "When the Prussians Came to Poland." Ordinarily she appears only in the large cities, but through the influence of Mrs. J. B. Cullum, Pottsville chairman of the Women's Liberty Loan Association, she has been secured for Wednesday night at the county seat. Hundreds will hear her.

Thursday's program will include a big meeting at Mahanoy City High School auditorium to be addressed by the soldier and sailor veterans, and other speakers. On Thursday the Ladies' Committee will entertain Mrs. Miller, the State chairman of the Women's Liberty Loan Campaign at the the Outdoor Club at Pottsville.

Silver dollars are reported scarce.

### THE WEATHER

Forecast for this section:  
Fair today and tomorrow; westerly winds.

### ELECTROCUTED IN HIS CELLAR

Going down into the cellar of the building at 1134 where he conducted a saloon, John Kemzura, came in contact with a live electric wire and was electrocuted.

The unfortunate man who is about 34 years old, had gone into the cellar about 10 o'clock last evening for the purpose of tapping beer. In the darkness, while feeling for the electric globe, he touched a live wire. His scream attracted men in the saloon who ran to the top of the stairs. One man seeing the smoke thought it was fire and ran out and turned in an alarm from box 3-4.

When the firemen arrived they went into the cellar where they found Kemzura burned crisp in several spots, but with little life still in him. Dr. Holland was summoned who, upon his arrival, pronounced the man dead.

Kemzura is survived by a wife and two children, Joseph and Julia. He was a member of St. Joseph's Lithuanian church and of St. Vincent's society in that church.

### ABDICATION OF FERDINAND

WASHINGTON, Oct. 1.—Czar Ferdinand's exodus is viewed as a virtual abdication in well informed diplomatic circles here today. Malinoff, it is understood, forced Ferdinand to leave the country, fearing German influence on him. Whether Ferdinand will be permitted to return to Bulgaria and remain without influence or whether he will be forced to retire to his extensive estate in Hungary will depend upon the attitude taken by Malinoff and his cabinet, it is said.

### PRINCE BORIS WILL SUCCEED

ROME, Oct. 1.—The Vatican has received confidential information from Vienna that King Ferdinand, of Bulgaria, probably will abdicate in favor of his son, Prince Boris.

Crown Prince Boris was born January 30th, 1894. He is regarded as much more liberal and democratic than his father.

### SOUVENIR BOOK OF COMPANY E AND PENNA. GUARDS

The Mahanoy City Record is in receipt of a limited supply of books giving separate illustrations of the entire 112th Infantry, which is composed of the 8th Regiment of Pennsylvania National Guard, of which Company E was a part and also the 16th Pennsylvania Regiment.

The book gives a very complete history of both these organizations, the illustrations of the men are very fine.

These books will be sold and will make an excellent gift for any family who has a relative or friend in service.

**THOUGHT MAN WAS CRAZY**

"I have suffered from stomach and  
liver trouble for years; the last two  
years people have been calling me  
crazy. The doctors could not do any-  
thing for me. The awful bloating of  
gas seemed to press against my brain  
and I could not think clearly. Three  
months ago a friend advised taking  
Dr. Williams' Wonderful Remedy and it has  
worked wonders in my case. All my  
bloating and suffering is gone and I  
feel as though newly born." It is a  
simple, harmless preparation that re-  
moves the catarrhal mucus from the  
intestinal tract and allays the inflam-  
mation which causes practically all  
stomach, liver and intestinal ailments  
including appendicitis. One dose will

**HELP TO WHIP THE KAISER**

Every time you buy a Liberty Bond you help the American  
Army to whip the Kaiser and make the worlds safe for democracy.  
Every time you buy a Liberty Bond you place bullets in the  
rifles of the American Army and shells in its cannon, so that they  
may roar out the thunder of freedom that will redeem mankind  
from the oppression and terrors of Prussianism.  
Every time you buy a Liberty Bond you put food in the  
mouths of those brave American boys who are offering their lives  
as a sacrifice to the cause of Liberty for the world.  
Every time you buy a Liberty Bond you help win the war.  
You will buy more Liberty Bonds; of course, you will. You  
have bought Liberty Bonds three times, and you will buy the fifth,  
the sixth, or any number of times to keep our army going.  
Remember, the American soldiers are YOUR sons, YOUR  
brothers, YOUR relatives. They are of YOUR blood, YOUR  
flesh.

**SPANISH INFUENZA**

Prepare against an epidemic of Spanish influenza. This dis-  
ease, which has been raging in Europe, has now appeared on the  
Atlantic seaboard and an extensive outbreak is to be feared.  
Watch colds such as our common at this time of the year.  
Keep vitality high through proper food and rest. Keep the body  
in the shape best calculated to resist any and all disease. It is  
thought that Spanish influenza was probably introduced here by  
German submarines.  
It is known that the Germans have tried to spread plagues in  
Europe through distributing the germs of fatal illness in the ter-  
ritory of their foe. It is also known that men from German sub-  
marines have come ashore in this country to gather information.  
Therefore it is possible that vials of germs developed in German  
laboratories, have been brought to this country and distributed in  
theatres or in the midst of large public gatherings.  
Whatever the source of the disease, if it strikes you, aid in  
checking it there. Take no chances on conveying it to others.

**THE COLLEGES OPENING**

The colleges are to be turned upside down this fall. The  
march of the khaki clad war students will take the place of classi-  
cal learning. The boys will study the arts of war in 1918, instead  
of the way the Greeks and Romans fought.  
After a year of it, if the war continues there will be no one  
left at the campus but freshmen, and upper classmen physically  
disqualified for the service. These last will be a very unhappy  
bunch of men, although perfectly safe from the hazards of war-  
fare.  
The colleges will shortly be reduced in numbers as the boys are  
taken away to the various branches of the service. It will be a  
problem to finance them with so much of their tuition money cut  
off. The government will have to be liberal to them. Difficult  
as the problem is for the college managements, they cheerfully  
adapt themselves to it, recognizing that they exist to serve the  
needs of the community.

**IF BACK PAINS USE  
SALTS FOR KIDNEYS**

Eat less meat if kidneys feel like lead  
or bladder bothers you—Meat  
forms uric acid

Most folks forget that the kidneys,  
like the bowels, get sluggish and clogged  
and need a flushing occasionally, else we  
have backache and dull misery in the  
kidney region, severe headaches, rheu-  
matic twinges, torpid liver, acid stomach,  
sleeplessness and all sorts of bladder dis-  
orders.  
You simply must keep your kidneys  
active and clean, and the moment you  
feel an ache or pain in the kidney  
region, get about four ounces of Jad  
Salts from any good drug store here,  
take a tablespoonful in a glass of water  
before breakfast for a few days and  
your kidneys will then act fine. This  
famous salt is made from the acid of  
grapes and lemon juice, combined with  
lithia, and is harmless to flush clogged  
kidneys and stimulate them to normal  
activity. It also neutralizes the acids  
in the urine so it no longer irritates,  
thus ending bladder disorders.  
Jad Salts is harmless; inexpensive;  
makes a delightful, effervescent lithia-  
water drink which everybody should take  
now and then to keep their kidneys clean,  
thus avoiding serious complications.  
A well-known local druggist says he  
sells lots of Jad Salts to folks who believe  
in overcoming kidney trouble while it is  
only trouble.

## Does Your Life Work Mean Anything to You?

You farmers who have worked hard—and no one works harder—to get together your property, what does it mean to you?

Your property—your farm and buildings, your crops, your stock, your farm implements and, too, your home—all of these represent years and years of work that you have done.

Everything that you enjoy as the result of your work comes to you and stays with you because the heroic soldiers and sailors of Uncle Sam are standing between you and the bloodthirsty, murderous Hun.

To keep the Hun away from you, Uncle Sam does not ask you to GIVE even a single penny. He simply asks you to LEND him your money at good interest and he guarantees on his word of honor—a word that has never been broken—to pay back every penny you lend.

What is your answer?

Have you bought all the LIBERTY BONDS you possibly can?

### BLOOMSBURG FAIR SOON ON

Fairs have come and fairs have gone but we for sixty-four uninterrupted years the Columbia County Fair gone forward improving with each year until it has come to be known as THE fair of the State.

An addition of fourteen acres to the grounds this year makes it easily one of the two or three largest, while the way of attractions there has never been a way that has approached in the variety of offerings those of October 1, 2, 3 and 4.

Always known as the fair that gives more than it advertises, the price of admission this year remains the same as in other years—twenty-five cents, and in addition there will be given away to some ticket purchasers a new Oakland car.

Wednesday a new Oakland car, valued at \$1250.00, the only requirement being that the holder of the lucky ticket be in Friday's crowd. Four thousand dollars are included in the purses to be given for racing over the fastest half mile track in the state; band concerts will be held daily and big free vaudeville attractions will be staged daily in front of the grandstand.

The live stock show has always been known as one of the best in the state, while there will be the usual poultry display and, an innovation this year, a dog show. The fair will leave absolutely nothing to be desired, and it promises to be the great old home week of Columbia counties.

#### Laid in Grave

The funeral of Robert Frew was held this afternoon from his late home in Frackville. Services were conducted at the house by Rev. Chas. Nelson after which the cortege proceeded to the Lutheran cemetery where interment took place. The funeral was largely attended.

### SHENANDOAH GIVES TWO MORE OF HER SONS TO CAUSE OF FREEDOM

Shenandoah, which has a glorious record in the Civil War, has her beautiful spirit of patriotism and sacrifice stamped all over this awful deluge—the world war.

To date fifteen heroes from that city have died for their country and for world freedom, while a number have been wounded.

Albert Dilgins, aged 27 years, a member of Co. H, 109th U. S. Infantry and Earl Sheeler, 23, of the 51st Infantry, at Camp Lee, Va., are the latest Shenandoah boys to be added to America's honor roll.

Dilgins, who is a brother of Mrs. Susan Judge, of Mahanoy City, died from wounds received in battle. Sheeler died of Spanish influenza. He left Shenandoah Aug. 26th.

#### ASKS MINERS TO DOUBLE

Garfield Sets Quota at 18,234,000 Tons a Week.

Washington, Oct. 1.—Individual responsibility, applying to every man engaged in the production of coal is the keynote of a proclamation addressed to all connected with the industry by H. A. Garfield, United States fuel administrator, setting for the urgent need of a greatly increased output for the next six months.

The message recognizes the fact that the production in the last three months, in spite of a shortage of labor, has been larger than had been counted on and gives praise to the miners, operators, production managers and all others whose efforts have contributed to that result.

The necessity for an enlarged supply is particularly pressing in the luminous fields. The output required of the soft coal mines between now and March 3 next is 12,234,000 tons per week, as compared with a production of 10,503,000 tons per week for the same period of last year. This is an increase of approximately 16.5 per cent.

Anthracite mines are called upon to produce 2,000,000 tons per week, as compared with 1,900,000 in the same period last year. This is an increase of approximately 5.3 per cent.

James McCauley left today to visit relatives at Philadelphia.

### DOCTORS ADVISE SPRING TONICS

Say There Is Nothing Equals Iron and Phosphates

Experienced doctors claim that everyone should take a good tonic in the spring, that during the winter months we all eat too much meat, fats, heavy foods and too little fresh vegetables, that the entire system is clogged up, over loaded and over-worked, causing thin, impure watery blood and that tired, nervous feeling, pimples and bad complexion.

Honest doctors all over the land have found and are recommending and prescribing phosphates and iron as their spring tonic for the blood and nerves, they say it removes all impurities, unclogs the channels and sends the rich, red life-giving blood through the veins, renewing health, strength and nerve force as nothing else will.

If you are all in, run-down, fagged out and your nerves all shot to pieces and the joy gone from life, take Phosphated Iron, the red blood and nerve builder. It will make a new man or woman of you, make you feel like doing things again, renews that youthful feeling, you can almost feel yourself coming back. Try Phosphated Iron today, it has helped thousands and will not disappoint you.

To insure physicians and their patients getting the genuine Phosphated Iron it is put up in capsules only, do not allow dealers to give you pills or tablets. Insist on capsules.

Washington, Oct. 1.—Standing blindfolded in the presence of a great crowd which thronged the huge marble "census room" of the senate office building, President Wilson drew the first capsule, No. 322, in the nation's third great draft lottery, thereby selecting hundreds of men to go to the front from those registered September 12.

Only the first 100 numbers drawn were made public. The others will be mailed to the district boards, and by them given out. This may take several days.

The president made no comment concerning the lottery. The number he drew was the lowest of any official, and hence calls more men to the colors than the numbers drawn by Daniels and others, General Crowder explained to him.

Accompanied by Mrs. Wilson, the president was cheered when he entered the room. He took a seat with the crowd, received his instructions from General Crowder, then talked with Vice President Marshall, before he was called to his task.

Following the drawing of the first number by the president, Vice President Marshall drew 7277.

He was followed by Senator Sausbury, of Delaware, president pro-temp of the senate, who pulled the third capsule from the bowl, containing No. 6708.

Speaker Champ Clark followed Senator Sausbury and drew number 1027. Next turn was Secretary of the Navy Daniels, who drew number 16169.

Acting Secretary of War Crowell followed with number 8366.

Other dignitaries followed in order with the following numbers:

Senator Chamberlain, chairman of the military affairs committee, number 5366; Senator Warren, Wyoming, ranking Republican member of the committee, number 1697; Representative Dent, Alabama, chairman house military affairs committee, number 1123; Representative Kahn, California, ranking Republican member of the committee, number 2781; General March, chief of staff, number 9283; Admiral Benson, number 6147; Lieutenant General Young, retired, number 10086; Provost Marshal General Crowder, number 438; Colonel Warren, number 904; Colonel Easby-Smith, number 12368; Colonel Wigmore, number 1523; Colonel Keever, number 7312.

All these officers are connected with General Crowder's office.

The numbers, as fast as called, were telephoned to the government printing office, where they were rushed to linotype operators.

This is a part of the speed-up program. Officials hope to be able to have the printers keep pace with the drawings, so as to mail out the list as quickly as possible.

#### FEES FOR QUESTIONNAIRES

Will Revoke Commission of Notaries Charging More Than Legal Fees.

Harrisburg, Oct. 1.—Inquiries are being made by the attorney general's department of various aldermen and justices of the peace who have been reported to the state draft headquarters as charging draft registrants for making out questionnaires.

Some reports are that as high as a dollar was charged, notwithstanding the request that such services be given free.

Attorney General Francis Shunk Brown will ask notaries who charge more than the legal fee for swearing persons to their questionnaires to turn in their notary commissions and give up their seals if the proof is furnished to him.

#### Must Salute the Flag.

Harrisburg, Pa., Oct. 1.—Dr. Nathan C. Schaeffer, state superintendent of public instruction, informed a delegation of Montgomery Mennonites, who asked him whether their children were required to salute the flag, that they must do so. "I told them that as a matter of pure patriotism they should do so. Saluting the flag is not a war measure. It is something every citizen should do."

## DEFIES THREAT TO KILL SHOTGUN USERS

U. S. Will Take Reprisals For Every Death.

Washington, Oct. 1.—The American government, in reply to Germany's threat to execute American prisoners of war found in possession of shotguns, gave notice that if Germany carries out any such threat suitable reprisals will be taken.

Secretary Lansing's reply, made public, declares that the use of shotguns is sanctioned by The Hague conventions and that in comparison with other weapons now used in modern warfare the shotgun used by the American troops cannot be subject of legitimate or reasonable protest.

"If the German government should carry out its threat in a single instance," says Secretary Lansing's reply, "it will be the right and duty of the United States to make such reprisals as will best protect the American forces; and notice is hereby given of the intention of the government of the United States to take such reprisals."

The articles of The Hague convention which Germany based its protest was that forbidding the employment of "arms, projectiles or materials calculated to cause unnecessary suffering."

#### First Stanza

Hear the bugle call—  
The call to arms for Liberty—  
See them—one and all—  
They go to fight for you and me.

Heroes we find them,  
Every mother's son—  
We must get behind them  
Till the work is done.

#### Chorus

For your boy and my boy and all the  
boys out there—  
Let's lend our money to the U. S. A.  
and do our share

Every bond that we are buying  
Will help the fighting line  
Buy Bonds—Buy Bonds  
For your boy and mine.

Hear the bugle call—  
The call to those who stay at home—  
You are soldiers all,  
Tho' you may never cross the foam.  
Keep Old Glory waving  
Proudly up above;  
Praying, working, saving  
For the ones you love.

#### Chorus

For your boy and my boy and all the  
boys out there—  
Let's get together till they come back

# The Hun—His Mark!

There is a plain fact that every American business man must face. This war is not a dollar war. It is a war for justice, for truth, for right, and for human decency. Its financial aspects are minor aspects when measured against terms of human suffering and bloodshed.

But still the question must be asked and must be answered by American men: "Shall the German mark conquer the American dollar?"

## What the Dollar Stands For

The American dollar stands for a business world of square dealing, of equal opportunity to all people, of free commercial intercourse all over the world.

You know what the German mark stands for—a commercial system as an active instrument of foul plotting, espionage, and Prussian propaganda.

## Enlist Your Dollars

Every American dollar must be enlisted in the great army that is now being mobilized against the Potsdam autocracy—the great army of the Fourth Liberty Loan.

Enlist your dollars to win a world in which fair dealing and an equal opportunity for all shall be the guiding principles.

Buy all the Liberty Bonds you can. Every bond you buy safeguards your home, your business—all you possess, and all you hope to have.

### FROM PRIVATE PFLEARL

Somewhere in France,  
Sept. 4, 1918

Dear Sister:  
Have not heard from and one back in the States but I keep on waiting just the same.

We are stationed at a beautiful little camp, everything just fine, could not get or want any better. Started to work today at our same old work that we were trained for back in the States. We work from 7 to 11:30 and from 1 to 5:30.

I was in Paris on Monday and can get passes and go there over Sunday, only a short ride there. It is raining tonight, so I did not leave camp; was over to a little town near camp last night. I met some fellows in the same company as Alfred Oswald so I may run across him; don't think he is very far from here.

There is a small lake here and beautiful shade trees all around the camp.

There are having a field met not far from here Sunday—racing, swimming, etc., so I guess I will spend Sunday there.

There are only twenty of us now. Eight left the other day and went some other place.

How is every little thing back home and in Mahanoy City?

Can speak a little French already; will soon learn. I will have to if I want to get out with any of the fellows. Some pretty girls here but not as pretty as back in the States.

Will close with love and best wishes to all.

I remain,  
Your loving brother,  
Pvt. JOSEPH PFLEARL,

### FROM PRIVATE MCCARTHY

Somewhere in France,  
Aug. 18th, 1918.

Dear Parents:

I received your letter and was very glad to hear from you. I had received a letter on August 17th with my picture enclosed. The picture looks pretty good. And so you say that Steve Burke has gone to Camp Lee, Va. I see you received the picture I had taken at Camp Meade. I look pretty good in the picture. That's good that you gave one to Dan and Mary and Sadie and to Steve. I was to church Aug. 4. Every time I say my prayers I pray for all of you at home—every night and morning. I used to do the same thing as when I was at home. Sister, did Father say that I should go to mass as often as I can? All right, I will try to go as often as I can. Yes, sister, I know there is a lot done by saying prayers, and God bless you, little sister Katie, for saying your prayers for me. I am saying prayers for father, mother, and you, sister, every night and morning. I am writing one about every week, that is, on every Sunday. I got the letter you sent and the picture in it all right, that I got taken at Camp Meade. Oh, I forgot about asking for Mary. How is she getting along? Tell her I was asking for her. I see, sister Katie, you and Mary were at Lakeside and you had quite a time. That was good. I am in good health, hoping that you are the same. There is nothing over here that we can enjoy. I guess you miss me. Yes, I hope with the help of God that we will soon be altogether again. Father said I should not wait till I hear from you. I am not waiting for you to write. I am writing a letter every Sunday since the 28th of July and you are writing a couple of times a week. I know I won't get them very quick.

You say in the letter that good news had arrived over there. Everybody was rejoiced; whistles blew, bands played and was jolly. You bet I had some ride. So you got that certificate of the world war and the picture of Camp Meade framed. It must look nice, sister, and you are going to get

your picture taken and send it to me. That will be nice. Sure, I will excuse your writing any time, little sister Katie. If the mail man is coming or not. Oh, that is good that little brother Dannie is working at Buck Mountain every day. I guess the operators are getting scarce. That's very good that you got that money home safe for me. I had been worrying very much about it. We don't get much rain over here any more but it is very dry and warm. The next letter you write don't forget to tell me how everything is going at home. I will come to a close for this time. Some of my soldier friends, Charles Matz, Austin Kramer and Michael Kelly are here and well. Hope letter will find you in the best of health and happy. So good-bye, dear ones. God bless and protect you all the time till Almighty God guides me safe home to you again.

Your loving brother,

## WEEKLY SESSION ORPHANS' COURT

POTTSVILLE, Oct. 1.—The following matters were heard and disposed of by Judge Wilhelm during the weekly session of the Orphans' Court:

In the estate of E. A. Garrigan, minor, the petition to invest funds of the estate was denied.

A citation was directed to issue in the estate of Evan J. Evans.

An order discharging the sureties was filed in the estate of George Faust.

Distribution decrees entered in the estates of Benjamin Cummings, Jr., and Margaret S. Kimmel.

In the estate of Albert Weston, the account was confirmed.

The exceptions to the decree of the Court in the estate of Harry P. Slater were dismissed.

The Schuykill Haven Trust Company was appointed guardian of Florence V. Bolton.

For the purpose of making a review of the condition of the Tumbling Run road between Mulhern's store at Mt. Carbon and the Blythe Twp. line, four miles east from that point, the Court appointed County Viewers J. E. Sonos, C. D. Rishel and S. G. Crawford as a board of viewers. The petition of the township supervisors and a number of property owners is to the effect that the township has not sufficient funds not available tax facilities to repair this road and repairs are absolutely necessary.

### Pay Day on the Hill

Monthly salaries were issued to the officials, clerks and employees of the county institutions to-day and about \$25,000 was paid out by the treasurer in all, the majority of which will be invested in Liberty Bonds of the Fourth issue.

### Licenses Transferred

The Court transferred two liquor licenses; one to John Yudiesska from John Krukes in the first ward, of Shenandoah; and one from John Heisroth to Joseph Richiuti, in the first ward of Mahanoy City.

### Letters Granted

Letters of administration were granted to Louise Stapleton, of Tamaqua, upon the estate of Charles E. Stapleton.

The account in the estate of Stiney Cavenus, of Coal Dale, was filed with the Register by B. F. Duffy.

The inventory in the estate of C. Morris Fegley, of Pinegrove Twp. was filed by F. V. Filbert.

### Marriage License

Mahlon H. Blew and Edna Kramer, both of Tucarora.

### Will Probated

The will of the late Michael J. Coveny, of Port Carbon, was probated by the Register and letters were granted to Rev. C. W. Eberwine.

### Property Transfers

Frank Zoch to J. G. Reichard, lot in Germantown, for \$600.  
Frederick Peters to John Keating, lot in Ashland for \$1,900.

George Burchill to Paul Bill, lot in Frackville, for \$1,500.

### Tried Many, Found the Best

Foley's Cathartic Tablets keep the bowels regular, sweeten the stomach and tone up the liver. J. G. Gaston, Newark, Ind., says he used a great many kinds of cathartics, but Foley's Cathartic Tablets gave him more satisfaction than any other. He says they are the best cathartic tablets made. Sold everywhere. adv

### On the Sick List

Miss Irene O'Brien, employed as assistant cashier at Clarke Brothers' store, is confined to her home with illness. Her many friends hope to see her about soon.

## GOOD-BYE WOMEN'S TROUBLES

The tortures and discomforts of weak, lame and aching back, swollen and bloated feet and limbs, weakness, lassitude, dizziness, nausea, that tired worn-out feeling, nervousness, sleeplessness, as a rule have their origin in kidney troubles, not "female complaints." These general symptoms of kidney and bladder disease are well known—so is the remedy.

Next time you feel a twinge of pain in the back or are troubled with headache, indigestion, insomnia, irritation in the bladder or pain in the joints and lower abdomen you will find quick and sure relief in GOLD MEDAL Haarlem Oil Capsules. This old and tried remedy for kidney disease and allied derangements has stood the test for hundreds of years. It does the work. Pains and troubles vanish and new life and health will come if you continue their use. When completely restored to your usual vigor, continue taking a capsule or two each day; they will keep you feeling fine and prevent a return of your trouble.

GOLD MEDAL Haarlem Oil Capsules are imported direct from the laboratories at Haarlem, Holland. Get them from your druggist. Do not take a substitute. In sealed boxes, three sizes.

**Drew Caissons When Horses Died.**  
There are many tales of heroism in the fighting in France. One concerns a number of boys, belonging to an artillery group, which as a result of constant fire found itself short of ammunition. The lads had volunteered to make a three-mile trip down the road, every inch of which was shell-swept, in order to bring back a fresh supply.

Before the return was completed the horses attached to their caisson wagon were all killed. That circumstance, however, failed to deter the Americans from laboriously dragging the wagon themselves.

## They Got There In Time

**They are in the fight with every muscle, every faculty of their minds, every drop of their American blood**

You have read in the daily news the story of what one detachment of American artillerymen did on the Marne when their ammunition was running low.

Every shell in that caisson meant a speedier winning of the war—all the horses were killed—but the shells got there just the same. And they got there in time.

**Our Very  
Utmost!**

Where shall we draw the limit when we read what they are doing over there? Now is the time to put our full strength into it. Our strength, coupled with the power of our Allies, will win. Let us not delay even a few months.

Let us get there in time to hasten the victory—to save the lives of our sons.

How can any one of us, back here at home, set any limit to the help we ought to give—for victory? And we must get it there in time!

## JUDGE LENAHA FOR SUPREME COURT

Judge Charles B. Lenahan, of Wilkes-Barre, who is a candidate for the Supreme Court, accompanied by Judge O'Boyle, 'Squire Geo. K. Brown, representatives from that district; and former District Attorney J. H. Bigelow, were Schuylkill County visitors to-day and spent some time among the attorneys. Since the retirement of Judge Bechtel from the Supreme Court race there has been a distinctly favorable sentiment among the members of the local bar in favor of Judge Lenahan, who would represent the Anthracite region upon the higher bench. He was given broad encouragement through the section and will poll a very heavy vote in Schuylkill.

## BELGIAN ADVANCE IN FLANDERS

WITH THE BRITISH ARMIES IN FRANCE, Oct. 1.—The Belgian advance in Flanders is continuing rapidly despite some of the most terrific fighting of the war. The British at one point brought their guns up and established them on a ridge facing the German batteries on another ridge only 600 yards away. Then the opposing artillery blazed at each other until the enemy guns were entirely silenced. The Belgians have taken Dixmude, following street fighting which centered about the town hall. Four fresh divisions are reported to have reinforced the Germans opposite the Belgians, including the 100th regiment which sacked Binant early in the war. All enemy guns in Houthulst Forest were captured, bringing the total taken by the Belgians up to more than 300. The British have taken about 100.

### FIGHT TO END, SAYS KAISER

Germany is Now Going to Utilize All Force, He Declares.  
London, Oct. 1.—Emperor William, according to an Exchange Telegraph despatch from Amsterdam, has sent the following to the Westphalian Patriotic society:  
"Germany is decided to utilize all force to fight this enforced defensive war until a victorious end is secured and the Fatherland protected for all time against foreign oppression."  
"A glance at the magnificent successes of our heroic sons and their able leaders ought to protect the German people, even in the changeable fortunes of war, against unworthy discouragement and unjustified doubt."

### Five Escape From Jail.

Chambersburg, Pa., Oct. 1.—Four white men and one negro made their escape from the Franklin county jail here. Some time after midnight they forced their cells, took part of an iron bar and pried bars apart in a third-floor window and with blankets tied together they reached the ground and scaled a high wall. John Yeager and Robert Resecker, both on parole from Philadelphia penitentiary; James Dewalt and Abe Miley, held for larceny, were the white men; Simon Bailey, held for robbery, is the negro.

### NEW YORK HOLDING FAST

"For six years we have used Dr. Caldwell's Syrup Pepsin in our family and feel we could not possibly do without it, especially for the children." (From a letter to Dr. Caldwell written by Mrs. Earl Cowell, Cement City, Mich.)

Children become constipated as readily as do their elders, and the result is equally distressing. Dr. Caldwell's Syrup Pepsin is ideal for children because of its pleasant taste, positive, yet gentle, action, and its freedom from opiates and narcotic drugs.

## THREE JUDGES WERE BUSY

POTTSVILLE, Oct. 1.—Three Judges were busy hearing arguments Judge Bechtel took up the argument upon a rule to open the judgment of \$3,300 in the case of Andrew Breslin, contractor vs. the Shenandoah Elks, the contract balance alleged to be due growing out of the erection of the Elks' Home at Shenandoah some time ago. A. L. Shay argued against the rule and J. A. Noecker and B. V. O'Hare in favor of the same.  
Judge Koch heard argument in the case of Frank Leonard vs. the Atlas Nitrate Products Company formerly of Mt. Carbon at which plant Leonard was burned by acid and a verdict of \$7,500 was awarded him by the jury. The argument was for a new trial. J. F. Whalen arguing in favor of the motion and A. D. Knittle against it.  
Judge Berger heard argument, also for a new trial in the case in which Fred Neifert, of Tamaqua, was convicted of manslaughter in connection with the death of Charles Boner, the 11 year old son of Con Boner, who was run down and killed by the Schilbe truck driven by Neifert. J. O. Ulrich was for the motion and B. F. Duffy against the same.

**Letters Granted**  
The will of Christine Becker, of Tamaqua, was probated by Register Ball and letters were granted to Jno. P. Becker and Mary Sell.

**Marriage Licenses**

David Hoover, formerly employed at Holser's as saddler, left to-day for Philadelphia where he will work on Government requirements in his line.

## DEATH CLAIMS MRS. WM. BURKE

Death claimed Mrs. Wm. E. Burke at 2:45 o'clock yesterday afternoon, at her home, 1028 East Pine street. She had been ill for some time with complications of disease.

Deceased was born in St. Clair 61 years ago. She came to this town at the age of eleven years where she has resided ever since. During the 50 years in which she has resided here she gained many friends through her sterling qualities of womanhood. That she loved her country is proved by the fact that she has already given two sons to the service. She was a devout member of St. Canice's church and never failed to attend to her Christian duties.

The deepest sympathy is extended to her survivors, who are her husband and the following sons and daughters: Wm. A., Mary E., Julia and Edward, Mrs. Daniel Meehan, of Philadelphia; John J., in France, and David A. stationed at the Aberdeen Proving grounds in Maryland. The following also survive: a half sister, Mrs. D. J. Boyle, of Hazleton; a step-sister, Sister Mary Fidelis, of Ovebrook, and a half brother, Frank McCarthy of Hazleton.

Funeral will be held Friday morning.

### WAR CLOUDS HOVER OVER CAMPS OF LOCAL RAG-BONE VENDERS

What do you think of it?  
A RAG AND BONE MEN'S CONSPIRACY IN MAHANOY CITY.  
Ye Gods of Olympus and shades of mortals past, how can this thing be? Now that Austria is war sick and Germany is tottering, now that the Bolsheviks with projectile whiskers have been sent under the yoke and the Bulgarians with their facial tufts have been subjugated—now that the Turk cries for mercy and peace—who would have thought that the grand, roseate prospect of world embracing peace should be disturbed by a desperate conspiracy of the diligent gentlemen of this city, who send, out upon the air their sonorous cry of "Rags! Bones! Gum Boots! Powder Kegs!"  
But verily the conspiracy is on and it's a long, sad story to relate.  
The Tulins, whose seed is like that of Abraham's, as numberless as the sands of the seashore, own rag-bone emporiums along the south side of East Mahanoy Avenue in the vicinity of Tenth street. These men, possessing the distinguished trait of individuality so seldom seen in these days, refuse to be drawn into the vortex of syndicates; that is, they will just do with their own rags and bones as they please. They won't sell to Brenner or any other large dealer in junk unless they feel so inclined. They feel that they have the right to cling to their own rags and bones until they get the price they desire and think consistent. Now, some of the councilmen allege that the large dealer is trying to pull over the "squeeze" play on the Tulins and strip them of their rags, bones, powder kegs, glass bottles—yes, and even their whiskers. Now in order to make it uncomfortable for the Tulins, it is alleged that the syndicate dealer in this city has tried to establish the charge that Tulin's rag-bone temple is filthy and a menace to the health of the city.  
Officers were sent to investigate the charge and found quite a number of old bones and rags there—odorous rags and stinking bones, too. There were found the remains of old bovines, tattered shirt tails and trousers worn by three generations until the predominating features of the biped adornment were the patches and the vanished stripes. Grandmother's moth-eaten shawl and dad's old gum boots were there. Now the officers declare the place unsanitary. The Tulins declared it a fit abode for beast and even man. To show how his horse thrived in that junk temple, Tulin led out the old bay mare. Judging from the way that equine did eat there was nothing wrong with her appetite. There was nothing wrong with her legs, either, for my goodness how she did run! (Of course she did not have to be burdened with a very heavy superstructure. Over the garden wall into war gardens and peace gardens—it mattered not—Tulin's steed galloped. She swallowed cabbage whole and tucked away stalks of corn in the hollows of her thighs for a future meal. Then the

### MUTINOUS GERMANS KILL THEIR OFFICERS

ROTTERDAM, Oct. 2.—Two German officers were killed by 100 mutinous soldiers on the Dutch-German frontier a few days ago. The troops refused to go to the front. Officers ordered them fired upon. Immediately the mutineers shot two officers dead.

### FOCH USING 10 ARMIES AS CROW BARS

PARIS, Oct. 2.—Using ten armies as great crow bars, Marshal Foch is relentlessly prying off the pillars of the German front. At fifteen distinct points these crow bars have stabbed deep into vital places in the enemy line and are being shoved home.  
At least four of the pillars, Roulers, Menin, Cambrai and St. Quentin are tottering while the menace to the others is looming larger every hour.

### "STAGGER" SYSTEM INAUGURATED

WASHINGTON, Oct. 2.—Realizing that street cars are Spanish influenza breeding places the government asked action today to relieve car congestion in the war capital by inaugurating a "stagger" system of operation. Under this government departments will open at new hours, some early as 7.30 and some as late as 9.30.

### MILLIONS FOR SHIPS

WASHINGTON, Oct. 2.—An estimate of \$484,000,000 for construction of wood and steel ships, dry docks and marine railways were laid before the House Appropriations committee by Shipping Board officials today.  
The money will be used, committee-men were told to let contracts for \$800,000 tons of shipping.

### RED CROSS ACTIVITIES

Next Friday evening the Red Cross holds its monthly meeting in the High School building.  
The annual meeting and election of officers take place, October 23.  
Nominations will be made for officers and executive committee on Friday evening.

The monthly meetings are always sufficiently interesting to warrant the attendance of a public anxious to help to win the war.  
There is a great line of activity in our chapter. Many willing hands are making surgical dressings and garments.

The chapter is called upon to do a certain amount of work and has work rooms in the High School building and in the Knights of Columbus Hall.  
The work is purely voluntary and opportunity is given everybody to join in.

A large amount of supplies is needed to keep the pace and meet the requirements.  
Much more will be needed the next year.

Solicitors for the Red Cross War Fund should collect balance in full on all accounts outstanding.  
October 1 was the limit of time for payment.

Every pledge given must be accounted for in each district.  
No family will refuse to make good, its promise to the Red Cross War Fund.

No solicitor will neglect to do his part in closing up the work so well begun.  
Solicitors are requested to make the calls and finish the work that final statement can be made by the campaign committee.

### AMERICANS ACTIVE IN THE ARGONNE

By Fred Ferguson.  
WITH THE AMERICANS WEST OF VERDUN, Oct. 2.—While activity in the remainder of the line is confined to repulsing bitter counter-attacks and consolidating newly won positions, the Americans in the depth of the Argonne Forest are shoving forward somewhat to-day.  
Overcoming almost insurmountable obstacles they are recapturing their lines. The density of the forest renders liaison most difficult but each group goes forward as rapidly as possible maintaining communication with the aid of runners.

### JOSEPH QUIN DIED IN PHILADELPHIA

Joseph Quin, son of Mr. John T. Quin, of this city, died at 6.45 o'clock this morning at Philadelphia, following a brief illness of pneumonia and grip. His brother, Thomas F. Quin, the well known meat merchant of this city, was at his bedside when dissolution occurred.  
The departed, a highly esteemed young man whose death is so generally regretted here in his former home town, was aged about 35 years. He left this twelve years ago and became an employee of the Pennsylvania Railroad Company in the Advertising Department. Prior to that he was employed as a shoe salesman. He was unmarried.

His survivors are his father residing here; three sisters—Mrs. Mary O'Hara, Miss Clara and Miss Rose Quin, of Philadelphia and four brothers—Thomas, John and Robert Quin of this city and William, a twin brother in Philadelphia.

Sympathy is offered the bereaved relatives in their sudden and great grief.

### Don't Try to Avoid a Plain Duty

(Publicity Bureau)

Buy of the Fourth Liberty Loan in such an amount that you can look your fellow man square in the eyes unflinchingly, and into the eyes of the crippled or maimed returned son of your neighbor with the consciousness you did all that was humanely possible for you to do to back up that boy while he was fighting yours and the world's battle for liberty.

We should all feel grateful for the opportunity afforded in the Fourth Liberty Loan to do something for so grand a cause. It is not sacrifice to spend our last cent and then run into debt to buy Liberty Loans. Rather it is an opportunity, a privilege afforded us to do even so small a part in this great world struggle. What a glorious thing, it will be to say, when a just and honorable peace has been obtained—"I helped."

These are poor times to try to avoid a plain duty. The records will prove what you have done, or have not done. You will receive no praise for doing what you ought to do. But just what will be handed out to the fellow who has dodged his share of the burden is a question the fellow of that class should consider very thoroughly now. Otherwise he will have much time to regret he was a slacker.

There is only way now to prove that you are an American, only one way now to prove that you condemn the Huns for their bestialism, their vandalism, their barbarities, their inhumanities. There is only one way to prove now that you don't want to place all of the burden of saving the world upon the shoulders of the gallant band of young fellows in khaki, who are suffering the tortures of hell, for your benefit, and that is by buying bonds with all the money you now have and by going into debt for more.

Germany is tottering. President Wilson's ultimatum, plus the gigantic preparations for a final clean-up, have the Potsdam crowd jibbering like a lot of monkeys. When Pershing said to his boys—"Heaven, hell or Hoboken by Christmas," he might have been passing a pleasantries, and again he might have intended that as gospel truth. The thought is a pleasant one, and if you want to help make it a reality, subscribe for the Fourth Liberty Loan. Subscribe heartily. It may make dreams come true. At any rate it will make that Potsdam bunch of Hohenzollerns peeve just a little more peevishly.

### A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes  
—Most Women Can Have

Says Dr. Edwards, a Well-Known  
Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, hollow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

Blight

Chestnuts will be scarce—a blight has hit the trees. A blight is also reported on potatoes and pears.

### COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed with Sulphur it Darkens  
so Naturally Nobody  
can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

## MAHANAY CITY LADY NOW HAS GOOD HEALTH

A yellow complexion, accompanied by indigestion and a run down system was the cause of much alarm to Mrs. Geo. Wulda, of 625 East South street, Mahanay City, until she learned of Tanlac, the Master Medicine.

"My condition was badly run down and I was continually troubled with my stomach," said Mrs. Wulda, "I was losing sight and nothing I tried seemed to do me any good. I would get such severe pains in my stomach that I could hardly stand on my feet.

"On some days my complexion became so yellow that I was much alarmed over my condition. Then I heard about Tanlac. It certainly is building me up. What I eat agrees with me and my natural complexion is returning.

"My indigestion is improving and I am gaining in weight. I am enjoying better health than I have known for some time and I cannot praise Tanlac too highly.

Tanlac is being specially introduced at H. J. Krebs' drug store. ad

## JACKSONS RED CROSS SOCIAL

The coffee social of the Jacksons Red Cross Auxiliary was somewhat increased to-day and a full house of social and dance which was held last evening. The social was a successful affair was in the hall of the school house where there were stands with all kinds of good things to eat, and drink, and where no one could do his next day's marketing. The grounds were tastily decorated with the flags of the Allies and Red Cross standards, together with autumn leaves.

The dance hall was a dream. Autumn leaves which had begun to color red were tacked to the wall in the shape of crosses and with the Allied flags which were neatly draped from the ceiling, plainly showed that the young ladies engaged have some taste in decorating line. Following are the decorators: The Misses Regina and Mary McLoughlin, Josephine McClosky, Maude Walsh, Mary Brennan and Jane O'Brien. The music for the dance was supplied by the Lithuanian Band of Shenandoah.

The holdup system was used on the road, where a number of boys held a flag stretched awaiting for autoists to contribute. They collected a nice sum in this manner.

The patriotic people of Jacksons are to be complimented for the manner in which the highly successful affair was held. Our hats are off to the ladies of the Jacksons Red Cross Auxiliary.

## RIOTERS IN BERLIN CLAMOR FOR PEACE

Cheering Mobs Flock to Bulgarian Legation.

HERTLING ALLOWED TO QUIT

Kaiser Drops Chancellor and Foreign Minister—Public Excitement Over Balkans Great.

London, Oct. 2.—A peace demonstration took place in Berlin Saturday, according to news received here. Cheering crowds assembled in front of the Bulgarian legation, necessitating police intervention.

The rioters, according to the information, got the upper hand of the authorities and committed excesses.

A number of statues in the Berlin squares were destroyed.

There is the greatest excitement in Germany over the defection of Bulgaria, judging from special despatches from Holland.

The effect of the resignations of the chancellor, Count von Hertling, and the foreign minister, Admiral von Hintze, on the public mind is not yet reported.

Friedrich von Payer, the imperial vice chancellor, has resigned, according to an Amsterdam despatch to the Central News.

(That von Hertling and von Hintze had resigned was reported Saturday. Berlin advices said the emperor had accepted the resignations.)

Saturday the excitement amounted to a panic. According to some reports the panic particularly affected the Berlin bourse, where war industry stocks slumped violently.

Panic also struck reichstag and newspaper circles and public offices. The alarm brought forth by the instant demand that "something be done."

A despatch to the Daily Mail from The Hague says the demand is for somebody possessing the confidence of the Germans and their allies to replace the present military oligarchy. Opinions clash regarding who this vague personality might be.

All reports indicate a decided cleavage between the Junker and Conservative classes and the Socialists and Radicals, who on this occasion have the support of some Centerists (Catholic party) and National Liberals.

Emperor William's belated anxiety for the people to co-operate in the government evidently will be distasteful to the Junkers. One of their foremost newspapers, the Kreuz Zeitung, declares a dictatorship is the only possible alternative. The demand of the popular parties is for a popularly elective cabinet.

The German press is hysterically emphasizing that the need for cool heads never was greater than now. The possibility, never before visualized, is beginning to dawn on the people that Germany may lose the war, and the suddenness of this realization has had a bewildering effect.

The Zeitung and Mittag approves, as appropriate to the occasion, the sensational editorial printed in Vorwarts last week dealing with what would happen should an enemy succeed in invading the Fatherland. It says:

"Our government throughout this terrible war has sedulously avoided flinching at this, and the other possibilities, namely, that the way may be lost to everybody and everything are not in the utmost effort.

"The government has thus itself contributed to veiling the real gravity of our position during these four years of war. It has preferred to lead the nation in blinkers past the abyss of danger to our national life."

### TWO STATES FILL QUOTA

Iowa and South Dakota Subscribe Bond Allotment.

Chicago, Oct. 2.—Two states in the middle west—Iowa and South Dakota—have subscribed their allotment of the Fourth Liberty Loan in the first three days of the campaign.

The figures were official. It was said there would be a large oversubscription before the close of the drive. Reports at headquarters of the seventh federal reserve district showed that Iowa had sold \$148,920,000 worth of bonds, with some counties yet to be heard from. The allotment of the state was \$147,100,000.

The quota of \$38,000,000 for South Dakota was officially reported as subscribed by the state manager of the campaign.

### American Review Would Take 51 Days

Washington, Oct. 2.—It would take the American army, marching in infantry formation, fifty-one days to pass one point. Representative Lunn, Democrat, New York, so told the house in illustrating the magnitude of America's war preparations. To show the rate at which the army is growing, Mr. Lunn said that if such a review were to be held next June, it would take the troops three months steady marching to pass one point.

3,000,000 People in America  
Take Nuxated Iron  
In This Country Alone  
For Red Blood, Strength  
and Endurance

"To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron," says Dr. J. A. Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept. New York), and the Westchester County Hospital. Nuxated Iron often increases the strength and endurance of the weak, nervous, run-down people in a few weeks' time. It is conservatively estimated that Nuxated Iron is now being used by over three million people annually, and it has been used and endorsed by such men as Hon. Leslie M. Shaw, former Secretary of the Treasury and ex-Governor of Iowa; former United States Senator and Vice-Presidential Nominee Chas. A. Towne; General John L. Clem (Retired), the dramatist Loy of Shiloh, who was Sergeant in the U. S. Army when only 12 years of age; also United States Judge G. W. Atkinson of the Court of Claims of Washington, and others. Nuxated Iron is dispensed by all good druggists everywhere.

## SUFFRAGE BEATEN IN SENATE BY 53-31

Washington, Oct. 2.—By a vote  
of 53 to 31, the senate failed to give the  
two-thirds majority necessary to  
adopt the resolution passed by the  
house submitting to the states the  
Susan B. Anthony suffrage amend-  
ment to the Federal constitution.  
Before the vote was announced  
Senator Jones, New Mexico, Democrat,  
chairman of the woman suffrage com-  
mittee, changed his vote from ye to  
nay in order to ask that the vote be  
reconsidered and the resolution left  
pending.

The majority lacked two votes of  
the necessary two-thirds, and the  
change recorded for Senator Jones  
made it three.

The defeat of suffrage came in the  
face of a new plea by President Wil-  
son. He supplemented his address on  
Monday in his support, by sending per-  
sonal letters to several Democratic  
members regarded as opponents, urg-  
ing them to give the measure their  
vote.

Before the final vote, the senate re-  
jected, 61 to 22, the proposal of Sen-  
ator Williams, Democrat, Mississippi,  
to limit the franchise to white women.  
The senate also rejected, 64 to 17,  
an amendment by Senator Fletcher,  
Democrat, Florida, designed to apply  
the resolution's prohibition against  
bridgement of the franchise because  
of sex to the federal government only.  
The senate rejected the proposal of  
Senator Frelinghuysen, Republican,  
New Jersey, to restrict suffrage to  
men and women who have acquired  
citizenship by birth or naturalization.  
It tabled his amendment, 50 to 33.

## ENEMY TORPEDO BOATS SUNK

COPENHAGEN, October 2.—Ger-  
man torpedo boats whose crews are  
attempted to take them out of the  
harbor during August were pursued  
by cruisers and sunk, according to in-  
formation received here to-day. The  
attack is said to have been confirmed  
by washing ashore of 160 bodies.

36 German sailors were executed  
at Kiel recently as the result of a mu-  
tiny against submarine duty, it is re-  
ported.

At Kperpos 6,000 Austrians were  
reported to have refused to go to the  
West front.

## PLANNING BIG CELEBRATION

POTTSVILLE, Oct. 2.—With the  
supply of buttons about exhausted,  
Chairman D. W. Keaecher, made a  
hurried trip to the headquarters of  
the Third Federal Reserve Bank at  
Philadelphia to-day and to the State  
headquarters in an effort to secure  
enough of the buttons to supply the  
demand for them which are being  
made through the banks. At least  
50,000 will be needed in the county  
during the coming week and with a  
requisition of 30,000 already exhaust-  
ed it looks as though Schuylkill Co.  
would be one of the first to conclude  
its campaign with practically 100 per  
cent. of available subscriptions.

From every section of the county,  
reports are most encouraging and be-  
fore the expiration of the first ten  
days of the campaign, it is estimated  
that the total will have been reached  
and passed, but reports of the opera-  
tions of the ward committees may be  
a little slow in arriving at headquar-  
ters due to the fact that the subscrip-  
tions are paid in the banks.

### Planning Big Celebration

When the Liberty Train comes  
through the county on Saturday, Oct.  
12th; (Liberty Day under proclama-  
tion of President Wilson) and also  
Columbus Day; monster celebrations  
will be held in the county towns in-  
cidents to the visit of the trains.  
"Subscriber's parades" in which the  
industries having full or partial per-  
centages will be given precedence, ac-  
cording to their achievements will be  
in several of the towns, including  
Pottsville and Tamaqua, which will  
be the most novel and inspiring spec-  
tacles in connection with any of the  
four loans. There will also be divi-  
sions of honor showing those who  
have relatives who have made the  
supreme sacrifice; honor divisions  
for those who hold bonds of the four  
Liberty Loans, and a reviewing stand  
for the slackers who have neither  
bonds or faith in the part the United  
States has undertaken for the free-  
dom of humanity.

The stand will be erected on some  
prominent corner and the bond slack-  
ers will be invited to occupy the  
best seats and review the pageants of  
patriots.

### Meetings For The Remainder of the Week

To-night's big meeting at the Potts-  
ville Armory will add impetus to the  
work of soliciting subscriptions in  
Pottsville.

Mahanay City's big meeting will be  
held to-morrow (Thursday) night  
when addresses will be made by pro-  
minent speakers.

The ladies committee will entertain  
Mrs. Miller, State Chairman of  
Women's Committee, at the Outdoor  
Club to-morrow afternoon.

### Dale To Be Re-Sentenced

Following the argument in the case  
of Alexander Dale, of Gilberton,  
sentenced to death for the murder of  
Charles Schwartz last March, the  
Supreme Court on Monday directed  
that Dale be re-sentenced to death  
by the local court. The sentence  
passed by Judge Bechtel was the  
same in the Dale case as in several  
previous cases and while no specific  
error was found or set out by the  
Supreme Court it is believed that all  
sentences of electrocution must be  
altered in future so that if more than  
one shock is necessary to kill, the  
second and subsequent shocks will  
have been "legally" applied. The  
sentence will be re-imposed and Dale  
will be sentenced to be "shocked and  
re-shocked" until dead. Following the  
new sentence the case will be again  
appealed to Supreme Court.

Catharine Eckler, were the guests of  
Pottsville relatives last evening.

George Uren and William Filer, of  
Frackville, were town callers Tues-  
day evening.

James Toland, for the past several  
years employed by the Kafer Com-  
pany, left this morning for Philadel-  
phia where he will make his future  
home.

## CITY OF LILLE EVACUATED

PARIS, Oct. 2.—The City of Lille is  
being evacuated by its civilian popu-  
lation, according to advices received  
here today.

Lille, one of the chief cities of Nor-  
thern France and one of Germany's  
strongholds, is seriously menaced by  
the British advance at Cambrai and  
the Belgians gain in Flanders, which  
are putting them in a pocket.

### Death Claimed Joseph Homa

Joseph Homa, aged 23 years, died  
at his home, 326 West Market street,  
at 1:30 o'clock this afternoon follow-  
ing a week's illness with pneumonia.

Deceased was a member of Greek  
church and belonged to the society of  
St. John the Baptist, connected with  
that church. He was one of the first  
ward's most popular young men.

Sympathy is extended to his sur-  
vivors who are his parents, residing  
in the old country, his widow, one son,  
and three brothers. He is a son-in-  
law of George Hydock, the prominent  
first ward grocer.

### Death of Harold Wayne

Death claimed as its toll, Harold  
Wayne, the one-year and three month  
old son of Mr. and Mrs. Norman Par-  
fitt. Dissolution occurred Tuesday  
morning, at the home of the child's  
mother in Slatington. Norman Par-  
fitt, father of the dead child, is some-  
where in France fighting for Demo-  
cracy.

The deepest sympathy is extended  
to his survivors, who are his parents,  
and one brother, Jas. The body will be  
brought to the home of his grand-  
parents, Mr. and Mrs. James Parfitt,  
of 726 East Mahanay street, from  
which place funeral will take place.

## FLAG RAISING AT BOSTON RUN

The residents of Boston Run will  
hold a flag raising on October 11th,  
in honor of the boys from that village  
who are now in the service. The  
service flag will contain 13 blue stars  
and one gold star for Jno. Bailey Gill,  
who died of disease "over there."  
Following is a list of the boys from  
Boston Run in whose honor the flag  
will be raised: Richard Sherry, Wm.  
O'Neill, Geo. Heffner, Mack Neary,  
John Gill, (died in France), William  
Horan, Bruce Cooper, Wm. Morgans,  
David Evans, Harry Hughes, Elmer  
Kleckner, David Morgans, Harry  
Morgans, Geo. Matules.

### In Baby Land

A baby boy was born unto Rev. and  
Mrs. D. P. Longsdorf at the Fountain  
Springs hospital this afternoon. All  
concerned are well, and the father,  
who is pastor of the United Evangeli-  
cal church, is beaming with joy.

### BORN

To Mr. and Mrs. James Lawlor at  
their home in Philadelphia, a baby  
girl. All concerned are well, thank  
you.

Mother was formerly Miss Eleanor  
Bausman, of town.

## Don't Waste Coal just to get the Bathroom Extra-Warm

You do like it extra-warm for a bath. Surely. But  
isn't it wasteful to fire up the furnace just to get that  
one room warmer than the rest of the house? For such  
occasions and any occasion that calls for extra heat in  
any room you need a Perfection Oil Heater.

## PERFECTION OIL HEATERS

are a wonderful help in saving coal and cutting down  
fuel expense. They are small in size but big in heating  
capacity. With very little attention your Perfection  
is ready at all times for the living room after the fire is  
fixed for the night; for getting-up time when the bed-  
room is still chilly. You'll find use for it somewhere  
in the home every day of winter.

Of course, one of the finest features of a Perfection is that it burns  
kerosene—an economical fuel. That means money saved. But all  
kerosenes do not give the same kind of results in a Perfection. It's  
a matter of quality. So, to be sure of getting perfect satisfaction  
from your Perfection always insist on getting Atlantic Rayolight  
Oil. It is so highly refined and purified that it gives a steady, radi-  
ating heat without smoke, smell or sputter. Ask for it by name.

And now is the best time to buy your Perfection Oil Heater. Don't  
put it off. Your dealer should have a good supply on hand now but  
there is going to be a big demand later. They are reasonably priced  
—\$5.65 to \$10.00. The Perfection is safe.

## GEORGE GILGOUR EX-MINE FOREMAN DIED AT POTTSVILLE

George Gilgour, ex-mine foreman  
for the P. R. C. & I Co., died at his  
home on South Third street, Potts-  
ville, at an early hour this morning  
of paralysis. He was a septuagenar-  
ian.

Mr. Gilgour resided in Mahanay  
City for a period of thirty-five years  
prior to his removal to the county  
seat. He came to Mahanay City from  
Minersville and was made inside for-  
men at the Mahanay City colliery.  
Owing to failing health he relin-  
quished his duties in 1906 and retiring  
removed to Pottsville.

The deceased is survived by his  
wife.

By creed Mr. Gilgour was an Epis-  
copalian. Fraternally he belonged to  
Gen. Grant Lodge, No. 575, Indepen-  
dent Order of Odd Fellows, Mahanay  
City Lodge, No. 357, F. and A. M., Miz-  
pah Chapter and Ivanhoe Command-  
ery.

His many friends in Mahanay City  
and vicinity regret the passing of  
such a splendid mine official and citi-  
zen.

The funeral will take place Friday  
afternoon from his late home in  
Pottsville. Interment will be made  
at the Odd Fellows' cemetery at the  
county seat.

Robert Dolbin, of this city, is a  
nephew of the departed.

## COUNCIL

(Continued from page 1)

officers were going to arrest Tulin and his mare. Tulin said "he would be damned if he'd pay any license or ask for any permit to run his bone factory." The other Tulin passed their fingers through their hair and nodded "yca!" in assent, thus virtually swearing alliance should anything like trouble come out of the situation. One of the officers (Councilman Fisher said he was informed by two citizens who don't know how to lie) flashed a billy and was about to wield the same. The officer declared he had to when so many of the Allied junkmen stood about with "fire and blood" in their eyes. "An outrage," declared Fisher, "to discriminate against a poor rag vender." The second ward councilman, who is well versed on State Law and can quote it verbatim section after section, shook his fist and his head and said he would not tolerate making fish out of one junkman and hamburger cheese out of the other. No, to be exact, he said he did not believe it fair "to make fish out of one junkman and flesh out of another." Either would be some process on a junkman, would it not?

"These are venerable men—these junkmen—they have come down to us from a former generation. Their ancestry is one scintillating with historic brilliance. These are the men from far off over there," said Fisher. "Let us treat them as men should be treated," he continued.

Some of the councilmen were moved to tears as Fisher spoke and as he called to the stars and the far-off murmuring sea to attest to the truth of his statements.

### The Meeting

Councilmen present were:  
First Ward—Maher, Boczkowski, Anceravage.  
Second Ward—Fisher, Adam.  
Third Ward—Stern, Reed, Griffith.  
Fourth Ward—Heinze, Barr, Lloyd.  
Fifth Ward—Martin, Gately, Price  
Total—14.

Officers present were: Solicitor Ryan, Chief Burgess Edwards, Supervisor Brownmiller, Chief Fire Marshal John Sullivan, High Constable Richards, Borough Electrician Pius Yodesky and Treasurer Becker.

### Voluminous Minutes

Secretary Cisarik read the minutes of the previous regular and special meetings. They were adopted as read.

A document most voluminous were the minutes, the chest expansion of Secretary Cisarik being put to a supreme test. He almost took the count twice with bellows to mend. However, he finished in strong voice having gained his second wind.

### Many Complaints Reported

Reed in behalf of the Elks stated that water running from the street into the cellar of the Elk Home. Burgess Edwards stated that he had served notice on the offending party. No compliance has yet been reported but a promise has been secured for the abatement of the nuisance.

Chief Burgess reported Boharad of the Fifth Ward as saying he is not responsible for the nuisance in the vicinity of 8th and East Mahanoy Avenue.

Martin complained of the condition of the sewer near 7th and East Mahanoy. It is blocked.

### The Rag Venders

High Constable Richards has instructed local rag venders to purge their stables on East Mahanoy Ave. He reports the dispensers of rags as literally ignoring the borough officials. Richards asked council's advice. Fisher mentioned the name of another junk dealer who violates borough ordinances. He urged action against all with no favor to be shown toward any. Reed charged that the rag men are openly violating the borough ordinance.

Fisher said council, not the Board of Health, has a legal right to grant the right to ragmen to store bones and rags in the borough. Martin shot over a soporific verbal punch at Fisher stating that the latter at a recent meeting had stated that a permit had been granted, a permit by ordinance to store rags, etc., and that now Fisher says the ordinance on the subject is of no effect and contradictory to state mandates. Said Martin to Fisher, "You don't know what you are talking about." Fisher assured Martin that he always knows what he is talking about and that state law is always paramount to borough ordinances.

### Machine Gun Work

Before the matter was referred to the Solicitor and Law and Ordinance Committee Fisher and High Constable hurled hot shots at each other relative to the arrest of an up town junkman without warrant. Fisher declared a ragman conspiracy reigning here as desperate and treacherous as Bolshevik brigands.

### The Garbage Situation

President Gately reported that Borough Manager William Jones resumed his duty Tuesday, Oct. 1st and assisted in garbage collecting in the absence of sufficient men.

The old schedule of collections will remain in effect. Only one team was on the job to-day but more will be secured shortly.

### Reports of Officers

Chief Burgess (Edwards)—Collections, \$122.75; salary due, \$47.50.

Treasurer (Becker)—Balance in hand month ending Oct. 1st, \$641.03; balance in sinking fund Oct. 1st, \$8,471.62.

Supervisor (Brownmiller)—Highway expense including salary (\$32.50), \$547.24; street lighting labor, \$3.90.

Chief of Police (McLaughlin)—Arrests, 9; fines, \$46.00; salaries due chief and patrolmen; lights out 355 hours.

### Committee Reports

Street (Barr)—Contractor Post has commenced work on creek walls.

A complaint was submitted by Barr from Geo. Barlow relative to the condition of the sewer on South Main street.

Four borough employees have demanded a wage increase. They ask \$2.00 per diem.

Land Agent Hess will receive representatives of council relative to a dumping ground. He wishes council to draw up with him an agreement. A feature of the agreement—all paper is to be burned and all ashes removed from the main P. & R. offices. The matter was referred to the Law and Ordinance Committee.

Fisher called council's attention to a depression on North Main street east side, first square beyond the bridge.

Fire and Water (Martin)—Recommended payment of appropriation of firemen. Same was paid on motion of Price.

Police and Light (Reed)—The viewers in the borough case will hear testimony on Nov. 15 instead of Nov. 6th.

Solicitor Ryan will appear for the borough in the hearing vs. the Schuylkill Railway Company at court next Monday when the case is argued.

Sanitary (Adam)—The junk dealers are going beyond their limit. The committee urges immediate action.

The foregoing reports were accepted and the respective orders due granted.

### The Creedon Bill

Adam moved that Contractor Creedon be paid for the days he worked—that is, the exact sum he is entitled to.

Heinze declared Creedon's entire salary to September 22nd due, the time of the expiration of contract. Payment was deferred pending investigation by council.

### As To Raise For Street Men

Martin questioned the fairness of raising the wages of four street sweepers while the other roadmen receive \$2.50 per day. President Gately declared the notice very short. Lloyd urged an increase for the men on the street and in the sewers. Lloyd moved that the wages be advanced to \$3 per diem and that the men subordinate themselves to the supervisor's orders and not, as Fisher said, consider themselves of the kid glove variety. Gately leaving the chair (Reed in chair) offered an amendment that men while at work in sewers or at garbage duties receive \$3.00 per day. Griffith seconded the amendment which carried.

### Error in Assessment

The secretary of council was instructed to notify the tax receiver that the estate of Otto Boner which is now a matter of history is still being assessed. It is in error. Mr. Boner died several years ago when the property was distributed among the heirs.

The Humane Fire Co. was granted permission to take their truck to Shenandoah and down the valley on an advertising trip Oct. 9th. Fire Marshal John Sullivan asked the privilege.

A communication was received from Division Superintendent John Price, of the Lehigh Valley Coal Company, offering a site on the company's property at the east end of the city for garbage-dumping purposes. Communication was accepted and filed. Mr. Price was tendered a vote of thanks.

### As To Coal Tax Revision

Port Carbon Council conferred with the Mahanoy City Council urging the raising of funds by assessment for the carrying on of tax revision of coal lands in Schuylkill County. Solicitor M. J. Ryan outlined the function of the organization and work thus far accomplished.

"It is possible and essential that coal lands be assessed at \$3,000 per acre." The County Commissioners offered little assistance. This is based on biddings of expert mining engineers. Mr. Ryan thought council ought to heartily endorse the measure. The lawyers have endorsed it. The triennial assessment is coming. It is time to act, said Mr. Ryan.

## DAY OF JUDGMENT COMING

In sentencing a German preacher, convicted of the charge of uttering seditious remarks and interfering with the military activities of the Government, Chas. F. Amidon, Federal District Judge for North Dakota, delivered an address on the duty of the foreign born in the United States and the duty of the United States to the foreign-born. The accused was the Rev. J. Fontana, of the German Evangelical Church of New Salem, N. D. Following is what Judge Amidon said:

You received your final papers as a citizen in 1898. By the oath which you then took you renounced and abjured all allegiance to Germany and to the Emperor of Germany, and swore that you would bear true faith and allegiance to the United States. What did that mean? That you would set about, earnestly growing an American soul, and put away your German soul. That is what your oath of allegiance meant.

Have you done that? I do not think you have. You have cherished everything German and stifled everything American. You have preached German, prayed German, read German, sung German. Every thought of your mind and every emotion of your heart through all these years has been German. Your body has been in America, but your life has been in Germany. If you were set down in Prussia today you would be in harmony with your environment. It would fit you just as a flower fits the leaf and stem of the plant on which it grows.

You have influenced others who have been under your ministry to do the same thing. You said you would cease to cherish your German soul and that you would begin to build up inside of you an American soul. That meant that you would begin the study of American life and history; that you would open your mind and heart to all of its influences; that you would try to understand its ideals and purposes, and love them; that you would try to build up inside of yourself a whole group of feelings for the United States, the same as you felt toward the Fatherland when you left Germany.

There have been a good many Germans before me in the last month. They have lived in this country, like yourself, ten, twenty, thirty, forty years, and they had to give their evidence through an interpreter. It has been an impressive part of the trial. As I looked at them and tried, as best I could, to understand them, there was written all over them, "Made in Germany." American life had not dimmed that mark in the least. It stood there as bright and fresh as the inscription upon a new coin.

I do not blame you and these men alone. I blame myself. I blame my country. We urged you to come; we welcomed you; we gave you opportunity; we gave you land; we conferred upon you the diadem of American citizenship—and then we left you. We paid no attention to what you have been doing.

And now the world war has thrown a searchlight upon our national life, and what have we discovered? We find all over these United States, little Germanies, little Italies, little Austrias, little Norways, little Russias. These foreign people have thrown a circle about themselves, and instead of keeping the oath they took that they would try to grow American souls inside of them they have studiously striven to execute everything American, and to cherish everything foreign.

A clever gentleman wrote a romance called "America, the Melting Pot." It appealed to our vanity, and through all these years we have been seeing romance instead of fact. That is the awful truth. The figure of my country stands beside you today. It says to me: "Do not blame this man alone. I am partly to blame. Punish him for his offense, but let him know that I see things in a new light; that a new era has come here! Punish him to teach him and the like of him, and all those who have been misled by him and his life, that a change has come; that there must be an interpretation anew of the oath of allegiance. It has been in the past nothing but a formula of words. From this time on it must be translated into living characters incarnate in the life of every foreigner who has his dwelling place within our midst. If they have been cherishing foreign history, foreign ideals, foreign loyalty, it must be stopped, and they must begin at once, all over again, to cherish American thought, American history, American ideals."

I am not so simple as to entertain the idea that racial habits and qualities can be put aside by the will in a day, in a year, in a generation; but because that is difficult is all the more reason why you should go about it and quit cherishing a foreign life. If half the effort had been put forth in these foreign communities to build up an American life in the hearts of these foreign-born citizens that has been put forth to perpetuate there a foreign life our situation would have been entirely different from what it is today. You have violated your oath of allegiance in this, that you have cherished foreign ideals and tried to make them everlasting. That is the basic wrong of these thousands of little islands of foreigners that have been formed throughout whole limits, that instead of trying to remove the foreign life out of their souls and to build up an American life in them they have striven studiously, from year to year, to stifle American life and to make foreignness perpetual. That is disloyalty; and the object, one of the big objects of this serious proceeding in this court, and other like proceedings in other courts, is to give notice that that must be stopped.

I have seen before my eyes another day of judgment. When we get through with this war and civil liberty is made safe once more upon this earth there is going to be a day of judgment in these United States. Foreign-born citizens and the institutions which have cherished foreignness are going to be brought to the judgment bar of this republic. That day of judgment looks more to me today like the great Day of Judgment than anything that I have thought of for many years. There is going to be a separation on that day of the sheep and the goats. Every institution that has been engaged in this business of making foreignness perpetual in the United States will have to change or cease. That is going to cut deep, but it is coming. I recognize the right of foreign-born citizens to hear their religion, if they cannot understand it in English, spoken to them in the tongue that they can understand. If they have not yet acquired enough English to read, they are entitled to have a paper that shall speak to them the language that they can understand. I cannot go further than that.

And this is the capital thing that is going to be settled on that day of judgment; namely, that the right to these things is temporary, and it cannot be enjoyed by anybody who is not willing to regard it as temporary and to set about earnestly making the time of that enjoyment as short as possible. That means a fundamental revision of these foreign churches. No freedom of the press will protect a perpetual foreign press in these United States. It won't protect any press or any church who, while it is trying to meet a temporary need, does not set itself earnestly about the business of making that temporary situation just as temporary as possible, and not making it, as has been true in the past, just as near perpetual as possible.

Men who are not willing to do that will have to choose. If they prefer to cherish foreign ideals they will have to go to their own. If it is necessary we will cancel every certificate of citizenship in these United States. The Federal Government has power to deal with that subject and it is going to deal with it. Nothing else than that surely can be possible. And the object of the sentence which I pronounce upon you today is not alone to punish you for the disloyalty of which you have been guilty, but to serve notice upon you, and the like of you, and all of the groups of people in this district, who have been cherishing foreignness, that the end of that regime has come. It is a call to every one of you to set about earnestly the growing of an American soul inside of you.

The Court finds and adjudges that you are guilty under each count of the indictment, and as a punishment therefor it is further adjudged that you be imprisoned in the Federal Penitentiary at Leavenworth for the term of three years. The sentences under the three counts of the indictment are to run concurrently and not successively.—Public Ledger.

# I am only a cog

I am only a cog in a giant machine, a link of an endless chain:—

And the rounds are drawn, and the rounds are fired,  
and the empties return again;

To the shelf where the set fuse waits the breech,

Smoke and spark of the gun-machine that is fed by  
the endless chain.

The ammunition carrier is only a link in the great war machine, but he is as vital a link in the chain as the man who goes over the top. And back of the ammunition carrier comes the ammunition maker and the railroad worker and the thousands of varieties of war workers until it all comes straight home to the individual man and woman

I am only a cog in a giant machine, but a vital link  
of the chain;

And the captain has sent from his wagon-line to fill  
his wagons again;

From the wagon-limber to gunpit dump; from  
loader's forearm at breech

To the working party that melts away when the  
shrapnel bullets screech.

So the restless section pulls out once more in column  
of route from the right

At the tail of a blood-red afternoon; so the flux of  
another night

Bears back the wagons we fill at dawn to the sleep-  
ing column again—

Cog on cog in the gun-machine, link on link in the chain!

### USE CASH AND CREDIT TO BUY LIBERTY BONDS

(Speech of Judge Koch, Four-Minute Man)  
Ladies and Gentlemen—In this, as in all other towns and cities, we maintain our police force, our public highways, our street lighting and our public schools by taxation. Without such taxation, we could not maintain any of these things and we would have poor streets, no protection, no street lights, no schools and no local government. Our system of taxation is so arranged that we annually raise just as much money as we need to conduct our local governmental affairs. Now, if our city commissioners were to decide to put up a city hall costing \$1,000,000 and were to levy a tax to pay for the total cost of building that hall, in addition to levying the taxes necessary for maintaining the city government during the year, you would go into court and apply for an injunction to restrain the city from levying the enormous additional tax of \$1,000,000 this year, because your taxes would thereby become from ten to twenty times as heavy as they now are and many of you could not stand them. You would compel your city government to borrow the money by issuing bonds, payable some years in the future, so that the burden of the cost of a new city hall would not be carried by us alone in one year, but would be made light by distributing it over a period of many years. What is true of the city government is exactly true of the state government and of the United States Government. The United States annually levies taxes amounting to millions of dollars, and if the government should undertake to make us pay the expenses of this war, as those expenses arise, the burden would be more than we could bear. Our taxes might be increased twenty-fold and even more, and that might make us so poor that instead of being obliged to eat bread some of us might be obliged to do even without that. Therefore, our government is issuing interest-bearing bonds so that we may purchase them and thereby save ourselves from too burdensome taxation. The government will, by that method, distribute the war cost over a long period of years which will require each of several generations to contribute something to the cost of the blessings that the victory of the Allies will confer on us and those who will follow us. And each one of us must invest our money in those bonds. There is no use in our singing patriotic airs, following the band, applauding patriotic sentiments or cheering the flag, if we do not intend to aid the government. For without a purpose to sincerely aid the government, all patriotic singing, marching, applauding and cheering are only signs of a little emotion and may even be used only as a camouflage to hide hypocrisy. It is alright to feel emotional and patriotic and to show such feeling by certain demonstrations, but such demonstrations have no value if they fail to lead to a strong and substantial support of our government. Noise alone will not support the government. It requires cash and much cash and every loyal individual who will conform his conduct to his true patriotic sentiments will gladly seek the opportunity to lend his money to the government so that the boys whom we have sent abroad to fight our battles will not be left there to starve to death, or to freeze to death, or to be shot to death because we have failed to give them food to eat, clothes to wear and all the instrumentalities of warfare necessary to defend themselves against the Prussian outlaw. Those dear, brave, loyal boys are giving everything and taking every dangerous risk, while we are asked only to lend our money and to take no risk, and each one will shamefully fail to support them if he does not without delay subscribe for as much of the Fourth Liberty Loan as it is possible for him to pay for either with his cash or his credit or with both.

## THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out. Danger is in sight.

Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back or difficulty in passing urine—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

### DEMANDS MADE ON BULGARIA

Serbia and Greece Outline Terms For Balkan Peace.

Washington, Oct. 3.—Serbia and Greece announced their peace demands on Bulgaria. They are:

First. Reparation for all damages in occupied territory.

Second. Abandonment of all plans for domination of the Balkans.

Third. Guarantees that Greeks living on Bulgarian territory shall not be exterminated.

The terms outlined in an official statement issued at the Greek legation by Minister Roussos apply to the conditions of the peace settlement to be insisted upon at the general peace table.

"As Germany, the accomplice of Bulgaria, must repair all wrongs she has accumulated and give guarantees that in the future she will not be a danger for the peace of the world, so Bulgaria must repay all the damage caused to the Serbians and to the Greeks," said Minister Roussos.

## While Heads Are Bared.

**L**IEUTENANT ELY, it is ours reverently to acknowledge the service you have rendered.

To your country and ours, you gave all you had to give, a life, young and buoyant, offered when you had but just arrived at life's fullest understanding—and more than this no man can give.

But in the giving, sir, you gave as well the outpour of your stout young heart—that all of us to whom you pass along the touch might offer prayer, and carry on in better understanding of that obd cause for which no sacrifice shall be in vain.

Some of us are far behind the fighting lines of nce today. For circumstance has made two battle lines, and there must be therefore those gone to fight, and others kept behind to carry on at home.

But as you say, both lines bring chance for deeds well done, and great investments too.

Little did you know, Lieutenant Ely, when you

went to the post that day, that your last letter to those proud parents you left back home contained a message not alone for them, but, simple and sincere, for all your countrymen as well.

It did, indeed, for you uncovered the heart of all America when you wrote, "*I want to say in closing, if anything happens to me let's have no mourning in spirit or in dress, for like a Liberty Bond, it is an investment, not a loss, when a man dies for his country.*"

The Fourth Liberty Loan is now announced.

Do you think, Lieutenant Ely, that we shall soon forget your admonition—or that we shall not proudly subscribe for all we possibly can of your country's Liberty Bonds, which you so nobly glorified?

Indeed, we can do no less, for it seems to us that each subscription blank must bear your parting salutation—"for like a Liberty Bond, it is an investment, not a loss, when a man dies for his country."

## CONSERVATION TRAIN COMING

The Food Conservation Train now being sent throughout the State by the Pennsylvania Food Administration will be in Mahanoy City at the freight station siding of the P. & R. R. on Tuesday, Oct. 15. It has been sent out on its wonderful mission by Howard Heinz, Federal Food Administrator and Director of Food Supply Department of the Committee of Public Safety. Skilled demonstrators from State College are cooperating. The train will be open free to the general public from 10:00 A. M. to 5:00 P. M. Demonstrations of baking with substitute flours and of canning and drying vegetables will be held 10:00-12:00 A. M. and 2:00-5:00 P. M. The train consists of three modern passenger coaches rebuilt throughout and is under the direction of Mr. Roy L. French.

The first two cars of the train are fitted up as kitchens, in a manner to delight the heart of any good housewife. Here demonstrations are given to show how delicious bread, biscuits and other foods can be prepared with the use of less wheat flour and the greater use of corn and other cereals.

In the first car are displays of breadstuffs and cakes made with substitute flours; and making of bread is shown morning and afternoon. Here, too, are displays to show the food values of milk and of leaf green vegetables.

The second car contains a display of vegetables, meats and fruits canned by modern methods. The housewife who has had trouble in canning corn, lima beans, Swiss chard, or chicken, can learn here the safe methods of doing it, by watching actual demonstrations. How poultry and other products can be canned for future use in palatable form is one of the features of this demonstration. The car is equipped with a complete appliance for drying fruits and vegetables.

The Food Administration's display in the third car consists of maps, pictures, and models, to show why certain foods must be saved in order that America may feed both herself and her allies. Here are shown also some pieces of German equipment, captured recently on French battlefields by American soldiers. Perhaps the most interesting item is the steel armor worn by the German projectors of liquid fire.

As crowds are largest in the afternoon, as many as can do so are urged to come in the morning when they will have a good opportunity to talk with the people in charge. Small children, not accompanied by their parents, are admitted after 4:30 P. M.

## RED BLOODED MEN WILL WIN

They Are Always on Top in Every Walk of Life

It is a fact that red-blooded men and women are at the top in every walk of life. Men and women with the driving force of red blood, rich in iron and phosphates do things, they get results.

Red blooded women are the heads of the happiest and most contented homes, they have the will and the desire to be real companions and helpmates.

Leadership and happiness is only for the men and women who are willing to keep their blood and nerves strengthened and nourished with Iron and Phosphates.

A prominent doctor says, "It is a crime that so many men and women lack the rich, red blood and strong steady nerve to achieve their ambitions. It is all the more so because thin, watery blood is unnecessary, as rich, red blood and strong nerves are within the grasp of every one. Phosphated Iron makes pure blood by making new blood. It gives strength, brings color to the cheeks, increases the weight and appetite, drives away the blues and those sleepless nights, steadies and renews your nervous energy, makes you feel like a live one once again."

There must be something to it. Every one who tries it is loud in praise of Phosphated Iron, and you have got to show people these days.

To insure physicians and their patients receiving the genuine Phosphated Iron it has been put up in capsules only. Do not allow dealers to give you pills or tablets. Insist on capsules.

### MARSHAL HAIG'S REPORT

LONDON, Oct. 3.—The Germans are retreating on a twenty-mile front between Arras and Lens, Field Marshal Haig announced today.

They are evacuating highly organized positions which they have held since the beginning of trench warfare. The British attack north of St. Quentin was resumed this morning.

The retirement already has reached a maximum depth of two miles and the British advance is continuing.

The Germans have fallen back to the line of Zile, St. Aguste, Douvaine, east of Labasse, east of Auvers and west of Bois Brenier.

Miss Catharine Schaeffer, Miss Helen Hosler and Miss Mary Schaeffer left this morning by auto for Bloomsburg, to attend the fair.

## How Much Would the KAISER Tax Your Business?

Think this thought twice over: "If we should fail to win this war what would happen to my business?"

What is left of business in the invaded districts of France and Belgium? What will be left of business here, if we fail to crush the sinister power of Prussian militarism? How much would you have left after paying the taxes and levies imposed by a victorious Germany?

## Defend Yourself With LIBERTY BONDS

This is not only a war for Democracy and Liberty, but a war of self-defense. Germany menaces our rights, our self-respect, our homes, and our means of livelihood.

Every citizen—every business man—has weapons of defense ready to his hand. These weapons are Liberty Bonds. We cannot all fight with guns and bayonets but we can all fight with Liberty Bonds.

### Buy to Your Utmost

Of course you have bought Liberty Bonds. Every one has. But how many more will you buy? The success of the Fourth Loan and of the war itself depends on your answer to that question.

## TAX ON NEW LIBERTY BONDS

POTTSVILLE, Oct. 3.—Circulars have been received in regard to the tax on the new Liberty Bond, which clears up some doubtful points upon the tax exemption regulations relative to the new bond.

The bonds shall be exempt, according to the circular from all taxation now or hereafter imposed by the government, and state or any of the possessions of the United States or by any local taxing authority, excepting state or inheritance tax or graduated income taxes commonly known as surtaxes and excess profits and war profits taxes now or hereafter imposed by the United States upon income of individuals, corporations, partnerships or associations. The interest on an amount of bonds and certificates authorized by said act approved September 24th, 1918 and amendments thereto, the principal of which does not exceed \$5,000 owned by any individual, partnership, association or corporation shall be exempt from the taxes provided for in clause B.

In addition to the foregoing exemption until the expiration of two years after the date of the termination of the war between the United States and the Imperial German Government and fixed by proclamation of the President:—

(1) Interest on an amount of bonds of the Fourth Liberty Loan the principal of which does not exceed \$30,000 owned by an individual, partnership, corporation, shall be exempt from graduated additional income taxes commonly known as surtaxes.

(2) The interest received after January 1st, 1919, on amount of bonds of the First Liberty Loan converted dated either Nov. 15, 1917 or May, 1918, the Second Liberty Loan converted and unconverted, and the Third Liberty Loan, the principal of which does not exceed \$45,000 in the aggregate shall be exempt from such taxes provided, however, the aggregated principal of such bonds does not exceed one and one-half times the amount of bonds subscribed by the owner to the Fourth Liberty Loan.

Under this ruling it is possible to exempt \$110,000 aside from the holdings of the First Liberty Loan, as follows:

\$5,000 aggregated of all previous four per cent. and four and one-half per cent. issue.

\$45,000 aggregated of all previous four and four and one-half per cent. The original subscriber and holder of \$20,000 in Fourth Loan Bonds.

\$20,000 Fourth Loan Bonds provided owner holds and is the original subscriber for these bonds before filing tax return.

\$30,000 Fourth Liberty Loan four and one-half due 1947 optional 1932

## 175,000 CASES OF SPANISH INFLUENZA IN THE COUNTRY BUT THAT CAN'T STOP 4TH GREAT LIBERTY LOAN DRIVE ALLIES PRESS ON VICTORIOUSLY, CRUSHING HUN HORDES

### SWEEPING QUARANTINE AGAINST INFLUENZA AMUSEMENTS AND SALOONS IN THE STATE

Philadelphia, Oct. 4.—The board of health, made a sweeping closing order affecting Philadelphia in its efforts to fight the Spanish influenza epidemic.

The order is for an indefinite period and can only be revoked by order of the board. It is being placed in effect immediately.

Schools of all kinds—public, private and parochial—must close. Theatres and motion picture houses must be closed.

Churches and Sunday schools must remain closed. All places of amusement must close upon notification by the police who are now distributing the order.

Saloons are not included in the order, but proprietors of such places are warned not to let patrons congregate or remain long in the premises.

Funerals of victims of influenza or pneumonia must be private, attended only by adult members of the family and cannot be held in any church or chapel.

Employees of barber or manicure shops, hotels, restaurants, lunch counters, bakeries or any place where food is served who contract the disease must stop work on the first indications of infection and not return until convalescent and all danger of contagion is removed.

The same order applies to employees of department stores, the Rapid Transit company and those on railway passenger cars or Pullman cars.

All Liberty Loan mass meetings are also called off.

There are thousands of cases of influenza in the city, whole families being among the victims. Yesterday 630 new cases and 139 deaths were reported.

All Saloons Ordered Closed.  
Harrisburg, Pa., Oct. 4.—Dr. H. Franklin Royer, acting commissioner of health of Pennsylvania, ordered the closing of all saloons and amusement places throughout the state, as a means of preventing the spread of the Spanish influenza.

The order goes into effect immediately, and will remain in force until further notice.

### Wilson or Wilhelm !

Six billion dollars!  
That is what the United States of America wants to borrow to beat the Hun.

Six billion dollars from 110,000,000 people whose annual income is \$50,000,000,000 a year!

Is the credit of the United States worth one-tenth of the tremendous income for one year of the American people?

If it is not, the government of the United States may as well close shop, tear down the Statue of Liberty that guards the main gate of the country, roll up its flag, throw down its arms and let the hob-nailed Huns warm in.

The proposition before the country is simply this:

WILSON or WILHELM!

We can be free under Wilson or grovel before Wilhelm.

It is up to the American people. The subscription and over-subscription of the \$6,000,000,000 Liberty loan will be the answer.

When we say WILSON we mean not Wilson, the man. Wilson is only another way of saying AMERICA. We say WILSON because Wilson happens to be the MAN AT THE FRONT, the man who WE, the PEOPLE, have chosen as our COMMANDER-IN-CHIEF of the forces arrayed against MILITARISM, and SPOKESMAN to interpret the SOUL of America represented by WILSON against the hideous KULTUR of Germany represented by WILHELM.

Wilson pleads and fights for RIGHT, JUSTICE and HUMANITY for all. The other sings odes to the "SHINING SWORD" and fights to CONQUER all.

If there is love in the heart of a man for his country the time to show it is now. It is when a country is attacked and endangered that it requires the affection and practical aid of its people. Ingratitude is not the part of Americans.

But Americans are called upon to show, that they do love their country. They are called upon to show that they are grateful to the 1,700,000 fighting men in France, 40,000 of whom have been killed and wounded since America took up the challenge of an envious, lustful, hateful and savage enemy. They are asked to show it by doing something. By taking LIBERTY BONDS, as many as they can pay for now and during the next few months, they can prove up to the acid test. Doing that they are helping to win the war!

The \$6,000,000,000 that the country has need of it available. It is in the savings of the people. It is in the wages of the workers. It is in the income of the business and professional men. If it is not all in hand at the moment, it is on the way, and it may be pledged.

The most serious MISTAKE that an American can make is to think that he is safe. He is 3,000 miles away from the battlefield today. If the Germans defeated the allies, including our men in France, the Hun would be here tomorrow.

The Hun is here! He is in our midst with his disloyalists, and his spies and spreader of lie about the loan and other thing. He is off our Atlantic coast with his submarines. He is probably here with his disease germs.

What has happened to poor Belgium, her virtuous daughters, her old folks and her little babes; her sacred cathedrals and her life-sustaining industries, would not measure the hatred, the ferocity and the destruction of the Hun were he to land an army, as we are landing armies in France, in New York.

We would not get off with an indemnity of \$1,500,000,000 to him, as Russia is paying him. We would not pay \$6,000,000,000. We would pay what it cost Germany in marks to wage this war. How much is that? Approximately 84,000,000,000 marks, or \$21,000,000,000!

The tax would be dictated and fixed by the Prussians. It would not be a loan. It would not come back with interest. It would be gone for good, and this in addition to the sacrifice of good American life.

The \$6,000,000,000 that the government asks the American people to loan it is nothing more or less than LIFE INSURANCE for the nation; life insurance for every man, woman and little child; FIRE INSURANCE against the torch of the enemy that destroyed Liege, Namur and Louvain, and SECURITY INSURANCE for everything tangible and intangible, that is dear to the free American people.

The SOUL of AMERICA is against the KULTUR of GERMAN.

That is the issue, that is the reason, for the Fourth Liberty loan.

### Schools, Saloons, Theatres and Amusement Places Closed in This City, Temporarily

Just as the Mahanoy City Board of Health was considering the advisability of holding a meeting to discuss and take action on the Spanish influenza situation in this city this afternoon, Secretary of the local Board of Health, Wm. Palmer, Jr., received a telegram from the State Commissioner of Health stating that all saloons, dance halls, moving picture places and other amusement halls should be closed pending a further order from the State Board of Health.

As to the schools this was regarded as a matter to be left to the discretion of the local Board of Health.

Dr. John R. Bissell, vaccine physician for the Board of Health, finding the 1st ward fairly reeking with the disease and many pupils detained at home owing to that form of illness in house, conferred with the Mahanoy City School Board and the conclusion was reached that the schools should be closed to prevent a general epidemic.

Accordingly this afternoon Sup't of Schools H. A. Oday so notified the teachers and pupils and the schools will remain closed temporarily.

Dr. Bissell and the Board of Health find housing conditions in the first ward in most unsanitary shape. Basements, which years ago were ordered "cleaned out" by the State Board of Health are still tenanted and make most excellent vehicles for the spread of contagious diseases.

Churches are also to be closed and Sabbath schools until a thorough investigation has been made.

There is to be no visiting of the sick and in case of death a private funeral is to be held in each case.

As to the closing of schools—the Board of Health is permitted to segregate pupils of affected zones if possible and continue suspension of the public parochial and private schools have been ordered.

The condition of affairs at Cressona and Schuylkill Haven is alarming, many cases having been reported. Shenandoah, Pottsville and Gilberton also number many cases.

Every precaution will be taken to stem the spread of the disease, which is claiming thousands of lives in this country.

Every person in Mahanoy City is asked to co-operate in purging the city and thereby bring about a normal condition of affairs.

### INCREASE FOR THE MINEWORKERS

WASHINGTON, Oct. 4.—Indications to-day were that wage increases sought by miners in the anthracite fields will be granted and made effective soon as the outcome of conferences between union leaders and Fuel Administrator Garfield and Secretary Wilson, of the Department of Labor. The conferences are continuing to-day.

Garfield has admitted that the men in the anthracite fields are receiving less money than those in the bituminous fields and that the anthracite mining requires more skilled workmen but at the time of the recent strike he announced that he would help the miners get an increase until the Department of Labor submitted reports of living costs.

It is quite generally assumed that the conferences provided this necessary information. The belief is that an announcement of increases soon will be forthcoming.

It is also understood that Garfield has made a conference with President Wilson on the subject. Early in Sept. Frank J. Hayes, President of the U. M. W. of A., asked Garfield to appeal to President Wilson on behalf of the Anthracite men. While Garfield refused to make such an appeal at the time, correspondence between Garfield and Secretary of Labor made public mention of steps taken by the President to stabilize the wage situation in "competent industries." In this connection Garfield stated he would call the conference now in progress.

### TRIBUTE TO SOLDIER BART M'CLOSKEY

It was a sad incident of the GREAT WAR.

Bart McCloskey, the beloved Bart McCloskey, of Jacksons, did not die in battle; nevertheless, he gave up his life for his country.

It was in a war camp down at Edgewood, Md., far way from loved ones, whom no doubt he sighed for and longed for when he felt that he was passing into the vale of the shadows, that Bart McCloskey passed to the great beyond. It was while in the performance of helping to win the great war that his young life ebbed away. In brief, it was while preparing to go to the great WEST BATTLE-FRONT, that his great, big, manly heart ceased to beat and his great soul, on fire with patriotism, WENT WEST—into the dawn of a new life.

Many brave boys are giving up their lives on the battlefield. Many other boys, equally as courageous and patriotic, are giving up theirs in cantonment camps from the dread Spanish influenza. Whether "over there" beyond the surging sea or "over here" in the midst of mighty war preparations, boys are dying for their country willingly, though sacrificially and without a murmur.

That's the stuff the Yankee boys are made of. That's the stuff of which Bart—the beloved Bart McCloskey—was made. To fight or die, to fight until death, to fight and die and bleed, to give up every endearment and promise in this life—that is the characteristic of an American soldier and truly Bart McCloskey was one of this type. He did not cross the sea but he longed to do so. His country had a greater need for him on this side and he hearkened unto her mandates. A halo of heroism, a crown of glory and honor to-day adorns the worthy form of the departed young soldier. He sleeps by "all his country's wishes blest."

And what of the fathers and mothers of America? The fathers of America, the mothers of America, who have given such sons freely to the cause of the nation—the lustre and glory of their deeds remains fadeless and undying. Even in our deepest patriotic ardor it is a colossal sacrifice to part with such manly young fellows as Bart McCloskey, Jacksons and Mahanoy City mourn the passing of another gallant boy.

No medal of honor from a government that appreciates the sterling worth of a fine youth lost through death in the nation's service, no finer sympathy could be tendered the dear mother could be tendered or could pay more fitting tribute or stir with more fervent pride the hearts of those who mourn than the simply expressed testimony of a red-blooded American boy's devotion to duty and to heroism. He has "gone west" in a great holy cause.

From the McCloskey home in Jacksons there waves a service flag with two stars thereon—one for John, a brother of brave Bart, who is in France. Now one of those blue stars has been transformed into gold, for Bart McCloskey has "gone west" to fill a hero's grave.

In through the McCloskey gate all afternoon yesterday, all last evening, and all day to-day, streamed friends to extend sympathy to the bereaved parents—the loyal, patriotic parents, Mr. and Mrs. John McCloskey, who have laid down upon the altar so precious a sacrifice, that time alone, together with the memory of a hero-son, will be able to assuage their keen, stony grief.

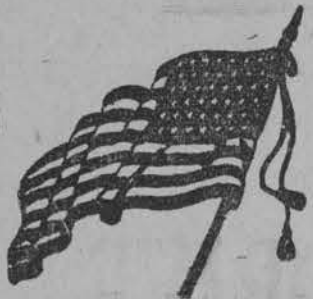

Clean in his sports, for he was a clever football player and baseball player, faithful to his Christian duties in St. Canicus, a consistent member of Father Mathew Pioneer Corps, a filial, obedient son and loving brother, his life shone resplendently and with edifying effect among the other soldiers with whom he moved daily in away Maryland war camps.

His remains will lie in state at home of his parents in Jacksons where he was born 25 years ago, a military funeral will be held. His remains arrived this afternoon on the 2:16 P. & R. train.

ASHLAND WOMAN HAS  
8 STARS IN SERVICE FLAG

Mrs. Mary Coyne, of Ashland, who is ninety years old, enjoys the honor of having eight grandsons fighting for Uncle Sam.

Three of her grandsons are Maizeville boys, Patrick McLaughlin, with an Ambulance Corps in France, the past eleven months; Frank McLaughlin, member of an Engineer regiment, now on his way over, and William McLaughlin, a K. of C. secretary at Camp Taylor, Ky. These three come of a family of seven brothers and it is probable that at least five of the McLaughlin boys would have been in service, but two other brothers, Robert and John were rejected; Robert, twice by the army and once by the Navy and John, once by the Navy and once by the army. Joseph and James, two other brothers are within the draft ages.

Frank was formerly employed in the Moullesseaux jewelry store here and an officer in the war was admitted to an Officers' Training Camp but sustained an attack of rheumatism before he was commissioned. He underwent medical treatment and was accepted by draft officials at Toledo, Ohio, and is now on his way over. William is a graduate of St. Joseph's college, Philadelphia, and of Holy Cross college. He was ready to receive his degree as Doctor of Laws with the K. of C.

## FOR LIBERTY!

"Some of our officers who were out this morning examining the battle ground of yesterday came on the body of a doughboy. Nearby lay the bodies of ten Huns, a mute, but eloquent testimonial of how this American soldier had died.

"Surrounded and opposed by tremendous odds, he refused to surrender, but fought with bayonet and rifle butt until he was killed. He was only a lad. How many foes he faced until the glorious end we could only guess."

Thus reads a dispatch from the war front by Mr. Don Martin, the special correspondent of the New York Herald, with the American armies in France.

It does not say whose boy it was. In the course of time when the stretcher bearers get through with the more imperative duty of caring for the wounded and the breathing, they will lift and carry gently that gallant boy to the rear and determine who he was.

But he was an American lad, fresh, young, we know, and God knows brave, for He saw him battle at least ten Huns, as the evidence showed the officers who passed the way of his corpse.

That boy went to France for the sake of every man, woman and child in America. He is enshrined in some heart. In some home there is going to be a vacant chair, a void in the heart of some mother, on account of that boy.

Is such bravery, such superlative sacrifice, to be wasted? Does such devotion to duty and great cause mean anything? Shall such patriotism, the patriotism that gives body and soul, not be the signal for every American at home to do something?

Americans who are not at the front or in the training camps can do many things to show their appreciation of the heroism and sacrifice of their fellows. They can, to demonstrate their gratefulness, buy liberty bonds. This is not only a bounden duty to the living government, it is a solemn obligation to the boy whose body lay midst the ten enemies that he slew to safeguard those back in the U. S. A., and the thousands of other boys like him who paid the same price in keeping the Hun off our backs on this side of the world.

Did you subscribe yet? Will you, for the sake of liberty and the unidentified boy who gave his life in the killing of ten Huns?

## EMPTY YOUR WARDROBES

There are thousands of men and women who have large wardrobes full of garments that they will never wear. They are too good to throw away or cut up and there is always the chance that they will come in handy for some purpose, which purpose seldom arrives. There is one family in which it is a standing joke that father saves up all his old clothes to wear on hunting trips. When time comes, however, for these hunting trips the clothes usually are too much out of style even for a fishing trip.

From these thousands of wardrobes, whose principal virtue will be the feeding of new colonies of moths, there should be withdrawn during this week all surplus garments of all sorts. The collection of clothing for the ten million destitute Belgians is in progress and Mahanoy City can contribute more than its quota if it but tries.

## NEW HUN CHANCELLOR

Was Long Recognized Leader of D. brueck Moderates.

Amsterdam, Oct. 4.—Prince Max of Baden, has been named German imperial chancellor, according to the Zeitung Miting, of Berlin.

A council meeting took place at the chancellor's palace in Berlin, according to advices received here. Emperor William presided and the meeting was attended by Field Marshal von Hindenburg, who had come to Berlin with the emperor. Former Chancellor von Hertling, Vice Chancellor von Papen and several state secretaries were in attendance.

Vice Chancellor von Papen probably will remain in that office while the portfolio of foreign affairs will be left in the hands of diplomats.

It seems unlikely that General von Steinhilber will continue as minister of war.

## FEAR ALSACE UPRISING

Germans Reported to be Sending in

habitants into Bavaria.  
 Geneva, Oct. 4.—German military authorities have begun to remove the inhabitants of Alsace, according to be Democrats, in expectation of a Franco-American attack on the frontier.

The inhabitants of twenty villages, including Ferrette, Gontayon and Winkel already have been sent to Bavaria. Some of the villagers have escaped across the Swiss frontier. Fear of disorder is rampant throughout Alsace-Lorraine, not only among the civilians but also among the military forces. Food is scarce and little fuel is available.

The German authorities in Alsace-Lorraine, the Democrats adds, are afraid of a general uprising in those provinces when the allies cross the frontier.

## BRITISH SMASH HINDENBURG LINE

Take Many Towns and 5000 Prisoners.

## NOW PRESS TOWARD LILLE

Haig's Men also Weakened Line Above St. Quentin and Break It. French Drive Ahead in Three Sectors.

With the British Army on the St. Quentin Sector, Oct. 4.—The British troops smashed a large and vital section of the Hindenburg line between St. Quentin and Cambrai.

They have occupied many additional towns and villages and 5000 prisoners and numerous guns have been taken.

The Australian troops are fighting beyond the Beaufort line, at Wancourt, La Motte farm and Larnisset, in the St. Quentin sector, according to the official Australian correspondent. The Germans are retreating toward Montrehain. Thus the Hindenburg system has been definitely passed.

The Germans have fallen back three miles in their retreat along the Lens-Armentieres line.

In the week ending yesterday the allies have captured 60,000 men and 10,000 guns on the western front.

The British launched fresh attacks on a front of nearly six miles between Sequest and Le Catelet, northeast of St. Quentin. Again there has been heavy fighting along the Hindenburg line in this area and more ground of the most important nature has been gained.

Field Marshal Haig's forces are reported to have captured Ramicourt, Gouy, Le Catelet and Sequehart. This has not been officially confirmed. More than 2000 Germans have been taken prisoner by the British.

In Flanders further substantial advances have been made, and there has been extraordinarily heavy fighting, in which the British forced their way forward by sheer might.

Fire and explosions again are being reported from various sections of the battlefield, especially in Flanders. They always precede a German retirement and are started only when the Germans begin to realize that they must evacuate ground because their flanks are exposed and that it would prove extremely costly to try to ward off frontal attacks.

Wednesday La Bassee was being cleared of the enemy, while to the north the British were in Lognies and across the Aubert-La Bassee line along its entire length.

Local attacks in the neighborhood of Roulers by the Belgians resulted in the gain of some ground. The British crossed the Lys and at last reports were still going strong.

## FRENCH DRIVE AHEAD

Coin Near St. Quentin, at Rheims and in Champagne.

With the French Forces in France, Oct. 2.—General Gouraud's troops crowned their successful campaign in the Champagne by taking Challerange and advancing to the southern edge of the village of Mouron.

That town is in front of the western exit from the Grandpre gap.

Further west of Gouraud's men also took the crest of the valley called Croix des Soudans from which they command the valley of the Aisne northward.

The successes of the French coincide with fresh outbreaks of fire in the villages occupied by the Germans in the north toward Vouziers. Aviators report that Semide and Mont Saint Martin and even towns further to the north are in flames.

In taking Challerange and the heights of Croix des Soudans, Gouraud's troops have accomplished another remarkable feat of arms. There is probably nothing more formidable in the Hindenburg line anywhere than the defenses which the Germans had raised here to defend their access to the region commanding the valley of the Anne and Grandpre.

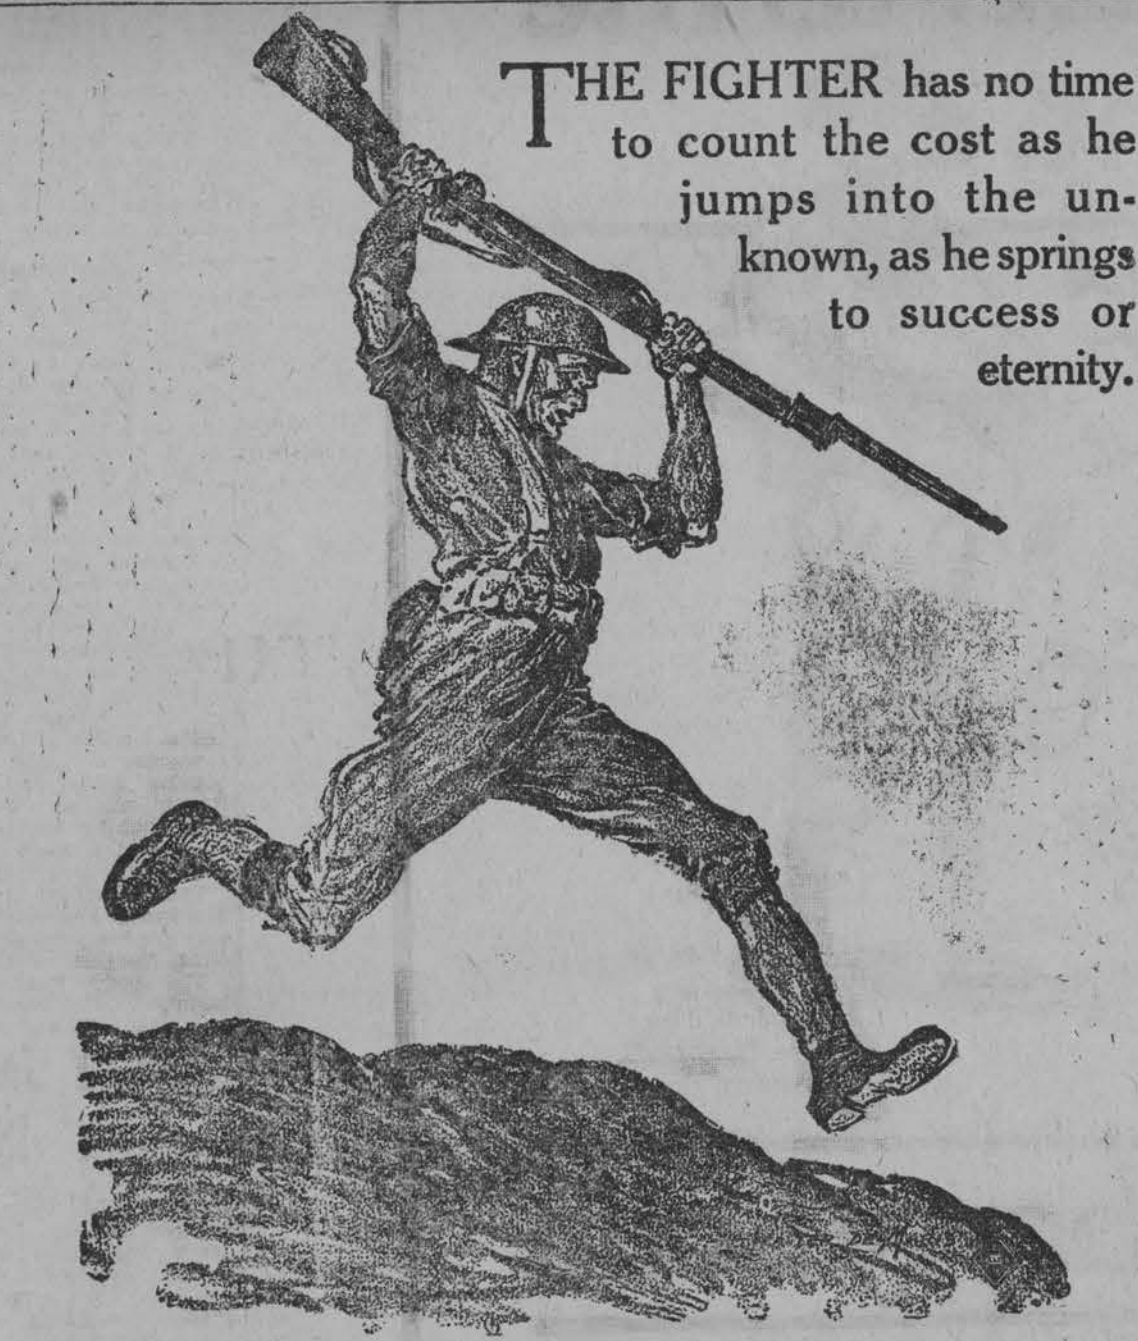

After breaking through lines of trenches and barbed wire five miles deep, General Gouraud attacked this position and carried it against reinforced troops that counter attacked him three times in vain.

The possession of Challerange and Croix des Soudans by the French seriously compromises the position of whatever German troops remain in the forest of Argonne and in the region north of Orfeuil.

No longer is there an outlet to the west from the Argonne region open to the enemy, and the American advance along the eastern edge of the forest virtually closes the eastern exit from the Grandpre gap. The only railroad line available to the troops in the wooded region north of Orfeuil is now under the fire of French guns.

## LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

## SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## Allies Gaining Up.

Paris, Oct. 4.—During the period from September 10 to September 30 the allied armies in France and Belgium have captured 2844 officers, 120,192 men, 1000 cannon and more than 6000 machine guns, according to an official statement. Since July 15 and up till September 30 the allies have captured 5518 officers, 248,494 men, 3669 cannon, more than 23,000 machine guns and hundreds of mine throwers.

## Epidemic Influenza As Viewed by Health Authorities

(Continued from page 1)

An acute infectious disease (epidemic influenza) has prevailed in Europe this year similar in many respects to the disease which prevailed in pandemic form in the winter of 1889-90. It seems probable that in 1918, as in 1889-90, the earliest appearance was in eastern Europe. By April cases were occurring on the western front. In Spain, according to reports, 20 per cent of the population were attacked in May. The 1889 epidemic, starting in northern Europe, also fell heavily on Spain; the present ruler, then 2 years old, being one of the first attacked in Madrid. The King of Spain is said also to have been attacked in the present epidemic. The epidemic of 1918 was at its height in Germany in June and July. It has appeared in practically every section of Europe. In England the epidemic prevailed in May, June and July.

Outbreaks have been reported from various sections of the United States, but the spread has been by no means so rapid as in 1889, when the disease occurred in America almost simultaneously with its appearance in western Europe.

In the absence of a clean-cut symptomatology, distinct from that of other diseases, and of any criterion, such as proved causative organism, demonstrable in the tissues of the patient or his discharges, it is difficult to make diagnosis in individual cases apart from an intense prevalence of the disease. It is likewise impossible for us to assert or deny the unity of this epidemic with that of 1889-90. The marked difference in season is notable. In 1889 the first outbreak occurred in St. Petersburg during October; in Berlin and Paris, during November; in Brussels, Copenhagen, London, Vienna, Rome, Madrid, Boston, New York, and Philadelphia during December, persisting in each place for one or two months. In 1918 the heavy incidence has been in summer, but the duration on any one focus, the general character of the disease, its tendency to spread along routes of travel, and the enormously high case incidence have been similar in the two pandemics.

The identity of the present outbreak with outbreaks in other years is even more uncertain.

The symptoms in the present pandemic have been an acute onset, often very sudden, with bodily weakness and pains in the head, eyes, back and elsewhere in the body. Vomiting may be a symptom of onset, and dizziness is frequent. Chilly sensations are usual, and the temperature is from 100 to 104, the pulse remaining comparatively low. Sweating is not infrequent. The appetite is lost, and prostration is marked. Constipation is the rule. Drowsiness and photophobia are common. The conjunctivae are redened, and the mucous membrane of the nose, throat and bronchi often give epidemic of inflammation. The general symptoms, however, predominate over the local.

Epidemic influenza may vary in type in different places; thus diarr-

hea was said to be frequent in Spain. It is to be supposed that in some places aberrant types may be found, but, in the absence of a definite criterion for diagnosis, it is impossible to affirm this with certainty.

The incubation period is probably a rule very short, though with such universal prevalence this is hard to verify. All ages are attacked, young adults being especially susceptible. In Germany there has been such a preponderance of cases among the young that it is supposed that the 1889 epidemic conferred an immunity on most of those at present over 30 years of age. This has not been observed elsewhere.

All evidence points to human contact as being the means of spread, and from the local symptoms it has been assumed that the nose and throat have been the points of access of the virus and the points of inoculation. There is nothing to show that other animals have any part in carrying the disease.

The treatment is symptomatic. On account of cardiac weakness, rest should be prolonged after defervescence in proportion to the severity of the case. Attention to cleanliness of the mouth, adequate ventilation, avoidance of exposure to cold, and isolation from those who may be carriers of virulent pneumococci and streptococci and are measures advisable to prevent complications. Aspirin or similar remedies may be used to relieve headache and general pains. Watch should be kept for complications, and cases should not be kept for complications, and cases should not be discharged too early.

Crowded offices, and particularly street cars, are potent factors in the spread of the disease. In Berlin the street car conductors showed an exceptionally high incidence. The avoidance of street cars and crowds, where possible, is therefore to be urged during an epidemic, although the disease is too mild to make it advisable to stop all activities of a city. To prevent the transmission of the influenza virus to the well and possible causes of complications to the sick, masks for street-room attendants are advisable. The organism is probably short-lived outside the body, and attention should be directed toward keeping people apart rather than toward the disinfection of things, aside from the precautions of general cleanliness. The spread of streptococcus pneumoniae in military camps, and the fear that with the advent of cool weather severe pulmonary complications will follow influenza attacks more frequently than during the past summer, indicate the urgent need for the adoption of more stringent precautions to prevent such complications than have been customarily taken hitherto.

The most dangerous form of human contact in the presence of epidemic influenza is, in all probability, that with coughers and sneezers. Coughing and sneezing, except behind a handkerchief, is as great a sanitary offense as promiscuous spitting, and should be equally condemned.—U. S. Public Health Service.

## The Boy From Next Door

YOU used to see him swing gaily down the street, radiant with the vigor of his sturdy young manhood. One day he came home in khaki; then his father told you, with mingled pride and foreboding, that he had "gone across" with his regiment.

Yesterday his name was on the casualty list—"slightly wounded"—and your face grew grave as you thought of the sorrow and suspense of his father and mother.

From every city street, every village, every community, the boy next door has gone to war.

Think of these thousands of splendid young Americans, reared in comfort, peace, and security, now suddenly plunged into that roaring inferno of battle with the hardened hordes of a desperately determined foe.

### What are you doing to help them?

What are you doing to arm and protect them, and bring them home in safety? Have you bought Liberty Bonds? Have you bought all you possibly can?

Has it occurred to you that one more Bond, bought with a little additional effort, may save the life of the boy from the next door?

### BOARD OF HEALTH TAKES DRASTIC ACTION ON INFLUENZA SITUATION

At a meeting of the Mahanoy City Board of Health last evening that body decided by unanimous vote to close all churches, schools, saloons, pool rooms, amusement places such as moving picture houses, dance halls and the like until further notice due to the alarming spread of influenza throughout the State. Cigar stores may be open but pool rooms in connection with same must be closed. There must be no congregation.

So to-morrow for the first time since the scarlet fever epidemic of several years ago the churches will be closed.

The school houses were fumigated to-day under directions of the Board of Health.

In addition to the above named places there is to be no meeting or parade held.

No public funerals are to be held and home where cases exist are to be placarded by officers of the local Health Board.

The Mahanoy City Board of Education has no medical inspector. If that body had a physician holding such a position he could report to the Board of Health as to the condition

of the students of the public schools and recommend continuing or closing of school sessions. There being no such medical officer of the Board of Education it is left to the discretion of the Health Board by powers delegated to it from the State Board of Health.

When Dr. J. R. Bissell, vaccine physician for the Board of Health and busy himself attending over 125 cases of the disease in and about this city, ascertained that the case of the disease were so numerous here scores of families being affected he conferred with the Board and with Sup't Oday. It was deemed advisable to close the schools pending an abatement of the epidemic.

While Dr. Bissell has over 100 cases under his own direct attention another down town physician reports the same number. Other physicians are very busy answering sick calls. So it will be seen that the insidious disease has had a start in Mahanoy City and that the time to combat it with all our power has arrived.

Physicians are ordered by the Board of Health to make reports promptly of cases of the disease. Failure to do so will result in prosecution.

### BUY LIBERTY BONDS

(Publicity Committee)

A wage earner who is disgruntled because the expected advance in wages is not forthcoming, when asked to buy a Liberty Bond, said, "Let Garfield buy them."

That man is a fool. To begin with he happens to have a boy over-seas who has been on the firing line for several months. It costs \$423.47 a year to maintain that boy over-seas and it cost just \$327.78 to equip and maintain that boy when he was in a training camp back here in the States. His food alone for one day costs 42 cents at present day food prices. Some day he has to pay for that boy's equipment and upkeep. If that boy was starving in France today or was compelled to go into battle against the Huns without a rifle or a gas mask, would his father say, "Let Garfield buy them for him."

That's one of the troubles with a great number of our American people. They put everything up to the government while forgetting that they ARE the government. The man who said, "Let Garfield buy them" accepted no responsibility for his own boy who is over there facing the Hun. If every man in the United States took the same view of it our army in France would collapse within a week or two.

We who are back home must bear in mind that it is our dollars that make it possible for the soldiers to go on fighting over there. Every Liberty Bond sold helps to pay for the guns, ammunition, gas masks, aeroplanes and food, used by the men in France. It costs money to keep a man in the field and the soldiers look to their relatives back here to provide all the money needed. If we can't raise the six billion dollar loan it is going to cripple our fighting forces and surely we can't stand for that?

There is only one class of men who can afford to be the "Let Garfield to do it" kind and those are the men who want to see Germany win.

When asked to subscribe to the Liberty Loan, don't think of the "government." Think of the boys over there and in the training camps over here. We, the people, are the government and we, the people, must pay the expenses of keeping our soldiers in the field. Don't try to shift the responsibility to somebody else for it can't be done. Some soldier is fighting YOUR battles over there; it is up to you to see that he has everything he needs. Buy Liberty Bonds.

#### Gruber says:

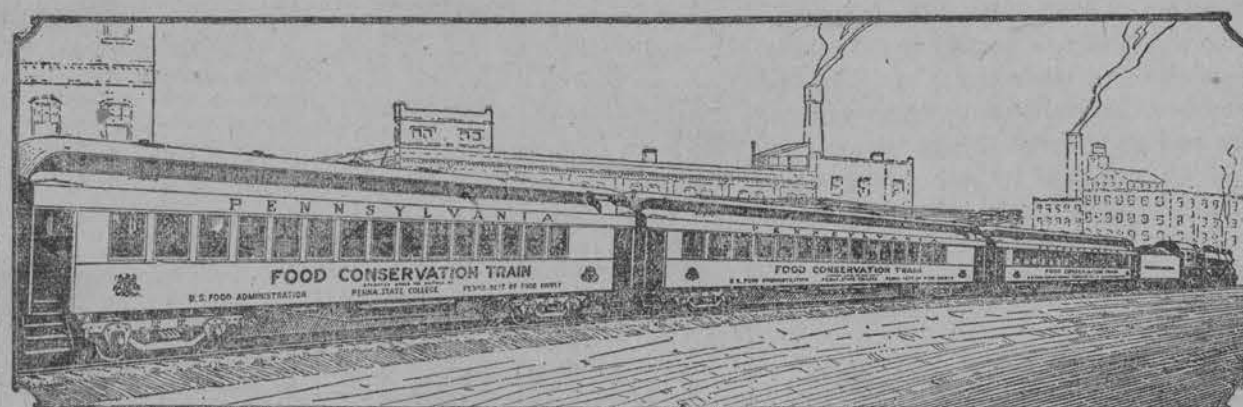

The person who claims he has already bought Liberty Bonds this year has not done enough. We cannot win this war by making an occasional sacrifice, occasional investments. It can only be done by a steady stream of sacrifices. It is our duty to even borrow, if necessary. The men at the front are not doing their duty occasionally, but every day. It

### TOWN MOURNS DEATH OF CASHIER KOHLER

Mahanoy City mourns the departure of one of her finest and most useful citizens in the death of William Holtzworth Kohler, cashier of the Union National Bank, who died at 5:45 o'clock this morning, at the fam-

WILLIAM HOLTZWORTH KOHLER

ily residence, in the bank building, from pneumonia, from which he suffered the past eleven days. Stricken a week ago last Thursday, Mr. Kohler's condition assumed a serious phase. His strong constitution grew weaker daily and yesterday the attending physicians held out little or no hope. His death was expected yesterday, but toward evening he rallied and showed improvement. During the night he sank rapidly, death occurring this morning.

Mr. Kohler was born in Reedsville, Penn., forty-three years ago and was the son of the late Jacob and Mary Kohler. Early in life he decided to be a student of finance. How well he succeeded is very forcibly expressed in the success of the bank of which he was cashier in this city for the past seven years, succeeding Ira W. Barnes, who removed to Philadelphia. Nor was that the only monument to his energies and intelligence. The First National Bank, of Lansford, prospered and grew to great proportions under his eleven and one-half years' cashiership. It was with the keenest of regret that Lansford parted with Mr. Kohler. The citizenship of Mahanoy City was enhanced by his coming.

There was scarcely a movement which had for its purpose the uplift or welfare of this city and country that "Bill Kohler" wasn't in it. There wasn't any good, clean sport, gentlemanly, wholesome game, in which Mr. Kohler was not interested and was not an exponent. Into whatever he entered he entered with a whole heart—in business or pleasure. This doubtless was a large contributing factor to his eminent success in life. And when it came to the banking business—well, the Union National knows that it secured a phenomenal master of finance in Mr. Kohler. Nor is the Union National Bank's loss the only one. He became endeared to many in Mahanoy City during his stay of seven years. Friendships were formed and cemented—friendships which can never be effaced. His home life was a model one. A life far too brief closed with the passing of Mr. Kohler, but the memory of his good deeds, his charitable heart,

### BOARD OF HEALTH'S OFFICIAL ORDER

All churches, schools—public and private—saloons, moving picture houses, dance halls, pool rooms and all amusement centers are hereby ordered to close and remain closed until further notice. A penalty calling for a hearing, fine and a jail term is provided for violators of this order. Physicians are requested to report cases of Spanish Influenza at once to the secretary of the Board of Health. In case of death a private funeral must be held. Parades and congregating of any variety are prohibited.

No Meeting  
The meeting of better trolley service committee which was scheduled to be held at Shenandoah to-morrow, has been called off on account of the ruling of the board of health. Due notice of the next meeting will be given.

Jovial nature and admirable face will linger long in the memories of those who best knew the magnanimity of the man.

A busy man at the helm of the Union National, yet he found time to give considerable attention to the exigencies of his country and home town. He was the chairman of Zone 3 in the Liberty Loan drives. His work in this particular phase is worthy of especial mention for it was "Bill" Kohler, the financier, who, to a very great degree, helped Schuylkill County "go over the top" in the various Liberty Loan drives.

Fraternally, Mr. Kohler was a member of the Mahanoy City Lodge of Elks, Mahanoy City Aerie of Eagles, No. 167; Tamaqua Lodge, No. 233, F. and A. M.; Tamaqua Royal Arcanum, Tamaqua Chapter Royal Arch Masons No. 167, and Ivanhoe Commandery, No. 31, of Mahanoy City. He was a director of the First National Bank at Coaldale and Vice President of the institution.

He was busy in the activities of the Penn. Bankers' Association Group 2 and in the Lower Anthracite Bankers' Association, holding offices in both.

Mr. Kohler is survived by his heart-broken partner who, during the trying hours of the sick bed and deathbed, ministered so faithfully and had every agency possible exerted in the hope of effecting restoration. To this most estimable lady, into whose life a great sorrow has thrown its shadow, sympathy is offered and to the bereaved brothers, John, of Williamsport, and Benjamin, of Reedsville and his beloved nephew, "Little Billy Barr" of Reedsville, who often came to visit his big, good-natured "Uncle Bill" and travelled with him while here.

A shining light has gone out in our midst in the removal by death of William H. Kohler.

Private BART McCLOSKEY, son of Mr. and Mrs. John McCloskey, who died for his country at Edgewood Arsenal, Edgewood, Maryland, Tuesday, October 1st.

### HERMAN SCHLEMMER DIED AT JACKSONS

Herman E. Schlemmer died at his home in Jacksons at 6 o'clock last evening after a long illness with typhoid pneumonia.

Deceased was about 65 years of age, and a lifelong resident of Jacksons. Religiously he was a member of Christ Lutheran church. Fraternally he belonged to Camp 167, P. O. S. of A. and the Improved Order of Red Men, of town.

Besides his widow he is survived by his parents, Mr. and Mrs. Philip Schlemmer, and the following brothers and sisters: Christ, of Jacksons; Mrs. Reinberger, of Tamaqua; Mrs. Albert Nends, of Shenandoah; Tillie, Anna, Edna and Wilbur, at home.

### MANY DEAD, SCORES HURT IN MUNITION BLAST NEAR AMBOY

NEW YORK, Oct. 5.—Scores of persons are believed to be dead and many others maimed in various degrees in hospitals in New Jersey early to-day and the nation's greatest shell loading plant, the property of T. A. Gillespie Loading Co., of Morgan, N. J., near South Amboy was in ruins as the result of an explosion last night.

### THE WEATHER

Forecast for this section:  
Fair today and tomorrow; variable winds.

Explosions were continuing early to-day. At 7 A. M. there was a blast that shook houses in Brooklyn, shattering windows in Flatbush. Thousands near the scene of the explosion were swept from their foundations. Scarcely a window is left intact in Perth Amboy. Military authorities that have taken charge of the territory refuse to make an estimate of the number of dead but private forces indicate the count would reach high.

The military guard has been thrown about the district, Gillespie says but 18 are not accounted for.

The property damage will run into the millions. The plant was valued at \$18,000,000. This has been practically destroyed. What part of it remains to-day was slowly crumbling under the explosion of shell stores or was being eaten away by fire which could not be controlled. There were thousands in the plant when the first explosion occurred. Of those not hurt from their positions other places followed. Remains of human bodies were found in various places.

Several theories regarding the start of the disaster have been advanced. The buildings contained shells ranging in diameter from 3 inch to 16 inch manufactured for the most part French 75 and 155.

Private McCall was a faithful member of St. Canisius church. Fraternally he belonged to the Lansford Knights of Columbus and the Holy Name Society, connected with St. Ann's church at that place, and the Father Mathew Pioneer Corps, of town.

In the window of the McCall home hangs a service flag, which bears two stars, one a blue one for a brother, Wm., stationed at Camp Merritt, N. J., and the other, which at present is blue, but with the setting of the sun will turn to gold, is for the dead soldier, who has given up his life on the altar of democracy.

The deepest sympathy is extended to his survivors, who are his sister, Miss Agnes and two brothers, Wm., in the service and James at home.

He was a son of the late Mr. and Mrs. James McCall.

# The Hun—His Mark!

There is a plain fact that every American business man must face. This war is not a dollar war. It is a war for justice, for truth, for right, and for human decency. Its financial aspects are minor aspects when measured against terms of human suffering and bloodshed.

But still the question must be asked and must be answered by American men: "Shall the German mark conquer the American dollar?"

## What the Dollar Stands For

The American dollar stands for a business world of square dealing, of equal opportunity to all people, of free commercial intercourse all over the world.

You know what the German mark stands for—a commercial system as an active instrument of foul plotting, espionage, and Prussian propaganda.

## Enlist Your Dollars

Every American dollar must be enlisted in the great army that is now being mobilized against the Potsdam autocracy—the great army of the Fourth Liberty Loan.

Enlist your dollars to win a world in which fair dealing and an equal opportunity for all shall be the guiding principles.

Buy all the Liberty Bonds you can. Every bond you buy safeguards your home, your business—all you possess, and all you hope to have.

Buy Liberty Bonds! :: Buy as you feel! :: Buy to your limit!

## THESE PRICES ARE CONSIDERED FAIR BY THE FOOD ADMINISTRATOR WEEK ENDING OCTOBER 5, '18

Consumers' prices are figured both on a "Cash and Carry" and "Charge and Delivery" basis. The first amount in the consumer's column is the price the consumer should pay to a "Cash and Carry" dealer; the second to a "Charge and Delivery" dealer. The Federal Food Administrator has no authority to fix prices but he may determine what is fair and reasonable.

## OFFICERS OF RED CROSS NOMINATED

At a meeting of the Red Cross Chapter held last evening the officers of the past term were renominated. Being unopposed they are practically reelected.

The officers nominated follow:  
President—Mrs. T. L. Thomas.  
Vice President—Mrs. Leon E. Lewis.  
Secretary—Daniel F. Guinan.  
Treasurer—Mrs. T. J. Horan.  
The Executive Board chosen is as follows:  
Executive Board—J. H. Pollard, John Goyle, J. H. Garahan and T. L. Thomas.

The co-operation of the people in the Belgian appeal was very favorably commented upon. Girardville also came in for praise in this respect.

A bureau of conservation will be established. Paltium and tin will be collected wherever possible.

800 workers are engaged under the auspices of the Mahanoy City chapter in all departments.

Any worker giving 20 hours' service per month will be added to the honor roll.

A new Red Cross branch has been formed with headquarters at the Ellangowan school house. Mrs. Shirley is chairman and Mrs. Jennings secretary of the Ellangowan branch.

The treasurer's report showed a balance of \$874.70.

The report of the Red Cross War Fund treasurer showed upward of \$40,000 collected and \$5,000 outstanding.

Every pledge should be accounted for before Oct. 15th.

## ALLIES DESTROY DURAZZO BASE

Wipe Out Enemy Naval Center on Albania Coast.

## AIRPLANES ASSIST IN WORK

United States Submarine Chasers Sink Two Undersea Craft—Intense Bombardment Demolishes Base.

Rome, Oct. 5.—American, British and Italian warships have destroyed the Austrian naval base at Durazzo and the warships anchored there.

This announcement is made by Premier Orlando.

The attack on Durazzo occurred at noon on Wednesday, when Italian and British cruisers, protected by Italian and allied torpedo boats and American submarines, succeeded in making their way through mine fields and torpedo attacks by submarines, got into Durazzo harbor.

An intense bombardment followed until the base and the Austrian ships anchored there were completely destroyed.

American submarine chasers destroyed two enemy submarines during the bombardment.

The chief of the general staff of the Italian navy made the announcement of the American success. The chasers were engaged in patrol escort service for the protection of the large warships taking part in the bombardment.

Italian sailors in the teeth of a hot enemy fire, torpedoed an Austrian destroyer and a steamship. Another vessel which was recognized as a hospital ship, was allowed to withdraw.

British and Italian airplanes cooperated in the work. Other Italian and allied warships were drawn up in order of battle outside the harbor to deal with the enemy warships coming up to the assistance of the port.

No losses or damage was suffered by the allied squadron, except a slight injury to a British cruiser by a torpedo from an enemy submarine.

(Durazzo is a seaport in Albania, fifty-three miles south of Ocutari. It is situated on a peninsula in the Adriatic Sea. For some time it has been a base for Austrian operations in Albania.)

## AMERICANS GAIN

**Yanks and French Get 3000 Captives in Mont Blanc Attack.**  
Paris, Oct. 5.—American and French forces in their victorious advance on the crest of Mont Blanc in the Champagne, captured 3000 prisoners according to the Echo de Paris.

The American casualties in the heavy fighting in the Argonne region are described as moderate. The Germans have been unable to maintain their artillery fire and undoubtedly are beginning seriously to feel the loss of the large number of guns captured from them recently all along the western front.

## PUSH AHEAD IN ALBANIA

**Italians Advancing on Fifty-Mile Front as Foe Retreats.**  
Rome, Oct. 5.—On a front of fifty miles the Italian forces in Albania continued to advance, the war office announced.

In addition to occupying Berat they are advancing in the direction of Elbasan and in the Drevati valley.

Italian troops in Albania began an energetic advance on Tuesday in the sector between the Adriatic and Osmia. The Italian war office announced that Italian columns in the evening had occupied the village of Elbas and the one of the Senent from Stobasi to the Merati Bridge and several heights.

The Austro-Hungarian forces are retreating rapidly and are approaching Berat. They have captured a number of prisoners and a large quantity of war material.

## FRENCH PUSH AHEAD

**Huns Fling in Reserves in Champagne to Stop the Advance.**  
Paris, Oct. 5.—Unofficial reports from the Champagne, where the Americans and French have made a new advance, say the French have captured Beaumont-Chateau, northeast of Somme-Py.

Germany is now throwing in general reserves into the battle on the

## HUNS MAY FIELD BELGIUM COAST

Has Been Under Heavy Bombardment For Two Days.

## REMOVING THEIR BIG GUNS

Country Behind Germans in Flanders is Afame and Army is Said to Be Panicky.

London, Oct. 5.—There is every indication, according to authoritative naval sources, of an early abandonment by the Germans of the entire Flanders coast.

The Germans already are removing their guns. The Belgian coast has been under a heavy bombardment for the past two days.

## FLANDERS FRONT: ABLEZE

With the British Forces in France, Oct. 5.—The country behind the German lines in Flanders is ablaze virtually everywhere.

From prisoners comes the information that the Germans are making hurried preparations to evacuate the Dutch country of Belgium along the sea coast. Dugouts are being blown up there.

In the Armentieres sector the retreat of the Germans continues. The British are now well to the east of Lens. Mericourt, southeast of Lens, has been captured by Haig's men. The Germans have fallen back six miles and the allies are within six miles of Lille.

The Belgians, together with French troops, have reached a point 2000 yards south of Hooglede and 1000 yards southeast of the Chapelle-Rouge road.

Civilians are being moved in a hurry from Courtil, fifteen miles east of Ypres.

There are no signs of fresh German reserves anywhere. There is every indication of disorganization not only in the enemy infantry, but in the artillery. Riots are reported to have occurred among certain German units in which even their officers participated.

A British officer familiar with the entire German situation in Flanders said:

"Nothing would surprise us. This may turn into a rout now."

Further progress was made by the British between Beaumont (nearly three miles east of Le Cateau) and Gony (just east of Le Cateau). Field Marshal Haig announced.

This is where the British made a break in the German line.

North of Lens the British line has been pushed forward so that it now runs through Warvin and Ervingham, the night report states.

Ervingham is only four miles from the westernmost outskirts of Lille.

There is tangible evidence that the Germans realize their position north of St. Quentin is extremely precarious, for the roads in the rear of the breached Hindenburg line are congested with traffic.

## 1,800,000 AMERICANS "OVER"

**Influenza Will Retard Troop Shipments For Time Being.**  
Washington, Oct. 5.—American troops abroad number 1,800,000.

Members of the house military committee were so informed at their weekly conference at the war department.

Spanish influenza in confinement will retard troop shipments somewhat in the immediate future, the congressmen were told. The war department has adopted the policy of not sending abroad men who have been exposed to the disease, or show symptoms of it.

Shipment of De Havilland airplanes abroad was greater last week than any time since their manufacture began, the congressmen were told. Production of Liberty motors also was greatly increased during the week.

## Hun Sailors Fight on West Front

Paris, Oct. 5.—Australians who participated in the battle of St. Quentin say that 400 sailors in infantry uniforms were captured by the Australians and Americans. All were young men, unskilled in land fighting. This is the first time since the second Ypres battle that German sailors have been encountered on the west front. Hundreds of Austrians wearing German uniforms have been captured in the recent fighting.

## Prepare for Changeable Weather

H. B. Miller, R. F. D. 10, Wooster, O., writes: "By the changing of odds and the weather, I took a very bad cold and sore throat. Four doses of Foley's Honey and Tar put me right in a day's time." It pays to get the genuine Foley's and avoid substitutes and counterfeits. Contains no opiates, and

St. Quentin front. This accounts for the stiffening resistance there and also along the German left flank and marks the beginning of the last phase of the great battle.

Notwithstanding violent counterattacks by the enemy, the allies continue to make gains, which, although local, are none the less important as they have a cumulative effect on the center of the line.

Principal interest along the front to the east centers about the operations conducted by General Gouraud in the Champagne sector. Reinforced by the Americans, General Gouraud has pushed forward until he is now within six miles of Vouziers Junction, a base of great importance and is twenty-five miles from the great railroad connecting the German army with Germany. He is also solidly established at Chatterange, which assures eventual junction with the Americans on the other side of the Argonne forest.

Better still are results along the northern sectors of the battlefield. The German retreat over a seventeen mile line in the Armentieres section, was accelerated. With the allies hot upon his trail the enemy gave up Armentieres and Lens, the great coal city, without a blow. He is now well out of these two cities and the mining region of Bethune is completely cleared.

Germany is now throwing in general reserves into the battle on the

**Influenza Will Retard Troop Shipments For Time Being.**  
Washington, Oct. 5.—American troops abroad number 1,800,000.

Members of the house military committee were so informed at their weekly conference at the war department.

Spanish influenza in confinement will retard troop shipments somewhat in the immediate future, the congressmen were told. The war department has adopted the policy of not sending abroad men who have been exposed to the disease, or show symptoms of it.

Shipment of De Havilland airplanes abroad was greater last week than any time since their manufacture began, the congressmen were told. Production of Liberty motors also was greatly increased during the week.

# PROPOSED AMENDMENTS TO THE CONSTITUTION SUBMITTED TO THE CITIZENS OF THE COMMONWEALTH FOR THEIR APPROVAL OR REJECTION AT THE ELECTION TO BE HELD ON TUESDAY, NOVEMBER 5, 1918, BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA, AND PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH, IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

## Number One

### A JOINT RESOLUTION

Proposing an amendment to article nine, section four of the Constitution of the Commonwealth of Pennsylvania; authorizing the State to issue bonds to the amount of fifty millions of dollars for the improvement of the highways of the Commonwealth.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following amendment to the Constitution of Pennsylvania be, and the same is hereby, proposed, in accordance with the eighteenth article thereof:—

That section four of article nine, which reads as follows: "Section 4. No debt shall be created by or on behalf of the State, except to supply casual deficiencies of revenue, repel invasion, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiency in revenue shall never exceed the aggregate, at any one time, one million dollars," be amended so as to read as follows:

Section 4. No debt shall be created by or on behalf of the State, except to supply casual deficiencies of revenue, repel invasion, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed the aggregate, at any one time, one million dollars: Provided, however, That the General Assembly, irrespective of any debt may authorize the State to issue bonds to the amount of fifty millions of dollars for the purpose of improving and rebuilding the highways of the Commonwealth.

monwealth.

Section 2. Said proposed amendment shall be submitted to the qualified electors of the State, at the general election to be held on the Tuesday next following the first Monday of November in the year nineteen hundred and eighteen, for the purpose of deciding upon the approval and ratification or the rejection of said amendment. Said election shall be opened, held and closed upon said election day at the places and within the hours at and within which said election is directed to be opened, held and closed, and in accordance with the provisions of the laws of Pennsylvania governing elections and amendments thereto. Such amendment shall be printed upon the ballots in the form and manner prescribed by the election laws of Pennsylvania, and shall in all respects conform to the requirements of such laws.

## Number Two A JOINT RESOLUTION

Proposing an amendment to section eight, article nine of the Constitution of Pennsylvania.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth article thereof:—

Amendment to Article Nine, Section Eight

That section eight of article nine, of the Constitution be amended by striking out the said section and inserting in place thereof the following:

Section 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as provided herein, and in section fifteen of this article, shall never exceed seven (7) per centum upon the assessed value of the taxable property therein, but the debt of the city of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed ten per centum (10) upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two (2) per centum

upon such assessed valuation of property, without the consent of the electors thereof at a public election in such manner as shall be provided by law. In ascertaining the borrowing capacity of the said city of Philadelphia, at any time, there shall be excluded from the calculation and deducted from such debt so much of the debt of said city as shall have been incurred, and the proceeds thereof invested in any public movements of any character which shall be yielding to the said city an annual current net revenue. The amount of such deduction shall be ascertained by capitalizing the annual net revenue from such improvement during the year immediately preceding the time of such ascertainment; and such capitalization shall be estimated by ascertaining the principal amount which would yield such annual, current net revenue, at the average rate of interest and sinking-fund charges payable upon the indebtedness incurred by said city for such purposes, up to the time of such ascertainment. The method of determining such amount, so to be deducted, may be prescribed by the General Assembly. In incurring indebtedness for any purpose the city of Philadelphia may issue its obligations maturing not later than fifty (50) years from the date thereof, with provision for a sinking-fund sufficient to retire said obligations at maturity, the payment to such sinking-fund to be in equal or graded annual or other periodical installments. Where any indebtedness shall be or shall have been incurred by said city of Phila. for the purpose of the construction or improvement of public works of any character from which income or revenue is to be derived by said city, or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city, such obligations may be in an amount sufficient to provide for, and may include the amount of, the interest and sinking-fund charges accruing and which may accrue thereon throughout the period of construction, and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred; and said city shall be required to levy a tax to pay said interest and sinking-fund charges as required by section ten, article nine of the Constitution of Pennsylvania, until the expiration of said period of one year after the completion of said work.

# PROPOSED AMENDMENT TO THE CONSTITUTION SUBMITTED TO THE CITIZENS OF THE COMMONWEALTH FOR THEIR APPROVAL OR REJECTION, BY THE GENERAL ASSEMBLY OF THE COMMONWEALTH OF PENNSYLVANIA, AND PUBLISHED BY ORDER OF THE SECRETARY OF THE COMMONWEALTH, IN PURSUANCE OF ARTICLE XVIII OF THE CONSTITUTION.

## Number One A JOINT RESOLUTION

Proposing an amendment to section eleven of article sixteen of the Constitution of Pennsylvania.

Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following amendment to the Constitution of the Commonwealth of Pennsylvania be, and the same is hereby, proposed, in accordance with the eighteenth article thereof:

Amend section eleven, article sixteen of the Constitution of the Commonwealth of Pennsylvania, which reads as follows:

"No corporate body to possess banking and discounting privileges shall be created or organized in pursuance of any law without three months' previous public notice, at the place of the intended location, of the intention to apply for such privileges, in such manner as shall be prescribed by law, nor shall a charter for such privilege be granted for a longer period than twenty years," so that it shall read as follows:

The General Assembly shall have the power by general law to provide for the incorporation of banks and trust companies, and to prescribe the powers thereof.

## Number Two A JOINT RESOLUTION

Proposing an amendment to section sixteen of article three of the Constitution of the Commonwealth of Pennsylvania in accordance with the provisions of the eighteenth article thereof.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That the following is proposed as an amendment to the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth article thereof:

That section sixteen of article three, which reads as follows:

"Section 16. No money shall be paid out of the Treasury, except upon appropriations made by law, and on warrant drawn by the proper officers in pursuance thereof," be, and the same is hereby, amended so that the same shall read as follows:

Section 16. No money shall be paid out of the State Treasury, except in

accordance with the provisions of an act of Assembly specifying the amount and purpose of the expenditure, and limiting the time in which said appropriation shall be expended. All public money shall be paid by the State Treasurer on warrant drawn by the Auditor General.

## Number Three A JOINT RESOLUTION

Proposing an amendment to article nine, section eight of the Constitution of Pennsylvania.

Section 1. Be it resolved by the Senate and House of Representatives in General Assembly met, That the following amendment to the Constitution of Pennsylvania be, and the same is hereby, proposed, in accordance with the eighteenth article thereof:

That article nine, section eight, be amended to read as follows:

Section 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as provided herein, and in section fifteen of this article, shall never exceed seven (7) per centum upon the assessed value of the taxable property therein, but the debt of the city of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed ten per centum (10) upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two (2) per centum

upon such assessed valuation of property without consent of the electors thereof at a public election in such manner as shall be provided by law. In ascertaining the borrowing capacity of the city of Philadelphia, at any time, there shall be deducted from such debt so much of the debt of said city as shall have been incurred, or is about to be incurred and the proceeds thereof expended, or about to be expended, upon any public improvement, or in the construction, purchase or condemnation of any public utility, or part thereof, if such public improvement or public utility, or part thereof, whether separately or in connection with any other public improvement or public utility, or part thereof, may reasonably be expected to yield revenue in excess of operating expenses sufficient to pay the interest and sinking fund charges thereon. The method of determining such amount so to be deducted, may be prescribed by the General Assembly.

In incurring indebtedness for any purpose the city of Philadelphia may issue its obligations maturing not later than fifty (50) years from the date thereof, with provision for a sinking fund sufficient to retire said obligations at maturity, the payment to such sinking fund to be in equal or graded annual or other periodical installments. Where any indebtedness shall be or shall have been incurred by said city of Philadelphia for the purpose of the construction or improvement of public works or utilities of any character, from which income or revenue is to be derived by said city, or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city, such obligations may be in an amount sufficient to provide for, and may include the amount of,

the interest and sinking fund charges accruing and which may accrue thereon throughout the period of construction, and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred and sinking-fund charges as required by section ten, article nine of the Constitution of Pennsylvania, until the expiration of said period of one year after the completion of said work.

## Number Four A JOINT RESOLUTION

An amendment to section one of article nine of the Constitution of Pennsylvania, relating to taxation.

Section 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That the following amendment to the Constitution of the Commonwealth of Pennsylvania be, and the same is hereby proposed, in accordance with the provisions of the eighteenth article thereof:

That section one of article nine, which reads as follows: "All taxes shall be uniform, upon the same class of subjects, within the territorial limits of the authority levying the tax, and shall be levied and collected under the general laws; but the General Assembly may, by general laws, exempt from taxation public property used for public purposes, actual places of religious worship, places of burial not used or held for private or corporate profit, and institutions of purely public charity," be amended so as to read as follows:

All taxes shall be uniform, upon the same class of subjects, within the territorial limits of the authority levying tax, and shall be levied and collected under general laws, and the subjects of taxation may be classified for the purpose of laying graded or progressive taxes; but General Assembly may, by general laws, exempt from taxation public property used for public purposes, actual places of religious worship, places of burial not used or held for private or corporate profit, and institutions of purely public charity.

Section 2. Said proposed amendment shall be submitted to the qualified electors of the State, at the general election to be held on the Tuesday next following the first Monday of November in the year nineteen hundred and nineteen for the purpose of deciding upon the approval and ratification or the rejection of said amendment. Said election shall be opened, held and closed upon said election day at the places and within the hours at and within which said election is directed to be opened, held and closed, and in accordance with the provisions of the laws of Pennsylvania governing elections and amendments thereto. Such amendment shall be printed upon the ballots in the form and manner prescribed by the election laws of Pennsylvania, and shall in all respects conform to the requirements of such laws.

# HUNS PREPARE PEACE OFFER

First Tries to Clean Up His Political House.

## ALLIES MAY JOIN HIM

Overtures From Berlin Are Likely to Be Participated in by Austria and Turkey.

Washington, Oct. 5.—The German cabinet changes mean an early peace offer that will come close to the line of acceptance.

The new parliamentary combination is a liberal combination bringing together the best elements in German political life.

The selection of Prince Max, of Baden, as Chancellor emphasizes the importance of the Socialists in the new government. Prince Max is a Socialist, has been a paying member of the party since before the war.

Philipp Scheidemann, who was elevated to the cabinet as a secretary of state without portfolio, is the leader of the Majority Socialist group. Groebner, also named as a secretary of state, is leader of the Centrists, who have also been a strong peace party.

The policy of the majority Socialists is well known and it is possible to deduce the nature of the peace proposal that will come from Prince Max and Scheidemann. They will probably offer to free Belgium, to participate in an international indemnity to Belgium, northern France and perhaps some other war-devastated territories; to withdraw from conquered lands; to create an autonomous state of Alsace-Lorraine within the German empire or under German influence; to revise the Brest Litovsk and Bucharest treaties; to create a league of nations, and accept the principle of disarmament. In short, the proposition will bring the central powers very close to the allied terms, or, at any rate, to the propositions of President Wilson.

They may precede this offer with certain internal reforms which will give Germany at least a more democratic appearance than it has now and perhaps a more truly democratic government. In this connection it is necessary to recall the Kaiser's words when he accepted Hertling's resignation the other day. The Kaiser promised a larger participation of the people of Germany in the German government. Now the calling of the leaders of popular parties into the cabinet does not of itself mean the larger participation of the people in the German government. The constitution remains the same. As one of the men best informed about Germany in Washington described it, "putting Prince Max and Scheidemann in the cabinet is like putting a new team of horses into a carriage, while the carriage, the harness, the reins, the driver remain the same. It is a fine pair of horses. A more splendid looking team could not be imagined."

## AT HOME, ON CASUALTY LIST

Man Home on Leave When Parents Get Telegram.

Metuchen, N. J., Oct. 5.—While second Lieutenant David M. Aht was at his home here on leave from a base hospital a war department telegram was received by his parents, announcing that he had been severely wounded in action.

Although the officer was hit by a machine gun bullet in an engagement on the Vesle August 7, his name did not appear in the casualty list until yesterday.

He was sent to this country from a hospital in France last month. Lieutenant Aht, describing some of the enemy's tactics, said they attached poisoned berries to clusters of growing fruit in the territory over which they retreated. The artifice was discovered, however, in time to warn the American soldiers.

## NEW PEACE PLEA

Austria Asks Holland to Call Conference of Warring Nations.

Amsterdam, Oct. 5.—Austria-Hungary has requested Holland to invite the belligerents to take part in peace negotiations, says the Vienna correspondent.

The correspondent adds that Holland already has sent out the invitations.

A delegation of Hungarian statesmen, headed by Premier Wekerle, has arrived in Vienna in connection with a new peace move, according to the Cologne Gazette.

The other members of the Wekerle party were Count Stephen Tisza and Count Julius Andrássy, former premier of Hungary, and Count Albert Apponyi, the Hungarian minister of instruction.

## Ford Interests Take \$7,000,000.

Detroit, Mich., Oct. 5.—A subscription of \$7,000,000 by Henry Ford and the various Ford interests here sent Detroit and Wayne county beyond the half-way mark in the drive to raise a quota of slightly more than \$73,000,000 in the Fourth Liberty Loan. Total subscriptions to date amount to \$38,209,000.

## PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. Watch the kidneys.

The kidneys are the most over-worked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degenerations and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, high colored or scanty urine, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Go to your druggist immediately. Get a trial box of GOLD MEDAL Haarlem Oil Capsules, imported direct from the laboratories in Holland, where they have been in use for over two hundred years. They will give almost immediate relief. If for any cause they should not your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In settled boxes, three sizes. adv.

Cut This Out—It is Worth Money. Don't miss this. Cut out this slip, enclose with 5c to Foley and Co., 2335 Sheffield Ave., Chicago, Ill., write your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds, and croup; Foley's Kidney Pills and Foley's Cathartic Tablets. Sold everywhere. ad

## Surprise Party

A surprise party was held at the home of Mr. and Mrs. Joseph Draper in the remembrance of their son, William Tempest's birthday anniversary. Games of all kinds were played until a late hour after which a Hooverized luncheon was served. He was presented with a handsome watch chain, the gift of his many friends, the presentation being in the hands of Ambrose Hollenbach. Bill responded in a creditable manner.

Songs were sung by the Misses Hebert Hollenbach and Viengst, with the Misses Grace DeLong and Sadie Fregellas presiding at the piano. All the guests departed for their respective homes at a late hour wishing Bill many more happy birthdays. Edward Ashman is to be remembered also for being so generous as to escort the guests home in his Buick.

## WITHIN SMASHING DISTANCE OF GERMAN ARMY

WITH THE AMERICAN FIRST ARMIES, Oct. 5.—Resumption of the American first army's attack on a 25 mile front west of Meuse, together with a 5-mile advance of the Americans east of Rheims, has brought the Americans within smashing distance of the German line and two important positions on the west front.

## ENEMY BULLET FOUND ITS MARK

A Hun bullet found its mark in another Mahanoy City boy, who has been fighting on the west front for the past several months. The unfortunate hero is William Karnaros, a private in Co. C, 103rd U. S. Engineers.

Private Karnaros, who is twenty-three years old, was born in Greece. He came to this country when a young boy, where he took up his residence with his uncle, James Goodis, proprietor of the Presto restaurant. Before enlisting in the Engineers at Pottsville about one year ago, he was employed as a waiter at the Presto restaurant.

The message from the war department, which announced that he had been killed in action September 5th, was received last evening by James Goodis, who is the closest surviving relative.

In a recent letter which he wrote to his uncle, he stated that he had been in the front line for four months and that at present he was taking a rest in the rear, but that he expected to go back to the front in a short while. He said that, in the last battle he was in, they forced the Germans to retreat and that he would write again when he got to Berlin, which he stated, would be soon.

## THREATENS MAIN RAIL ARTERY

WASHINGTON, Oct. 5.—The American advance between the Argonne and the Meuse threatens the main rail artery of Germany to the western front.

The United States push has taken our forces up to the 18 miles in direct line from the railroad.

Gen. March, chief of Staff, pointed out these vital facts today, along with a statement that our drive has compelled to throw "many divisions" into its path. They have been held here by our forward movement.

## TO ALL CAPTAINS AND LIEUTENANTS FOURTH LIBERTY LOAN

On account of the epidemic of influenza the general meeting planned for on the coming Monday night in Elks' Home is cancelled. It was hoped that this educational and inspirational affair could be held; but even though it cannot the Captains and Lieutenants will be pleased to obey the mandate of those in authority.

All Captains are requested to call at the office of Zone Director Joseph F. Noonan in the Dipper building, 125 West Centre street, tonight, October 5, at eight o'clock. All necessary details will be unfolded and the necessary supplies will be given.

A considerable burden has been placed upon the shoulders of the Captains and the Lieutenants, who have done valiant work in the past, and who will do still more valiant work in the present drive, which will make its formal start Tuesday morning, October 8, at nine o'clock.

## Does Your Life Work Mean Anything to You?

You farmers who have worked hard—and no one works harder—to get together your property, what does it mean to you?

Your property—your farm and buildings, your crops, your stock, your farm implements and, too, your home—all of these represent years and years of work that you have done.

Everything that you enjoy as the result of your work comes to you and stays with you because the heroic soldiers and sailors of Uncle Sam are standing between you and the bloodthirsty, murderous Hun.

To keep the Hun away from you, Uncle Sam does not ask you to GIVE even a single penny. He simply asks you to LEND him your money at good interest and he guarantees on his word of honor—a word that has never been broken—to pay back every penny you lend.

What is your answer?

# Now — All Together!

## How Are You Going To Answer Germany's Peace Terms?

**T**HE greatest advertisement for the Fourth Liberty Loan of the United States of America has been written by a Prussian.

His name is Count Roon and he wrote it as a member of the Prussian House of Lords. It is printed above. Read it carefully.

Forty-five billion dollars or more indemnity!

This, then, is the price the world must pay for a victorious German peace. This, then, is the footnote to the Kaiser's prayer, expressed in the coldest terms of plainest business.

**N**OTHING could stand against the mad dash of the French and American cavalry on the Marne—the German lines gave way, broke, fled; the day was won.

That fighting spirit of the men of Foch and Pershing, that united purpose—for Victory *must be the spirit, the purpose, of each of us behind the lines.*

Paris, Aug. 5.—The Americans covered themselves with glory in the hand-to-hand fighting in the streets of Fismes yesterday when they captured that German base. The fighting is said to have been the bitterest of the whole war, the Prussian Guards asking no quarter and being bayoneted or clubbed to death as they stood by their machine guns.

This is the meaning of war to the Prussian, as he proclaims his battles righteous, prosecuted in self-defense.

Oh, you men and women of America, is there a dollar in all this land to-day so tightly held that it will not now come forth to answer the swaggering arrogance of the Hun?

These days will tell, for as you place your name upon that subscription blank for Liberty Bonds you state the price your land, your liberty and democracy are worth to you today.

Now how are you going to answer the "peace terms" of the kaiser and his band of murdering buccaneers?

We must lend as well as they fight. And we must pull together with all the strength we have—*now!*

We must so order our lives that we can save—to the limit—and lend—to the limit—for Victory. We must put America's whole strength behind our fighting men.

**Let us lend the way they fight Now—All Together! Let us buy bonds to our utmost**

# WHILE INFLUENZA IS MAKING A RECORD IN OUR MIDST IT IS THE DUTY OF ALL AMERICANS TO SEE THAT THE FOURTH LIBERTY LOAN WILL MAKE A PROUD RECORD

## PROCLAMATION.

To The People of The Commonwealth of Pennsylvania:

Our Commonwealth is threatened by a serious epidemic of influenza, a highly communicable disease, which in many cases develops into an extremely fatal type of pneumonia.

In order to as fully as possible protect the lives of our people as well as our essential war industries, the Department has issued an order closing all theatres, moving picture places, amusement places, saloons, dance halls and all unnecessary public gatherings forbidding unnecessary visiting of the sick, and requiring all funerals no matter what may have been the cause of death, to be private.

For the public good, as well as for your individual safety, the Department calls upon all good citizens to help make this order effective.

Avoid crowds and places frequented by large numbers of people; stay at home and do not use the street car or trains except as your duties or employment absolutely require. Crowded cars afford unusual facilities for spreading the disease; make them less dangerous for those who must use them in necessary industry.

Your hearty co-operation is necessary in this grave emergency.

Wholesale liquor dealers, bottlers, fraternal organizations and social clubs are requested to discontinue the sale, delivery or serving of liquors for the period during which the hotel bars and saloons are closed.

Compliance with this request is expected on the part of loyal dealers and patriotic organizations. Those who have been affected and in some instances greatly inconvenienced by the direct order are everywhere willingly and cheerfully obeying its requirements.

(Signed) B. FRANKLIN ROYER,  
Acting Commissioner of Health

## BELLS WILL RING WHISTLES WILL SHRIEK

Tomorrow morning at nine o'clock the bells will ring and the whistles will peal forth shrieks of determination and optimism announcing the formal opening of the Drive for our quota of the Fourth Liberty Loan. It is the largest sum of money we have yet been asked for by the Government. There are circumstances attending the opening of this drive that are distressing as against this there are circumstances that should give us all the stout heart and the courage to do our part. What our noble Allies and our own, our very own, boys have been, and are still doing over there, is sufficient warrant for us to face our duty and perform it in the same way we have done every job we have been given to do so far.

We, the people of Zone 8, have established an enviable record. This record we must maintain. There will be no step backward. The Captains and Lieutenants, too, have earned an enviable record for efficient, intelligent work. There will be no retrograde movement on their part.

These gentlemen, mark you, are Government agents. They do not receive a "thank you" for the time they lose from their work, their patriotic sacrifice, or their good work. They have a talent. They volunteer this talent, and their time, because they realize it is their duty to do so. It is your duty to bear this in mind. Afford them every courtesy.

Our quota is so high, as a general thing, we will have to double and triple the amount of bonds we bought last time. The different plans by which you can buy are so easy that there is no excuse for buying a button.

The following, under the leadership (Continued on page 8)

## DEATHS HARVEST IN OUR MIDST

William J. Hoben passed away at his residence, 715 East Pine street at 10:45 o'clock Saturday evening, after a long illness with complications of diseases. He had been ill for several months but was able to be about until two weeks ago when he was forced to take to his bed, where he has remained until death.

Deceased was born in Port Carbon 58 years ago. He came to this town when a child where he has resided ever since. He was a faithful member of St. Canice church and belonged to the Humane Fire Co., No. 1.

For years Mr. Hoben was employed as a leader boss at the Primrose colliery, illness forced him to retire.

Sympathy is extended to his survivors who are his widow, one daughter, Mrs. Edward Walsh, two sons, John, with the American forces in France; and Clarence, at home; also two brothers, Michael, the well known cigar store man, and Patrick, both of town.

### DANIEL HOLT

Daniel Holt, for many years the proprietor of billiard parlors on South Main street, died at the home of his daughter, Mrs. James Blackwell, at Ashland, on Saturday evening at 8:45 o'clock, after a three days' illness of heart trouble.

He was born in town fifty years ago and has been a life long resident. Religiously he was a member of the Lutheran church. Fraternally he belonged to the Ashland camp P. O. S. of A.

Deceased is survived by two sons, Charles, of town; and Thomas, of Locust Valley, and one daughter, Mrs. James Blackwell, of Ashland. One brother, J. D., also survives. Sympathy is extended.

### WILLIAM GOODMAN

Death claimed William, the fifteen-year-old son of John Goodman, died at the family residence, 1003 East Mahanoy street, at 6:30 o'clock Saturday evening. Pneumonia was the cause of dissolution. He was stricken Friday evening and passed away within twenty-four hours. He was a member of the Freshman class of the Mahanoy City High school and of St. Fidelis church.

The deepest sympathy is extended to his survivors who are his father, and three sisters, Mary, Rose and Catharine.

### HAROLD THOMPSON

Harold, the eighteen-month-old son of Mr. and Mrs. John Thompson, died at Fountain Springs State Hospital at 8 o'clock Saturday evening with pneumonia. The child's father, is somewhere in France, with the American Expeditionary Force. The funeral will take place from the home of the child's grand parents, Mr. and Mrs. John Dichus, 1035 East Pine street. Sympathy is extended.

### MRS. VICTOR FEDOR

Mrs. Victor Fedor, wife of the well known shoe store man, died at the family home on West Centre street, at 6:30 o'clock Sunday evening. Death was caused by a premature birth due to pneumonia. The child is also dead. Deceased was a member of St. Mary's Slavish church. Her husband and two children survive. Sympathy is extended.

### MARY RASIMAS

Mary, the three month old daughter of Mr. and Mrs. Rasimas, died at the parental home on West Centre street, this morning. Diphtheria was the cause of death.

### MRS. JOHN YUERSKY

Mrs. John Yuersky, died at her home, 51 B. street, at 1:30 o'clock yesterday afternoon of pneumonia. She gave birth to a child in the morning, which also died. Deceased was a member of St. Mary's Slavish church. Sympathy is extended to her survivors who are her husband and three children.

### MRS. VICTOR LAYLAND

Mrs. Victor Layland, a former resident of town, died at her home in Middleport last evening. She was a member of St. Joseph's Lithuanian church of town. Besides her husband she is survived by one child. She will be buried in the Lithuanian church cemetery on the hill.

## PERCENTAGE OF SERIOUS CASES IS NOT LARGE

While Mahanoy City has about 300 cases of influenza comparatively few deaths have occurred and the physicians report the percentage of serious cases as not large.

The Mahanoy City Board of Health early grasped the situation and an effective quarantine is being maintained. Our physicians are working day and night, giving their best efforts to stemming the tide of the epidemic. In respect to deaths from the dread disease this city has been fortunate.

Yesterday Health Officer Frank E. Reed placarded the homes in this city where influenza exists. The schools, churches, public places of amusement and churches remain closed. The Mahanoy Township schools were closed this morning.

It is hoped that with the hearty co-operation of the people and the approach of cold weather this epidemic which is causing such great loss of life the country over may be subdued.

The situation about the county today was anything but gratifying. 5,000 cases were reported up to the noon hour, with the disease spreading. Minersville is suffering severely. 58 deaths occurred there Sunday and 1000 cases are reported there.

Morea has 108 cases. No deaths have occurred there. Gilberton borough, 230 cases and 2 deaths.

The deaths include John Morgan, aged 36, and Mrs. John McGeough. Mrs. McGeough died Saturday evening. Her husband and six children are down with the disease.

Cressona—700 cases.  
Delano—7 cases.  
Girardville—125 cases.  
Ashland—300 cases, only one serious, (Dr. J. F. Marshall).  
Shenandoah—30 cases. No deaths.  
Pottsville—800 cases — some common "sniffers."  
Tamaqua—1,200 (7 deaths).

In some places a big step is being taken to co-ordinate and extend relief work in the formation of a Disaster Relief Committee, operating as a unit of the Red Cross. This committee has begun the establishment of bed emergency hospitals where all cases of the epidemic are being treated.

The Kaier Hotel has been mentioned in Mahanoy City.

### SEIVERT'S DRESSES

One has but to see this beautiful collection of fall dresses to be impressed with the cleverness with which the simple straight lines have been relieved by ingenious treatment.

The skirts are rather slender, the normal waist line continues in favor, but pleatings, draped and gathered effects and sashes arranged for adaptation to individual tastes lift these garments out of the ordinary.

The range of materials includes serge, tricot, gabardine, jerseys.

From \$10 to \$32.50.

### Sewing Classes, Attention

The sewing classes of the local Red Cross chapter will not meet again until further notice.

WITH THE AMERICAN FIRST ARMY, Oct. 7.—Both wings of the American forces between the Argonne massif and the Meuse River continued to advance despite greater efforts by the Germans to increase their resistance.

### PETER HOLZENTHALER

Peter Holzenthaler, aged about 45 years, a resident of Coles for many years, passed away at his home in that place at 9:30 o'clock Sunday morning after a short illness with pneumonia.

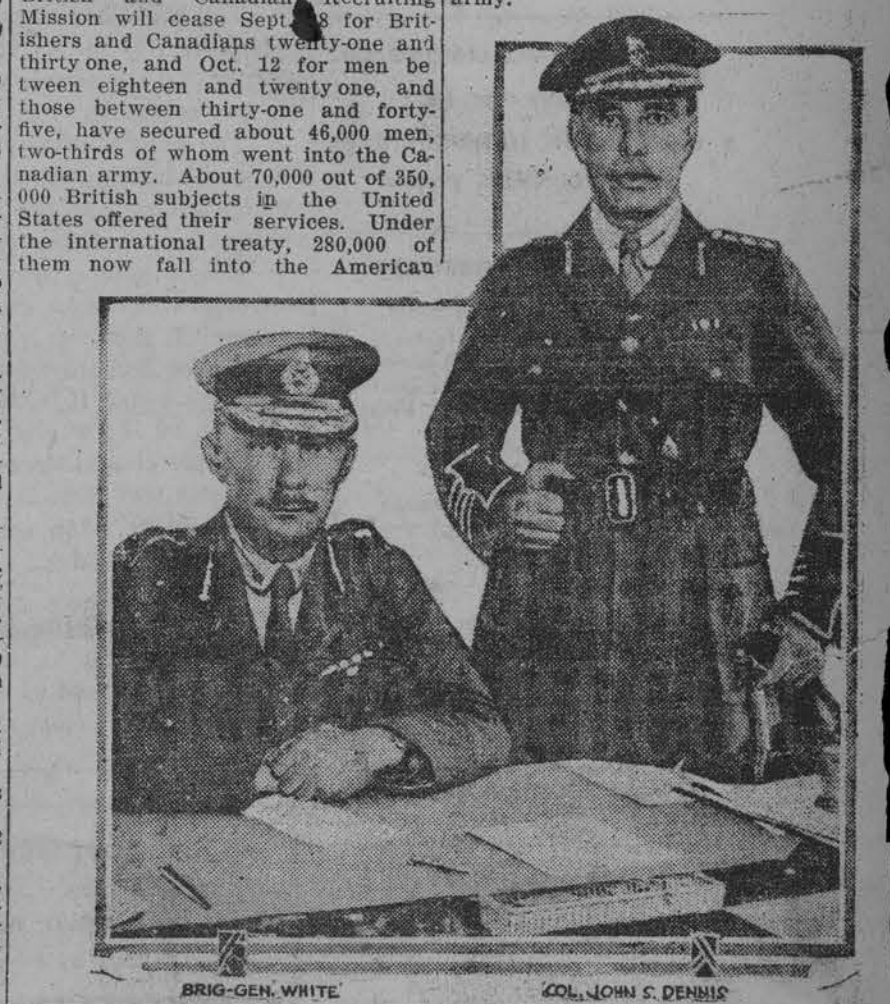

Religiously he was a member of St. Fidelis church, of town. Deceased is survived by two sons, Edward, and Vincent, and four daughters, Gertrude, Mame, Philomena and Mrs. Edward Oakum, all of Coles. Sympathy is extended.

### MRS. AND. KUSILAVAGE

Mrs. Andrew Kusilavage died at her home in Mt. Carmel yesterday as the result of childbirth. She was formerly Miss Mary Brown, of West Spruce street.

## They Recruited 46,000 Britishers Here

Brigadier-General W. A. White, C. B. and C. M. G., and Colonel John S. Dennis, C. E. F., whose work for the British and Canadian Recruiting Mission will cease Sept. 8 for Britishers and Canadians twenty-one and thirty-one, and Oct. 12 for men between eighteen and twenty-one, and those between thirty-one and forty-five, have secured about 46,000 men, two-thirds of whom went into the Canadian army. About 70,000 out of 350,000 British subjects in the United States offered their services. Under the international treaty, 280,000 of them now fall into the American

## ELEVEN DEAD AT FRACKVILLE

The situation at Frackville is alarming. 450 cases exist there of which 70 are serious. Eleven deaths have occurred there within the last 24 hours. State aid has been summoned. Dr. Young of the State Department and Dr. George H. Moore, County Coroner, Schuylkill Haven, have been stationed at Frackville and are in charge of the hose houses which have been transformed into a hospital. Cots have been secured from the Pottsville Hospital and the East Bear Ridge and Maderia Hill and Company ambulances have pressed into service. The Home Defence League and Red Cross Chapter of Frackville are working together to stem the great tide of epidemic.

The victims of Spanish influenza at Frackville over Sunday included some of that town's best known people as follows:

### The Dead List

Nicholas Irvn, hotel keeper. His wife and three children, one of whom, Margaret, may die of the disease.

George Tiler, former hotel keeper, married.

Gilbert, son of Mr. and Mrs. Jacob Helm, aged 21 years.

John Hodgetts, single, aged 32 years.

Harry, son of Mr. and Mrs. William Green.

John, eleven year old son of Mr. and Mrs. David Phillips.

Thomas Evans, son of Mr. and Mrs. Thomas Evans, aged 30 years and single, recently removed from Land- ingville to Frackville.

Mrs. Harry Woods, aged 35 years, having a husband and five children.

Mrs. Annie Gluse, aged 30 years, a widow, having six children.

Joseph Waslusky, married and having a family.

Mary Achenbach, one year old daughter of Mr. Anthony Achenbach.

Mrs. Gluse and Mr. Waslusky died at the home hospital.

The twelfth death from influenza occurred at the hose house hospital at Frackville, at 2:15 o'clock this afternoon when Rhinehart Pugh, aged 32 years, a colliery fireman and popular member of the Good Will Co. Band, of Frackville, succumbed. His wife and two children survive.

## GERMANY CAN NOT PULL OFF ANYTHING ON US

PARIS, Oct. 7.—Germany does not accept the welcome terms for peace in Prince Fux's speech to the Reichstag. She merely says that the 14 and 4 points form a basis for negotiation. Therefore there can be no peace until Germany makes full reparation and guarantees that will insure the future.

This is the stand taken in Paris and all of France on the peace statement coming from Germany.

One fact stands out. Germany knows and admits that she is beaten, but this does not mean that the war is ended.

Meanwhile the victorious allied troops are advancing while the millions of eyes of fighters and people are turned hopefully to President Wilson.

## CHARLEY KAIER'S OFFER TO TOWN

Charles F. Kaier, the magnanimous, philanthropic brewery magnate of this city, always alive to the welfare of the city and always at the head of humanitarian measures, this afternoon authorized The Record to state that he offers the use of the Kaier Hotel to Mahanoy City as a hospital during the influenza epidemic.

It accepted, the place will be put into excellent sanitary condition. Cots are already there to accommodate a large number of patients. Doubtless the Board of Health will accept this very gracious offer.

There patients can be segregated from the community and the spread of the contagion can be reduced to the minimum.

Charles Kaier is often appealed to for favors to the community. He never falls down. The thanks of Mahanoy City goes out to him in this, another proof of his pride, loyalty and interest in his home town.

# Money Makes the Ships Go!

By CHARLES M. SCHWAB

Despite the fact that we have made real progress in shipbuilding, it must be remembered by every patriotic American that the need for ships increases proportionately with the increase in the size of our fighting forces overseas. Transporting troops to Europe is only one-fourth of the task that our shipping facilities must bear. The other three-fourths is the carrying of supplies and munitions of war.

*Ships cannot be built without money.* In war time it takes a great deal of money. Undoubtedly after the war is

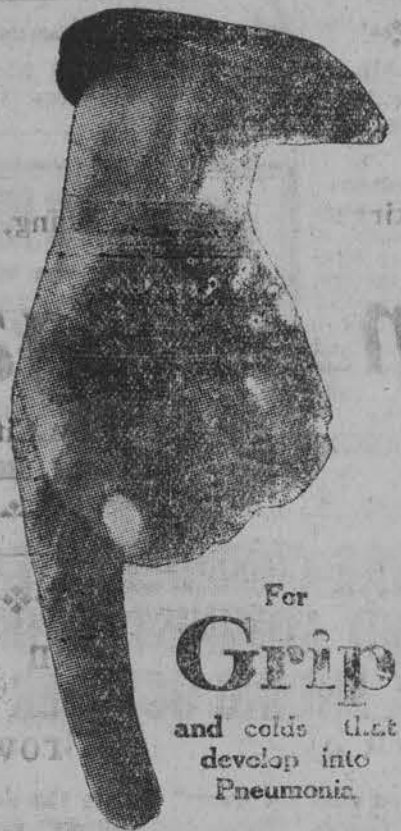

over the ships that we are building now will pay for themselves many times over. *But the immediate need is money and the whole-hearted support of the entire nation.*

If the American people could visualize what has been done in our shipyards with the money that they invested in the first Liberty Loans, I am sure they would be as proud and as enthusiastic as I am. The ships that we have built and are building should persuade the most cautious investor to put his money into Liberty Bonds of the fourth issue.

## PUTS THEM TO ROUT IN RIGHT WAY

Uses the Sensible Method

There's a right and a wrong way  
of doing everything. We all know that.  
To take heart-depressing headache  
powders and tablets is most certain-  
ly the wrong way and very often dis-  
astrous. The right way is to get at  
the cause. That's what BA-HA-NI does.  
Just take one BA-HA-NI tablet with  
your evening meal and you will soon  
say good-bye to every headache and  
dizzy spell. Your bowels will be regu-  
lar, your digestive organs perfect and  
you will be no longer a slave to heart-  
killing headache powders and "pain-  
pills"! Start this very evening to let  
BA-HA-NI regulate you. Take one  
with your meal each evening and in a  
short time you will marvel at the ab-  
sence of dizziness and headache at-  
tacks and at your good appetite and  
healthy stomach! For sale by Geo. M.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr.  
Edwards' Olive Tablets  
The secret of keeping young is to  
feel young—to do this you must watch  
your liver and bowels—there's no need  
of having a sallow complexion—dark  
rings under your eyes—pimples—a his-  
terious look in your face—dull eyes with  
no sparkle. Your doctor will tell you  
ninety per cent of all sickness comes  
from inactive bowels and liver.  
Dr. Edwards, a well-known physician  
in Ohio, perfected a vegetable com-  
pound mixed with olive oil to act on  
the liver and bowels, which he gave to  
his patients for years.  
Dr. Edwards' Olive Tablets, the sub-  
stitute for calomel, are gentle in their  
action, yet always effective. They bring  
about that exuberance of spirit, that  
natural buoyancy which should be en-  
joyed by everyone, by toning up the liver  
and clearing the system of impurities.  
You will know Dr. Edwards' Olive  
Tablets by their olive color. 10c and

## THE PEACE OUR SOLDIERS WANT—THE PEACE OUR WAR MOTHERS WANT

The Stars and Stripes, the official newspaper published by the soldiers of the American Expeditionary Forces in France, says editorially about the enemy peace offensive:

"Let the weak hearted who are dreaming of a compromise; let the pacifists who are talking a peace by agreement; let the seditious who who have had enough of war; let the secretly inclined pro-Germans who think this war should end without a decision—let them, one and all know once and for all that for the American Expeditionary Force there is no such word as 'Peace' with the Hun unbeaten. The man who talks of peace today, except through victory, is a traitor."

The enemy peace offensive is likened to the action of German machine-gun crews in the Veste fighting, when they fought and killed Americans until they were surrounded, then shouted "Kamerad."

The mothers of the American soldiers in France want the same peace their sons demand. All the courage of the ancient Spartan mother is in the hearts of the women of America. The object of the Fourth Liberty Loan is to bring that peace—a just peace, a righteous peace, an American peace.

## SEVEN REASONS FOR SAVING

Save for your country's sake, because it is now spending millions a day and must find most of the money out of savings.

Save for your own sake, because work and wages are plentiful, and, as prices are high now, a dollar will buy more after the war.

Save, because when you spend you make other people work for you, and the work of everyone is needed now to win the war.

Save, because by saving you make things cheaper for everyone, especially for those who are poorer than you.

Save, because by going without you relieve the strain on ships, docks, and railways, and make transportation cheaper and quicker.

Save, because by saving you set an example that makes it easier for the next man to save. A saving nation is a winning nation.

Save, because every time you save you help twice, first when you don't spend and again when you lend to the nation.—The Commonwealth.

We want to give the Hohenzollern dynasty a real "die nasty" time of it!

## THE HOME FRONT

The battle front in Europe is not the only American front. There is a home front, and our people at home should be as patriotic as our men in uniform in foreign lands.

Every American soldier who has fallen in France, every American sailor who has died for his country's cause has given his life for his people. Surely we, their people, can lend our money to our Nation, their country.

The Fourth Liberty Loan is the fighting loan. Its great success will bring comfort and encouragement and a deep sense of pride to our Army and our Navy, and to our Allies. It will bring discouragement to our enemies. Its success means American victory, Prussian defeat.

The fourth loan is the fighting loan, the soldiers' loan.

## WHAT IS THE LIBERTY LOAN?

It's forts and it's ships and it's shining guns.

It's squadrons that sweep the sea. It's all of the circling band of steel that shall keep all the home shores free.

It's grub and it's warmth for the sailor lad. Far out on the wintry foam, For the braye jack tar, as he fights afar.

It's the good old "Money from home."

## WHAT IS THE LIBERTY LOAN?

It's rifle and helm and it's bayonet. It's shovel and shand and shell. For the soldier boy in the olive drab. Out there on the edge of hell.

It's the soaring wings of the whirling planes. That battle on high alone.

For the lad who is daring "Over there!" It's the good old "Money from home."

## WHAT IS THE LIBERTY LOAN?

It's succor and life for a bleeding world. It's the glimmer of Peace at dawn. It's the strength of a mighty arm to strike.

It's the gleam of a great sword, drawn. But, more than all, it's the pledge of love.

To the lads whom we call "Our own." To the boys on land, afloat, on high. It's the good old "Money from home."

—By Ralph E. McMillin.

## WE HATED THE LIARS

When as wee youngsters in school together, we hated the liars and the tattlers. Once we found them out, we never really trusted them again. And it is the same way in our older years—we never really trust those we have found lying and telling tales.

In a world way, the Germans have proved themselves the most consistent and despicable liars of all times. That is why we do not trust them—why we must win the war through to a finish. And that is why we do not dare accept, at face value, any rumor or talk that in anyway has to do with the Germans. Truth comes from them only by accident.

Now that they are encountering defeat on every side, the Germans may very likely rebound their efforts to save some of the wreckage by adroit lying—so keep your eyes open and demand proof of every story you hear.

The more we oversubscribe the Fourth Loan, the fewer liars will there be for the future.

## KEEP ON FIGHTING!

"Optimism at present may be our greatest danger. One dollar loaned now may be better than ten dollars earned later."

## GERMANY'S BARTER FOR PEACE SAYS WASHINGTON

WASHINGTON, Oct. 7.—Washington regarded the latest Teutonic peace as an attempt to barter for peace, a peace to Germany's advantage before American Allied arms visit it retribution on the Boche armies.

Inasmuch as the offers contain no proposals for withdrawing troops from Allied territory nor proposals for a general and complete laying down of arms, they are not acceptable international authorities declare. But one or both of the hypocritical walls for peace would be ready for presidential and state department inspection before night appeared likely. The government ready to send upon short notice the reply of President Wilson. The proposals are timed to beforesight at a moment when America is putting forth its maximum effort with the Fourth Liberty Loan and when American Allied forces are smashing the Boche armies back along the Western front.

The Swedish minister reached the State Department shortly after 10 A. M. to deliver to Secretary Lansing the Austrian peace appeal.

## MOVIES FOR THE LOAN

Big Stars Play Parts in Thrilling Pictures That Boost Fourth Loan.

The moving picture reels to boost the Fourth Liberty Loan have been prepared largely in consequence of the great success achieved by Douglas Fairbanks' film last spring. The leading stars have prepared scenarios and acted them. Films have been furnished by Charlie Chaplin, Douglas Fairbanks, William Hart, Mary Pickford, Dustin Farnum, Pauline Frederick, Geraldine Farrar, Dorothy Gish, Mable Norman, Clara Kimball Young, Norma Talmadge and others.

Two films have already been received in Philadelphia and enough have been completed to insure every exhibitor in this district having opportunity to screen a new Liberty Loan feature each day of the campaign. It has been arranged by the National Liberty Loan Committee that exhibitors will secure these films entirely free of charge.

The first two pictures received are "A Bullet For Berlin," by William S. Hart, and "Kaiser Bill," by Mae Murray. It is said that Mary Pickford's story will be of an unusual nature and will carry a big punch. D. W. Griffith will take personal charge of the filming of the "Lillian Gish" story and Thomas H. Ince is making a special production in addition to the ones in which his stars are to appear. Reports from the Pacific coast are that the "Fatty Arbuckle" film is a scream. Charlie Chaplin's film is expected to be one thousand feet in length. It will be a "knock-out," but Charlie maintains deep secrecy as to the nature of it.

## THESE PRICES ARE CONSIDERED FAIR BY THE FOOD ADMINISTRATOR WEEK ENDING OCTOBER 5, '18

Consumers' prices are figured both on a "Cash and Carry" and "Charge and Delivery" basis. The first amount in the consumer's column is the price the consumer should pay to a "Cash and Carry" dealer; the second to a "Charge and Delivery" dealer. The Federal Food Administrator has no authority to fix prices but he may determine what is fair and reasonable.

# Dollars that Fight

By SENATOR HENRY CABOT LODGE

The war will be won by men and ships, by guns and airplanes. To raise armies and supply them, to build the navy and support it, and to furnish ships and transport, we must have money in large amounts. The expenditures of the Government for the ensuing year are estimated at \$24,000,000,000, a sum which baffles the imagination to conceive. That vast amount

must come one-third from taxes and two-thirds from loans. The success of the Fourth Loan, like those that preceded it is, therefore, absolutely necessary. We must work with the highest speed, as if the war was to end in six months. We must prepare in every direction, as if it was to last for years. Speed and preparation are both expensive.

## Without the Loans We Cannot Have Either

We are fighting to secure a just, righteous and lasting peace. For a complete peace we must have a complete victory. It must not be a peace of bargain or negotiation. No peace which satisfies Germany can ever satisfy us. No peace that leaves Germany in a position to renew the war against us will be worth having. It will be far from sufficient to gain all our objects on the Western front—Belgium, Alsace-Lorraine, Italia Irredenta. The President with wisdom and foresight and great force expressed his determination to redeem Russia. Russia

must not be left in Germany's hands. That would mean another war. Poland must be free. Slav republics must be established to bar the way between Germany and the East. Serbia and Roumania must be redeemed. All these things are essential. *Nothing will bring them but complete victory and a peace dictated by us and our allies.* It is a conflict of ideas. It is the principle of evil arrayed against the principle of good. It is the battle of freedom and civilization against barbarism and tyranny. *We must win and we shall win.*

**We Cannot Win Without Money, and, Therefore, These Loans Are Vital, and the Country Should Rally in All Its Strength and Subscribe and Oversubscribe the Fourth Loan**

## COUNTY IN THROES OF WORST EPIDEMIC IN ITS HISTORY

POTTSVILLE, Oct. 7.—Schuylkill County is virtually in the throes of the worst epidemic in its history. Influenza has, since the outbreak of the disease three days ago, wrought more damage and caused the medical profession more apprehension than any virulent visitation within the history of the town. It has gripped not only the county seat but practically every village and hamlet within the county borders, and messages announcing the death of her valiant soldiers and sailors in the camps and on the high seas are being sadly emphasized by conditions at home.

Since Saturday morning, County Medical Officer J. B. Rogers, has been occupied in sending out quarantine orders to all of the local boards, and directing the police authorities to enforce the health regulations prescribed, to the fullest extent and to spare no person, who, either by ignorance or neglect, contributes to the spread of the disease.

Emergency hospitals are springing up in every town. Pottsville has two, both the armory buildings on North Centre street, and the handsome and spacious Milliken home on Greenwood Hill just north of the Pottsville Hospital being transferred into emergency stations for the treatment of serious cases. Emergency stations are also being established in Minersville, Shenandoah, Schuylkill Haven and other towns where authorities have reasons to fear serious outbreaks of the disease.

There are at least 5,000 in the county, according to the county officials' meagre reports which up until last evening were of necessity, vague, owing to the rapidity with which the disease spread. At Frackville the worst conditions in the history of that town existed; and at Minersville there was said to be almost, if not more than a thousand cases. Many of these were the most malignant type and upwards of fifty deaths were reported to the health authorities of that town up until last evening, all of which were directly traceable to the influenza. Conditions were so bad in Minersville that the drug stores and the closing of some of the industries was under consideration by the authorities on Sunday night. The town was overrun with the disease and no section seemed to be less affected than the others.

Officers of the State Board of Health, especially delegated to duty in the county by Health Commissioner, F. B. Royer, arrived in Pottsville last evening and will assist the local authorities in establishing and maintaining quarantine regulations until the plague is finally checked.

Galesburg Sunday was the busiest day for the physicians for many months and every physician's car, was practically in use continuously during the entire day. This was also true of the big furniture trucks of the Pottsville stores, which were pressed into service by the Board of Health for the purpose of collecting carts for the equipment of the Pottsville and Frackville emergency hospitals. The furniture stores, including the Britton, Hoffman, Hummel, Gately and Brennan and Benesch stores, placed their stocks practically at the disposal of the authorities and carts not furnished by these stores were collected from the prison, court house, almshouse and every available hotel and rushed to the hospitals.

At the Pottsville Armory, and the Milliken home, scenes of activity took place while the big buildings were being placed in shape for the reception of the hundreds of patients who will be housed there and whom, the doctors of this city are unable to treat because of their time being taken up with cases demanding immediate attention. Every physician in the city has gone practically without sleep for the past 24 hours and now that relief is in sight through the arrival of outside assistance they are showing the effects of the terrific stress under which they have labored.

Every physician knows that fatigue or overwork is one of the contributing causes or predisposing causes of influenza. Man "fagged out" by work or experiencing fatigue from loss of sleep is a fertile victim for the influenza germs, and is much more liable to catch the disease, providing proper antiseptic measures are not observed. If therefore, behooves everyone, who is stricken with the "flu" to be patient if the doctor is a little slow in arriving as they are worn out from overwork and are doing the best that they can. One of the town's most successful physicians said last night that every doctor in the city, and some of the dental surgeons who have been helping them out are worthy of the greatest gratitude the community can bestow.

Fire Chief Stevenson stated last evening that if necessary, the hose houses would be turned over as emergency hospitals, and the health authorities were ready to install doctors and nurses to care for the stricken patients if necessary.

Dr. Rodgers, said last evening that the situation is still very serious and nothing but the most rigid quarantine measures would prove effective. The communities must cooperate with the medical authorities of the disease is to be checked, and this can only be done by the most rigid regulations and the most religious observance of the same.

Minersville reported, 58 deaths, Pottsville 8, Frackville 11, up until last evening, and isolated deaths were reported from other sections. The greatest mortality, however, may be expected in several days as the greater number of the cases are still in their incipient stages and have not reached a crisis.

Frackville established the first emergency hospital in the Frackville House Company's building last evening and the members of the company,

## JOIN THE COUPON CLIPPERS

You Will Get Money From Uncle Sam Almost Every Month.

By fixing the interest dates on the Fourth Liberty Loan as April and October 25 of each year, Secretary of the Treasury McAdoo has made it possible for the new army of Government bondholders to "clip a coupon" in eight of the twelve months of the year. Those subscribers who took the registered form of bond instead of the coupon bond because of its greater security will in the same way receive an interest check from the government in eight months of the year, provided, of course, that they have retained the bonds of the three preceding loans which they bought.

On the first Liberty Loan the interest dates are June and December 25; on the second Liberty Loan they are May and November 15; on the third Liberty Loan, March and September 15, and on the fourth Liberty Loan, April and October 15.

Even if the purchaser of a bond of the first Liberty Loan took advantage of its conversion privilege to secure 1 per cent interest on the second loan, and again converted his bond to secure 4 1/2 per cent interest paid on the third loan the interest dates on the conversion bond which he received for his original bond remain the same.

The evident purpose of Secretary McAdoo naming different interest dates on the four issues of bonds was to divide the physical work of paying the interest and also to distribute the payment of interest over the year instead of having payments concentrated in two months.

On a \$6,000,000,000 loan the probable amount of the fourth loan, the annual interest payment at 4 1/2 per cent will be \$255,000,000 or \$127,500,000 at each semi-annual interest date. Interest charges on the first Liberty Loan, if one-half of the bonds have been converted into 4 1/2s and the balance remain at 3 1/2 per cent is \$77,500,000 per annum, on the second loan, if \$1,000,000,000 of the original issue is outstanding at 4 per cent and the remaining \$2,808,000,000 converted into 4 1/2s, the annual interest is \$159,340,000 and on the third loan of \$4,175,000,000 at 4 1/2 per cent the annual interest is \$177,440,000, a total for the three loans of \$414,000,000, and the coming fourth loan of \$6,000,000,000 with its interest charge of \$255,000,000 will swell the Government's annual interest payments to \$639,280,000, which explains why the interest payments are divided.

Many of them who are "First Aid" men worked throughout the night with ambulances from Stanton and Bear Ridge collieries and automobiles from the Madeira Hill fleet, in removing the victims to the new emergency station.

Doctors Taggart, Parry and Glass, of Frackville, the only available medical men in town, together with County Coroner G. H. Moore, Assistant Sup't Young, of the Women's Division of the State Sanatorium at Harrisburg, Dr. Berkeheiser, of Shenandoah; and Dr. Hermann, of Mahanoy City; worked at the emergency hospital and in the town, during the night and it was expected that at least 60 patients would be treated in the hospital when the malignant cases had all been removed to the institution. Nurses Fitzgerald, Isazere and Kantner were also rushed to the hospital and were on duty, the entire emergency unit being under the direction of Borough Solicitor, R. Hicks, who, at the meeting of Council and the Health Board on Saturday night, urged the employment of the most stringent measures to control the disease in the town.

As the ambulances discharged their cases at the hose house, directions for the patrol and removal of cases upon another street were given and will be a big factor in the checking of the disease in the mountain city where it was estimated by Dr. Taggart at nine o'clock last night that there were between 450 and 500 cases.

During the day four deaths were reported: Thomas Evans, 24 years old, of Oak street; John Hodgert, aged 25 years, Nice street; and Mrs. Harry Wood, of Broad Mountain Avenue; were the victims.

Robert Formos, who died of the disease Friday, was buried on Saturday and Joseph Gintner another victim, died Saturday and his funeral was held Sunday.

Three big army trucks containing hospital supplies arrived in Pottsville from Harrisburg to-day. One was delegated to Scranton with three complete hospitals for that city; one was sent to Pottsville for the assistance of the hospital at the armory and the third went to Minersville where a large open air hospital was established.

## BIG SERVICE FLAG OF SUNDAY SCHOOL MEN

To Be Displayed at the State Sunday School Convention at Johnstown, October 10, 11, 12.

When the story of America's part in the great world war has been written, no more inspiring part will be penned than that of the part played by the hundreds of thousands of Sunday School men, who went out to service for their country in the hour of her need.

At the 50th Annual State Sunday School Convention at Johnstown, October 9, 10, 11, there will be displayed a Service Flag, representing more men than perhaps any other one organization has offered for the service of the country.

MISS NANNIE LEE FRAYSER, LOUISVILLE, KY. Junior Grade Specialist. (State Convention Speaker.)

Statistics are now being gathered from the eleven thousand Sunday Schools of the State. From information already received at the headquarters of the Pennsylvania State Sabbath School Association, Philadelphia, at least 40 per cent of the men in the first draft were members of Pennsylvania Sunday Schools. In some instances, whole classes have been taken.

Just as the army is divided into divisions, so is the modern Sunday School. There are three divisions, namely the Children's, Young People's and Adult. All of the Sunday School men in the National Army, under twenty-five years of age, were identified with what is now known as the Young People's Division. This division is composed of young women as well as men, so that the men who have answered their country's call have left behind them a great "Home Guard" army of young people, eighteen to twenty-five years of age, who have set themselves to the task of guarding at home the self-same interests for which their comrades fight on the battle fields of France and Belgium.

Young People's Classes throughout the whole State are active in all forms of war service, such as Gardening, Food Conservation, Red Cross, Y. M. and Y. W. C. A. service, Syrian, Armenian and Belgian Relief Work, Thrift and War Savings Stamp Drives. One Young Men's Class of eighteen members agreed to earn ten dollars apiece for the Y. M. C. A. War Work Fund. Many classes own Liberty Bonds. The members of Young People's Classes are fighting the Hun both at home and abroad, and a telling blow they are delivering, as may be seen from the fine record above.

JOHN L. ALEXANDER, CHICAGO, ILL. Superintendent Young People's Division International Sunday School Association. (State Convention Speaker.)

Immediately following the State Sunday School Convention at Johnstown, the State Young People's Conference will go into session. The gathering will be of three days' duration, October 11, 12 and 13. The theme of the conference is "The Call of the Crisis." Speakers of international reputation will be present. Detailed information can be secured from the office of the Pennsylvania State Sabbath School Assn., 1511 Arch street, Philadelphia.

"I can honestly say that there is nothing like Tanlac to build up the system as it has done wonders for me," said Mrs. Edith Wheat, of 707 West Spruce street, Mahanoy City, Pa.

"I am more than pleased with the results that I obtained from Tanlac. I had been a sufferer from stomach trouble and nervousness, for some time. After eating, gas would form and render me so nervous that I could not get around. I took many medicines but they did me no good. There were times when the pains in my head were so severe that I could not see."

"I felt sure that my condition was due to my stomach. Son on the advice of a friend I bought a bottle of Tanlac. It is certainly bringing me a found in wonderful shape. My intense pains are leaving me."

"Tanlac is being specially introduced at H. J. Krebs' drug store. adv.

## THE WHISTLES BLEW! THE BELLS RANG! THE FOURTH LIBERTY LOAN DRIVE IS ON

The Fourth Liberty Loan must be subscribed in full. This is the time when the SPIRIT OF AMERICA must stalk abroad in the form of bonds. MONEY will do its part in WINNING the war.

Let NO MAN PROFESS to be an AMERICAN who is not WILLING to LOAN all the money he owns to the GOVERNMENT that protects him. The MISER is a most UNHAPPY as well as a DESPICABLE creature. DOLLARS count only when their EXPENDITURE BENEFITS humanity. The MILITARY service NEEDS CERTAIN support always. WITHOUT THE UNITED SUPPORT OF ALL the people of the United States NO WAR can be won. SUFFERING, MURDER, LOOTING, BRUTALITY, DEVASTATION, LICENSE—THESE will continue till MONEY makes it possible for our FIGHTING MEN to STOP them. Let every TRUE PATRIOT put his shoulder to the wheel by PURCHASING BONDS.

Every unpurchased Bond that lies waiting for an investor represents a DESERTER from the ranks of democracy. Deserters should be few in these days of enterprise and achievement.

Disease is lurking in our midst. People are dying all around us. We aim to CARE for all, and our METHODS OF PREVENTION are numerous. We would be strange people if we made no attempt to prevent unnecessary loss of life.

War is hovering on the horizon of peace. Men are dropping into the Great Beyond by thousands. They are dying at your command. You have sent them into battle to fight for you. They are doing their part. You have just cause to be proud of them.

They need money to continue the fight. You must see that they get it. They expect you to do your part. If you fail, you are not true Americans; you are "Slackers."

The word "Slacker" is not an ugly one. No man in the coal regions is going to deserve it. In the whole Mahanoy Valley the miners have been steadily working. They have been doing their part.

"Let Garfield do it," is not the American sentiment of any one in this vicinity. The man who echoes that thought is striking at the throat of Americanism.

**Buy Bonds**  
BUY BONDS, EACH AND EVERY ONE OF YOU. YOU HAVE ALWAYS risen nobly at the test. The GOVERNMENT KNOWS THAT YOU WILL RESPOND NOW.

Let us go "Over the Top" with smiling countenances and cheerful thoughts.

**The whistles blew! The bells rang! The Drive is on!**

Sadly as the epidemic of influenza has interfered with the plans of those who are pushing the Fourth Liberty Loan, it is not wholly to be deplored that we shall miss some of the usual frothiness of mere excitement. It gives the people a chance to make a test of their real sincerity apart from any emotional appeal. It is believed that no bad results will follow the omission of the advertised features, but if they do, it is quite time that we know it.

**Hysteria Not Necessary**  
It does not seem possible that there is now an individual in this country who does not fully understand the precise situation that confronts the nation. The demand for money is definite, and the responses will be equal to the capability of the public to subscribe. At least that is what should be the case, and there is no reason to doubt it.

In any event, every individual should carefully consider his obligations now that a lessened stimulus is to come from the outside. Most persons know very well how many bonds they can pay for in cash or on the four installments which appeal to the larger subscribers, or what they may venture to pledge for the future through six months or a whole year of weekly payments.

Let each man bear in mind that a great obligation rests upon him. Meet it without shrinking, and also without fussing, and do so by subscribing your maximum.

## AMERICA'S ANSWER WILL COME SOON

WASHINGTON, October 8.—That America's answer to the Teutonic peace offer will be forthcoming today or very soon was the indication in official headquarters this afternoon. Rumor had it that President Wilson would elucidate his position in an address to Congress but this lacks confirmation. It was known that the President had given peace consideration to the nature of his reply. There was a general feeling that quick action would serve American purposes best.

## PHYSICIANS, TAKE HEED

HARRISBURG, Oct. 8.—Physicians of Pennsylvania take heed! In Massachusetts pneumonia is less prevalent among influenza patients in canvas tents than in hospitals or private houses. Fewer cases, doctors and attendants sickened under canvas.

Lesson: Give influenza patients open window treatment and where possible, outdoor treatment.

## SALOON KEEPERS BEFORE THE COURT

POTTSVILLE, Oct. 8.—No less than a dozen saloon keepers will be called before court in the near future to show cause why their licenses should not be revoked because of liquor selling in violation of the quarantine regulations established by the State Board of Health. Eight of these men were arrested in Minersville last evening, and early this morning, four being captured in each raid, two were arrested in Gilberton last night and two were summoned from Coaldale early yesterday and against these rules were issued immediately by Judge Dechtel to have them show cause why their licenses should not be revoked.

The first arrests yesterday were those of Mike Smith and Paul Wasililo, of Gilberton. These men were rounded up by a detail of State Police and four patrons were also arrested in the latter place. The proprietors were fined \$50 each by Squire Samuel Purnell at Pottsville, before whom they were arraigned and the spectators were fined \$5.00 each and the costs. In the Wasililo place several spectators got out the back way and eluded the police but they are known and will be arrested later.

At Coaldale rules were issued against the licenses of Steve Justina and Paul Ustak to show cause why their licenses should not be revoked because of the quarantine order.

At Minersville eight were arrested. Early last evening a raid was conducted and those arrested were: John Legedjinski, Charles Brazukas, Paul Gabarek and Adam Rynkiewicz.

The four men collected in an early morning raid were not named by the police as the reports of the officers who conducted the raid had not yet been received at headquarters.

**No Scarcity of Booze**  
An order was issued by the State permitting the sale of liquor through the drug stores to influenza cases upon doctors prescriptions. The order however, directs the local authorities to get in touch with the police and keep the saloons closed, as they are a menace because they permit the congregation of men.

The order also says that the wholesalers and bottlers may continue to manufacture alcoholic beverages which are shipped out of the state for sale.

The department is keen upon punishment of saloonkeepers who not obey the quarantine regulations and the department urged in the order that local authorities refer the matter of violations to the District Attorney and the licensing judge of the county.

## GERMANS SQUEEZED TIGHTER THAN EVER

WITH THE AMERICANS FIRST ARMY, Oct. 8.—The Germans are squeezed tighter in the Argonne pocket as the result of the capture of Châtel-Chéhery on the heights west of the Arre. In yesterday's glorious all day battle, Hills 180 and 244 were stormed, robbing the Boche of dominating positions overlooking the Arre and simultaneously closing in tighter the east flank of the Argonne salient. The enemy artillery on the heights west of the Arre was captured in less than five and a half hours after the Americans attack started. One division in the last couple of days captured 877 and 75 machine guns in addition to a Belgian field piece, which was being removed by the Boche. A considerable movement northward of German artillery and supplies has been observed back of Quenel and Fommerce.

## LAI D AT REST UNDER RAREST AUTUMNAL BLOOMS

The poet in despairing tones over loved ones taken from him has lamented that  
"Life is a waste of wearisome hours,  
Which seldom the rose of contentment adorns;  
And the bud that is nearest awake to the flowers  
Is always the first to be pierced by the thorns."

It is not so when lives filled with such usefulness and with such ripeness of purpose as that of Cashier William H. Kohler, of The Union National Bank, come to a close. Livse, though brief, if spent in useful capacities, in love and regard and sympathy for "the other fellow" have not been lived in vain. If the purpose of a life has been attained, that life has been fully spent, though the years be few. There are lives long drawn out, which never exerted one ray of sunshine or any beneficent influence at all on the community. There are those who pass from our view scarcely noticed and never missed. It was not so with that gigantic man who was to-day borne from his happy home in this city to a haven of rest—the beloved William H. Kohler.

Services, simple in nature, were conducted at the home of his widow, at 11 o'clock this morning, by the Rev. C. A. Benjamin, pastor of the First Methodist Episcopal Church, who read pertinent passages of scripture and offered prayer. David B. Davies sang with pathos, "Face to Face."

The remains reposed in a casket of metallic texture, surrounded by a most extraordinary wealth of floral offerings, the sympathetic testimonial of friends, not only in this city and vicinity, but from great distances. Cortège headed by the Knights Templar and the Union National Bank directors and employees, proceeded to the P. & R. station, where the 11.45 train was taken to Reedsville, where interment will take place tomorrow afternoon, at 2.30 o'clock.

The active pallbearers were: James M. Hough, Shenandoah, and Robert L. Heiser, John D. Giffin, Charles Post, Joseph E. Ferguson and Elbur H. Ball, of this city.

The funeral was conducted with Masonic rites, the Knights Templar of Ivanhoe Commandery No. 31 having charge. The Knights Templar formed a guard of honor at the house and at the P. & R. station.

The delegation from the Commandery included: Messrs. T. L. Thomas, H. K. Christ, H. A. Oday, Dr. F. R. Wagner, of this city, and Mr. Alex. Kincaid, of Shenandoah, all attired in Knight Templar uniform.

Masons from Tamaqua and Lansford, together with the directors of the Coaldale First National Bank, also attended the obsequies.

Business was suspended in the heart of the city from 11 to 12 o'clock in honor of his memory. The doors of The Union National Bank were closed from 10.30 o'clock until 12.00 noon.

The honorary pallbearers were the directors of The Union National Bank—President Harrison Ball, Vice President Frank J. Noonan, J. A. Seligman, John I. Mathias, John Smith, M. J. Ryan, George W. Barlow, J. Fred Bernet, Chas. W. Dieter, R. P. Swank, D. J. Cleary—T. M. Hamilton, cashier of the Delaware National Bank, Chester, Pa., and former President of Group 2, Penn. Bankers' Association; the directors of The First National Bank, of Coaldale, of which the deceased was a director and vice president—John R. Boyle, President; Harry F. Blaney, cashier; Edward Cavanaugh, E. G. Evans, Michael Pavlick, Chas. P. Melley, Michael Doman, C. C. McGeehan—Dr. J. A. Kistler, President Merchants' National Bank, Shenandoah.

## FOOLISH TO TALK OF PEACE BY CHRISTMAS

NEW YORK, Oct. 8.—Under the caption "No Short Road Before Us," the Army and Navy Journal in its issue of yesterday urges the people of this country not to be too optimistic regarding the early ending of the war, but to take General March's word when he says that the war struggle is yet to be won and that it is going to require more than 3,000,000 Americans in France to do it.

"There has sprung up in these United States," says the Journal, "a thoroughly foolish fashion, and dangerous idea that Germany is going to be beaten by Christmas day. The idea seems to have been born of the combination of events of the success of the First in the Argonne, Allenby's victory over the Turks in Palestine and the surrender of Bulgaria to the allies."

"The evil of this is that it tends toward a lessening of purpose and serious disappointment on the part of the great mass of people. For the cold truth is that there is no short road before us to the Rhine or Berlin. It is to be a long, hard one for our armies to travel over. For even when we drive the Germans out of France and Belgium, we will then face him with his back against the wall of his fatherland. And all his bravery as a fighting man and all his tactical genius will be brought to the defense of his native soil."

"If we take any such line as this now prevailing in the United States of 'peace by Christmas,' we are going to have some bitter days after December 25. For unless some miracle happens it is unthinkable that the war can be brought to an end this year."

## KAIER HOTEL NOW READY AS HOSPITAL

It did not take the Kaier people long to offer so magnanimously their fine, large Kaier Hotel on North Main street as an Emergency Hospital during the present epidemic, and they took them even less time to have everything in preparation for its occupancy.

It is now ready for occupancy.

## GERMANY'S DESPERATE U-BOAT DRIVE

WASHINGTON, October 8.—Realizing that Germany is likely to start a desperate U-boat drive against transports and troop ships if the peace offensive fails, American naval officials and the British First Lord of the Admiralty, Gedes, began conferring here today over combative methods. Indications point to the loosening of every U-boat in the Teuton service against the Allied supply line. However, the authorities believe that this effort is doomed to failure.

The Mahanoy City School Board met last evening in regular monthly session. Roll call showed the following directors present: (President Oliver, Secretary Morgan, Christ, Thomas, Wagner and Post. Attendance Officer Thomas was also present. Secretary Morgan read the minutes of the September meeting and they were accepted.

**Reports of Committees**  
Dr. Wagner on the Educational Committee reported Miss Breisch and Miss Graham as asking an increase in salary equal to the rate paid substitutes. They are now receiving \$45 and ask \$50. The application for increased salary was recorded. Morgan presented the claim of Mrs. Ivor Fenton (formerly Miss Tessie Lewis) and a former teacher in our schools for higher wages. Mr. Fenton is obliging the board by teaching in the place of a teacher who is ill and she holds a teacher's permanent certificate. The matter was referred to the Educational Committee—Wagner, Post and Holland—on motion of Christ who stood for the best substitutes we can get at satisfactory remuneration to those concerned. Mrs. Fenton will receive the salary paid the teacher in whose school Mrs. Fenton is now teaching.

Wagner and Morgan stated that Miss Amy Dilcher who is discharging the duties of principal at the 12th Street building seeks the salary paid the teacher who acted as principal before her. She asks \$5 monthly increase. The application of Miss Dilcher for increased compensation was made a matter of record.

**Repair (Post)**—Contractor Morgan is progressing nicely at the 12 Street building with the placing of new toilets. Extra work will have to be done there incidental to the placing of the toilets which will require extra compensation to contractor. Post reported vandalism at the Mahanoy street building. Investigation is on.

**Contractor Larkin** made necessary repairs at the 12th and 8th street school buildings.

**Fuel (Thomas)**—Twenty tons of coal have been placed at the D street building—the only one not supplied previously. Bills for same are on the table.

**Supply (Post)**—Typewriters can not be secured. While orders for three were placed only one has thus been delivered. The one purchased is the Royal.

## THE NEXT CHANGE IN THE CLOCKS

Last week the clocks in Great Britain were turned back one hour; in France the same revision took place yesterday, and the time for it in this country will be a little less than three weeks hence, or October 27.

There has been some talk as to the possibility of such official action as would enable the present system of time to be continued indefinitely or permanently, but its disadvantages in the late period of autumn and throughout the winter in this latitude are manifest to warrant such an experiment.

The sun does not rise now until after seven o'clock; if the clocks were to remain as they are it would not make its appearance at the beginning of winter until long after eight o'clock, and getting up, breakfasting and going to work would all need to be done in darkness by most of us during that season.

But so far as the experiment during the past six months is concerned, it has worked admirably, and hereafter the clocks should be set forward again regularly in every April for the late spring, the summer and the early autumn.

**IN TIMES OF HIGH PRICES**

A great many people are meeting the cost of living by buy-  
ing cheaper stuff. There are plenty of men who always bought  
\$4.00 shoes, who are still paying only that amount. Three years  
ago you could get a good shoe for that money. It was cut out of  
the best part of the animal's skin, though possibly the skin was so  
thick that it had to be split and some of the fibre removed. But  
it was an honest shoe and would wear.

Now the man who buys a \$4.00 shoe, unless it is made up in  
rough style out of coarse leather and with little labor, will prob-  
ably get one that is cut of loose portions of the animal's hide, so  
it will crack and go to pieces.

The same principle applies in buying clothing. With the  
prevailing style for clothes of rough texture, it is possible for  
cheap clothes to present a very creditable appearance at first.  
Dyes and finish cover many defects for a short time. But cheap  
goods will not wear.

The best policy at the present time is to go to a reliable home  
dealer, where one you know personally, and ask him to give a suit  
or pair of shoes or whatever you want, that he can personally re-  
commend as having good wearing qualities. The dealers all  
know well enough what will wear and what won't. They have  
cheap goods, because some people won't take anything else. But  
they don't give their personal endorsement to anything, unless  
they know the real goods are there.

Then having bought a good article, even if at a rather high  
cost, you can well expect to wear it longer than you used to. Pub-  
lic sentiment recognizes this as a time for economy. One does not  
feel so much ashamed of slightly shabby clothing as a few years  
ago. Everybody is doing it. One's bill for clothing thus need not  
be very much more than in ordinary time particularly if you keep  
watch the newspaper advertisements to see who is offering the  
bargains.

**DON'TS FOR THE "SPANISH INFLUENZA."**

The disease that is causing so much alarm in many parts of  
the country is not actually influenza, Spanish or any other sort; it  
is in reality pneumonia.

That is the announcement of the New York City Department  
of Health. In a bulletin just issued the department says the dis-  
ease "is a peculiar form of pneumonia of an epidemic type."

It is believed to be not contagious but infectious, "the germs  
which cause it being passed from the sick to the well by con-  
tact."

And here is a list of Don'ts which the Health issues for the  
guidance of those who seek to avoid the disease:

"Don't crowd. Don't worry. Don't jam the entrances of  
railways, theatres and places of assembly.

"Don't put unclean things into your mouth. Don't eat or  
drink in dirty places.

"Don't expose yourself to cold or wet. Don't overexert, and  
avoid all excesses.

"Don't go out if feeling ill. Take care. Keep fit.

"Don't forget to use handkerchief, covering mouth when  
coughing or sneezing.

"Don't eat without first washing the hands."

**Prepare for Changeable Weather**

H. B. Miller, R. F. D. 10, Wooster,  
O., writes: "By the changing of eeds  
and the weather, I took a very bad  
cold and sore throat. Four doses of  
Foley's Honey and Tar put me right in  
a day's time." It pays to get the gen-  
uine Foley's and avoid substitutes and  
counterfeits. Contains no opiates. ad

**FROM PRIVATE DODDS**

Camp Taylor, Oct. 1, 1918

Dearest Mother and Dad:  
Received your welcome letter to-day  
and was glad to hear from you but  
but sorry, to learn of Uncle John's  
death. I am glad you did not send  
for me for I would not have been able  
to come, anyway as Camp Taylor is  
under quarantine for Spanish in-  
fluenza. We were all examined to-day  
to see if any one had it or any sym-  
ptoms of it but, thank God no one in  
our Battery has it, or any signs of it  
yet, and I hope they will not get it.  
Don't worry for I am all right.

I received the papers and they were  
very interesting. I am sorry you  
can't send me a box every week as  
you are allowed only one pound of  
sugar a week. Take it from me, I had  
no sugar since I left home two months  
ago. Well mother and father, I have  
some good news for you. I have been  
changed from a horseman to number  
one in the gun squad, or rather the  
gunner's helper; so you can see I am  
starting to advance in the army and  
hope I continue to do so. It is some  
responsible position to hold. When I  
get home, like many more boys, I  
will be afraid to drop anything on the  
floor, for if you are caught throwing  
anything on the ground, you are made  
pick it up and get ten days in the K.  
P. (Kitchen police). West Point is  
just a camp for the gun squad before  
we go over. We will get 14 days at  
the school of fire at Oklaoma. There  
are no signs of our going over yet,  
but we are all crazy to get "over  
there" and get a shot at the Hun with  
our 4 point seven schrapnel guns.  
The reason a schrapnel shell is so  
deadly is this—there are five bullets  
to each square yard and it is death  
in a 1,000 yards. So you can see what  
chance the Huns have or what 5,000  
men have in 1,000 yards from that  
gun. We have to keep them polished  
up, for if the Major sees a spot on  
them we would get the "dickens."  
We watch that part all right. My  
duty is to open the breach and fire  
the gun while the gunner is getting  
the range of the enemy. There are  
seven men and the corporal to a gun  
squad. Here is the duty of each man  
in the squad and what he has to do.  
The corporal is the gunner whose  
duty is to get range and the sight and  
set his sighter. It is just like a peris-  
cope on a submarine. Number one  
opens the breach and shuts it; then  
fires; number two sits on the trail  
spike handle to keep the gun down  
in dirt; number three puts the shell  
in the gun when number one opens  
the breach; number four takes the  
shells out of the caisson and hands  
them to number three; number five  
throws the empty shells away from  
behind the gun, while six and seven  
do the digging if the gun position is  
to be changed. I did not want to go  
on the gun squad at first. I asked the  
B. C. officer to keep me a horseman-  
ship but he said, "no, you make a  
better gunner than a horseman." I  
was on guard and my special orders  
were to shoot any one that did not  
halt. I was on second relief about 2  
A. M. and I was doing my duty. I  
heard a noise, then saw something  
crawling along on the ground and so  
I hollered, "halt!" and it still kept  
crawling toward me. I hollered  
"halt!" again and it did not stop; so  
I was not going to disobey orders or  
take any chances on it. So I let bang  
and missed and let bang again with  
my 45 and it did not move again.  
Then I hollered, "Corporal of the  
Guard, No. 2" and when the corporal  
and some other fellows came and we  
found out what it was I had killed, it  
was a big Newfoundland dog. So I  
thought, here is where I get (you  
know) but the officer of the day only  
laughed and said, "cheer up, my boy,  
you only obeyed orders;" but the  
funny part of it was it was the officer  
of the day that owned the dog. I was  
sorry, for you know I don't like to  
hurt a dog. You see for yourself it is  
always best to be obedient and obey  
orders. I felt sure I was going to get  
a good reprimand. I must close  
now, with lots of love and kisses to  
you and dear old dad.

Your loving son,  
Pvt. WILLIAM H. DODDS,

**SALTS IF BACKACHE  
AND KIDNEYS HURT**

Drink lots of water and stop eating  
meat for a while if your Bladder  
troubles you.

When you wake up with backache and  
dull misery in the kidney region it gen-  
erally means you have been eating too  
much meat, says a well-known authority.  
Meat forms uric acid which overworks  
the kidneys in their effort to filter it  
from the blood and they become sort of  
paralyzed and loggy. When your kidneys  
get sluggish and clog you must relieve  
them, like you relieve your bowels; re-  
moving all the body's urinous waste,  
else you have backache, sick headache,  
dizzy spells; your stomach sour, tongue  
is coated, and when the weather is bad  
you have rheumatic twinges. The urine  
is cloudy, full of sediment, channels often  
get sore, water scalds and you are obliged  
to seek relief two or three times during  
the night.

Either consult a good, reliable physi-  
cian at once or get from your pharmacist  
about four ounces of Jad Salts; take  
a tablespoonful in a glass of water  
before breakfast for a few days and your  
kidneys will then act fine. This famous  
salts is made from the acid of grapes  
and lemon juice, combined with lithia,  
and has been used for generations to  
clean and stimulate sluggish kidneys,  
also to neutralize acids in the urine so it  
no longer irritates, thus ending bladder  
weakness.

Jad Salts is a life saver for regular  
meat eaters. It is inexpensive, cannot  
injure and makes a delightful, effe-  
rescent lithia-water drink.

### WHAT THE LIBERTY LOAN HAS BOUGHT FOR THE ARMY

From the beginning of the war to June 30, 1918, the last day of the past fiscal year, contracts were placed by the Ordnance Department of the United States totalling \$4,300,000,000. The estimate for the current year is over \$7,000,000,000. The major items of last year were as follows:

Artillery, \$1,050,000,000; automatic rifles, \$900,000,000; small arms, \$100,000,000; artillery ammunition, \$1,900,000,000; small arms ammunition, \$940,000,000; stores and supplies (personal, horse, and organization), \$230,000,000; armored motor cars, \$100,000,000; total, \$4,100,000,000.

Some other expenditures by the War Department were \$375,000,000 for engineering operations, mostly in France; \$37,000,000 for flour, \$145,000,000 for sugar, \$43,000,000 for bacon, \$12,000,000 for beans, \$9,000,000 for tomatoes, \$2,000,000 for rice, \$47,500,000 for rolling kitchens, \$127,000,000 for shoes, \$555,000,000 for clothing; for blankets, \$147,000,000.

Some smaller expenditures were over \$6,000,000 for axes, \$1,635,000 for field stores, \$2,700,000 for carpenter, and \$224,000 for blacksmith tools, \$2,500,000 for shovels.

The department has bought 266,000 wagons and carts, costing \$37,000,000; and 410,000 horses and mules, costing \$99,000,000; food for them cost \$62,000,000, and harness \$29,000,000.

These are only some of the figures. They seem large, but not so large when it is remembered that we have nearly 2,000,000 men in France and almost as many in training here at home. All of this money and all the other money raised by the Liberty Loans goes to make our Army, our Navy, and our people powerful and victorious in their war for freedom and right.

"We've got the men, we've got the ships, and we've the money, too."

It's your chance to STRIKE. Liberty is cheap at the price! Answer the Hun with Bonds. The boys need MORE guns. Buying Bonds is plain duty! Send this Loan "way over."

### "PROTECTING HOLY SHRINES"

Girardon's Christ, at the Cathedral at Soissons, was rescued as the Hun cannon beat about it; the frail statue of the Virgin at St. Martin aux Bois was reverently removed when the Hun sought it with high velocity shells; the statue of the Virgin at Compiègne, to safeguard biblical statuary; and we know the story of Rheims!

Truth—hideous, unmistakable, heart-rending, now speaks from the shell-hurt uplands of France. Push through fields of scarlet poppy on the outskirts of Chalons and Chateau-Thierry, and you see crucifixes mingled with the bullets, stamped into the earth.

There is more than an enemy to fight—there is a world-menace to fight! We are at grips with a monstrous human disease that, like cancer, eats through flesh to the spirit of fair lands.

You who reverence God and church and the tenderer, sweeter influences of your own home and land, must see that these things STOP. Buying Bonds is material leverage against that Hun purpose to destroy which leaves no Godly symbol unscratched! Buying Liberty Bonds is lending to Christianity. Buy with all the cash you have and then buy more on installments with all you can possibly plan to save.

Remember the hospital ships! It's not what you have done! Buy as you never did before. Up, and at 'em with BONDS. More Bonds—fewer battles! Buy Bonds and keep them.

### OUR ALLIES ARE WATCHING

We now know that the heroic resistance of Belgium, the thin lines of France and the mighty sea power of England wrecked the long-laid plans of Tenthon devastation. Our splendid Allies built and buttressed with their best blood and treasure the bulwarks of civilization against the unleashed fury of the Hun. The rest of the world can never quite repay their sacrifices during the dark days when Germany swept full panopied over her borders.

They have done their part nobly during four long years. Now comes our turn! We are needed, badly needed! We have raised the men, and shall raise more—but the bravest men are powerless against Germany's forty years of preparation unless we back them with the power of our money.

Our Allies are watching for America's expression of the will to win—the will to destroy Prussian militarism—the will to reap the results of their long, heroic struggle for right and decency. Let them see! Show them your appreciation! Double your subscription for Liberty Bonds! Buy all you can pay for on the installment plan! Pledge by the week, by the month—but BUY!

## What Do You Know About Ham?

A little pork story for the man who likes a good smoke

You've got to first catch your pig, of course. If he's young and tender, and fattened on good food, your ham will be good—if it is properly cured and smoked. It isn't every packer who knows the secrets of good ham making. A particular kind of curing and smoking is required of wood for smoking. And when it comes to the cooking—did you ever know of anyone who could roast a ham with savory spices and brown sugar better than an old Southern Mammy?

It is just so with a good tobacco. First, you must have the right kind. Second, it must be properly cured. Third, the blending must be done just as carefully and tastefully as Mammy cooks the ham. Honey Moon tobacco, the universally liked smoking tobacco, is first of all good Burley. Nature and man's care have made it right. Then it's cured. Like vintage wine it "ripens" for years in ailed-up casks and comes out mellow and mild like a ham smoked with corn-cobs. Then the blending. Just as Mammy adds the spice and roasts the ham to a juicy brown so the Penn Company's blending artist adds a little of this kind of tobacco and a little of that kind of tobacco until he produces Honey Moon—the tastiest pipe tobacco ever put into a pipe.

Now, go right away to the nearest tobaccoist—they all carry Honey Moon in your town—and get a tin or a package of this sweet-smelling smoke-leaf. If you don't like it the dealer is authorized to return your money. But you will like it. Out of every 10 pipe smokers who have been looking for a tobacco, 9 try Honey Moon. Once you try it, you'll be ready to settle down and smoke the rest.

## FUNERALS

The remains of the late George Gilgour, of Pottsville, were laid at rest, Saturday afternoon at Odd Fellows' cemetery, in that city. Revs. Diller and Hanna officiated. A delegation of Masons from Mahanoy City were pallbearers.

The funeral of Miss Helen Wadlinger, daughter of the late Judge Wadlinger, Pottsville, took place Saturday afternoon, with interment at Charles Baber cemetery. Miss Wadlinger was well known here.

The funeral of Herman Schlemmer was held this afternoon from his late home in Jacksons. Services were conducted at the house by Rev. I. H. Kern, after which the cortege proceeded to the Protestant cemetery where interment took place.

The funeral of Harold Thompson, was held this afternoon from the home of his grandparents, Mr. and Mrs. John Dillchus, 1035 East Pine street. Services were conducted at the house by Rev. I. H. Kern, after which interment was made in the Protestant cemetery.

The funeral of John T. Morgon took place this afternoon from his late home in Gilberton. Services were conducted at the house by Rev. Scull, after which the cortege proceeded to Frackville where interment took place in the Odd Fellows' cemetery.

The grip finds its earliest victims among those who are run down. A safe preventive is Father John's Medicine which builds fighting strength. The pure food elements in Father John's Medicine build energy to resist grip germs. The gentle laxative effect of Father John's Medicine helps to drive out impurities.

You are safe when you take Father John's Medicine because it is free from alcohol or in any form.

The solicitors at Delano are working hard to get all the people to take Liberty Bonds, but they do not want them to take fifty dollar ones, unless they can not afford larger.

Armory As Hospital  
At Tamqua the armory is being fitted up as a temporary hospital for relief of influenza patients, 1,300 cases are reported in that place.

Would Like Secret for Looking Well  
"Two weeks ago I weighed 96 lbs. Now I weigh 105 pounds and feel perfectly well. Any one I see suffering I tell them of what Mayr's Wonderful Remedy has done for me. They all want to know what makes me look so well. Your medicine has also been a real life-saver for my mother. I can not recommend it too highly for stomach trouble." It is a simple, harmless preparation that removes the catarrh, all mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

## EMPLOYEES' COMPLAINT IS SUSTAINED

Hon. Charles F. Neill, Umpire of the Board of Conciliation has sustained the complaint of certain employees, Little Tracy Vein, Phoenix Park colliery vs. P. & R. C. & I. Company.

This grievance was filed by President James Matthews asking for a rate of \$5.19 per yard instead of the rate of \$4.25 as was paid by the company. The case was argued before the Umpire sometime ago by President Matthews whose views in the matter have been fully sustained.

The decision carries with it a large amount of back pay. After reviewing the testimony the Umpire has the following to say:

"In the judgment of the Umpire, the only reasonable construction that can be placed upon the facts established by the testimony in this case is that these complainants after asking the \$5.19 rate and being refused agreed to take the work at the \$4.45 rate. Having done this and having gone on for over a year at the \$4.45 rate without having raised any grievance whatever, they can only be considered as having waived their own rights during the period. The \$5.19 remained the properly established rate none the less and the complainants were entitled to that rate from any date they chose to raise a grievance and claimed that rate.

The form in which the grievance is presented bases the claim upon the allegation that the \$5.19 rate was agreed upon at the time the contract was made. The language further implies that the complainants have been persistent in the effort to secure this promised rate, and appear to ask the company be directed to pay that rate back to the time the contract was begun. But as already indicated, the testimony would not support a finding that these complainants were ever promised a \$5.19 rate; nor is there anything in the testimony to suggest men that from August, 1916, to October, 1917, any grievance was raised claiming this \$5.19 rate. The grievance, therefore, can not be sustained insofar as it is based upon any specific promise to pay this \$5.19 rate. But the grievance as developed in the testimony and the argument in the case, and as it comes before the Umpire, is a demand for the \$5.19 rate on the ground that this was the established rate for chutes and headings in the Little Tracy vein at this colliery. As already stated, in the judgment of the Umpire, \$5.19 was the established rate, and he rules that this rate shall be paid the complainants for any work done driving chutes and headings in the Little Tracy vein after the date of the raising of this grievance."

A Woman's Hearty Recommendation  
Worry and overwork cause kidney trouble and women suffer equally with men. Miss Sara Testen Belvidere, Ill. writes: "I could not stoop and when down I had to crawl up by a chair. I was so lame I suffered agony. Now I feel like a new person, stronger and better in every way. I heartily recommend Foley's Kidney Pills. Sold everywhere."

Local Board Quotas  
The following quotas has been assigned Local Board, No. 2 to be entrained October 15th. Call No. A-1386.3 men for Carnegie School of Technology, Pittsburgh. Call No. A-1413, 4 men for Pennsylvania State College. Call No. A-1414, 4 men for University of Pittsburgh.

All registrants inducted under these calls must have had at least a grammar school education or an equivalent or who have the ability to read and write and who have had at least four years of grammar school education and who have some aptitude for mechanical work and some experience along the following lines of training: Auto mechanics, blacksmiths, carpenters, foundrymen, instrument repairmen, machinists, surveyors, general draftsmen, and welders, electricians, general mechanics, radio electrician, truck drivers, auto drivers, and repairmen, gas engineers, sheet metal workers.

Local Boards should accept applications from qualified volunteers on Form 2014 until October 13th, on which date the voluntary period closes. If on that date a sufficient number of volunteers have not come forth to complete the quota of a Local Board the Local Board should immediately proceed to select a sufficient number of qualified men to complete its allotment under the call.

Leo McDonald, of Girardville, accompanied the body of Gene Cunningham, who died at Camp, to his home in Ashland. McDonald had to take the next train back to camp.

## AMERICANS HAVE STRONG NERVES

Nervousness and Nerve Troubles on the Decline

"Nothing wrong but your nerves," is a saying that is fast dying out in this country. While nerve trouble is no organic disease, a leading nerve specialist remarked: "A man or woman might better break a leg than have a shattered nervous system."

Overwork and worry drain the nerve cells of their reserve strength and food, and then follows the sleepless night, indigestion, poor appetite, impure blood and general nervous breakdown.

The thing to do in such cases no longer troubles doctors and their patients who know from their own experience the value of Phosphated Iron. They know that a few weeks' regular use of this nerve food and red blood builder will strengthen and brace up the whole nervous system, because Phosphated Iron gives the dried, hungry, worn-out nerve cells phosphates and iron in a form easily and quickly absorbed; as one happy user said: "You can almost feel it taking hold of the nerves and blood, after a short time you feel like a new person—life seems a pleasure and worth living once again."

In every section where Phosphated Iron has been used there has been a big decrease of nerve troubles and it will prove a welcome relief to any sufferer. You can bank on it for results—it's pure.

To insure physicians and their patients getting the genuine Phosphated Iron we have put up in capsules only, do not take pills or tablets. Insist on capsules. Geo. M. Litch, the druggist, Timm's drug store and leading druggists everywhere.

Private George Schlier, of Grier City, yesterday received word from the authorities at Camp Greenleaf, Ga., stating that their son, George Schlier, had died in the hospital at that camp at 12:45 o'clock yesterday afternoon with pneumonia.

Schlier, who was twenty-one years of age, left Grier City with the last contingent of draftees. The news of his death came as a shock to his large number of friends.

Besides his parents he is survived by two sisters Miss Daisy, of town, and Lottie, at home, and one brother Samuel, at home. Sympathy is extended to the bereaved.

## SID SAYS:

It Was the United States of America That Yelled Down That Stairway, Mr. German Major.

By JOHN M. SIDDALL, Editor of the American Magazine.

I have just had a talk with Floyd Gibbons, the famous war correspondent of The Chicago Tribune who pushed so far to the front for news that a German machine gun peppered him in the arm and side and put out one of his eyes.

"Tell me about our boys over there," I said. To which Gibbons replied, "Well, listen to this true story of a German major who was taken prisoner by the Americans. We asked him for his impressions of Americans as fighters. He said that he knew nothing whatever about the fighting qualities of the Americans. He added, however, in perfect English, that he had found them 'extremely persuasive.'"

"Then he described exactly how he was captured. He said that during a terrific barrage delivered by the Allies he was in an underground compartment with forty-two wounded German soldiers. When the barrage ceased the Americans came over. The German major's first look at an American soldier came when one of our boys, a private, appeared at the opening to the underground compartment. The very thought of that fresh private with his undisciplined informal manner seemed to have gotten the very goat of the major. For, according to the major, the private appeared with a hand grenade in each hand and his tin hat pushed back on his head. Armed and rigged in that manner he looked down the stairs into the face of the German major and yelled at him:

"Come out of there, you Dutch blankety-blank—or I'll spill a whole basket full of these things on top of your head!"

"No, sir, there was not the sign of a smile on the major's face as he told it. Not a trace of humor was in him. Just plain disgust. The very idea of taking a prisoner that way—and a high and mighty major at that!"

There you have the difference between the United States and Germany in a nutshell. It is the difference between a free people and a people who get down on their knees and bow and scrape before the idea of authority. It is the difference between a people who stand up and express their real thoughts and a people who suppress them.

The private was spilling hand grenades, but he was also spilling his mind—in the good old American way—exactly as he spills it on the street cars or at a ball game or at the factory. This does not imply that he does not know how to obey. Look how he is obeying in the world today! But just because he obeys is no reason why he should give up the right to think for himself and to speak what is in his mind. He delivered himself as he is—without fear and without disguise.

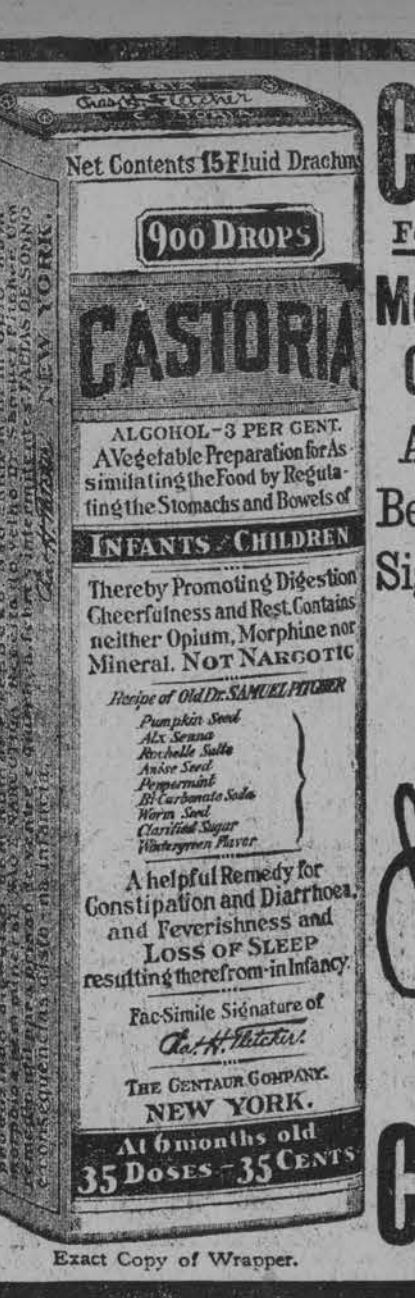

The war is a war between these two ideas—and Germany was doomed the minute she found herself lined up against a nation that produces that kind of men. Because, with the freedom of speech so comically illustrated in this story, there goes a freedom of action that sweeps everything before it. Men who are free to think for themselves and speak for themselves also act for themselves. They develop amazing self-reliance. If their leaders are killed or injured those below them have the initiative to gather up their forces and go forward. They do it here at home and they are doing it over there.

The United States is a country where human beings learn to travel under their own power—without the aid of tugs or other towing machines. The private who captured that major so impudently would step right up and collar Hindenburg. He only wishes he could get the chance! Buy Liberty Bonds—and make his job easier.

## A Soldier Facing Death For You

Somewhere in France today, at this very minute, there is a soldier looking straight into the face of death.

He is doing this for *you*.

By night and day, in storm, in rain, in cold and gloom, facing a hundred deaths he never hesitates a minute but does his duty without a thought of hesitation and without a thought of reward.

*What are you doing for him today?*

When you think of that man don't you want to do something to prove that you appreciate what he is doing for you?

Of course you do. Then act on your desire and buy *Liberty Bonds* which will help to safeguard him and to bring him back home.

After *you* have bought all you can tell your friends to do the same.

# The Enemy Is Watching

By **NEWTON D. BAKER**, *Secretary of War*

The supreme moments of our struggle with Germany have now come.

We have carried our first armies across three thousand miles of ocean and joined the issue of battle with the military power of a nation that has been for forty years preparing its plans and its weapons for its present attempt to dominate the world. We have had to put forth an immense effort and spend a fabulous

sum in order to make, in so short a time, an adequate beginning for our gigantic task.

But it is only our beginning. We must follow it with greater energy and support it with increasing power. Men, munitions, ships and supplies must go to Europe in a larger and larger stream. We must redouble our blows and add constantly to the strength of those blows, if our initial effort is not to be wasted.

**This Means That Our Fourth Liberty Loan Must Be Larger Than Its Predecessors, More Enthusiastically Supported and More Quickly Than Ever Subscribed**

The enemy is watching anxiously for the first sign that we are faltering.

Our Government Loans should go "over the top" as eagerly as our soldiers do, in order to carry with them the terror of furious attack. Our dollars must rain upon the enemy as overwhelmingly as our hail of bullets or our storm of shells.

We are fighting for the liberty of the world, for the triumph of our ideals of democracy and self-government over the last great advocate of force upholding injustice. We are buying with our Liberty Loans the security and joy of our people for generations to come. No price could be too high to pay for such a victory—no cost too great for such a purchase.

### OUR INDIVIDUAL PART

Some observers think that the most characteristic thing about the American soldiers in France, something which astounds the enemy and excites the admiration of our allies, is the capacity of the American soldiers to do individual thinking and fighting. The German fights successfully, only in mass formation, in organized bodies, while every American soldier has an initiative and independence of action which gives him remarkable efficiency in open fighting. They are not senseless cogs, but each is an individual working unit in a great fighting machine.

Every American at home should feel an individual responsibility and do his or her individual part in winning the war. There is not an American citizen who can not help win the war. The Fourth Liberty Loan drive, which begins September 28, offers a great opportunity for concerted action and for individual action, and the loan will be a tremendous success if each American will do his or her individual part as each American soldier in France does his part. Our soldiers deserve such support from the people at home.

We're back of 'em. Show it. This war is not of guns alone! Your share is your UTMOST. The boys are counting on you. Bonds fight behind the guns. Now is your time to punish.

### KEEP UP THE STEADY STREAM

Over there in France are mammoth depots stored to the roof with munitions and supplies. Out from their gates streaming over hundred and hundreds of miles of roads motor lorries, trains, and caissons rushing support to the battle lines. Over here at a hundred war-ware great ships are being laden with the guns, the shot, the shell, the powder, the vehicles of transport to feed these depots through their receiving doors.

Think of the billions and billions of dollars needed to supply them all! Think of the boys at the front who are endangered, unless the supplies arrive on time! And then think of what YOU must do to keep up the steady stream!

This Fourth Liberty Loan for Six Billion Dollars is your answer!

Our soldiers do not say after a fight or two, "I have done enough!" Then, surely, neither will YOU after you have bought a bond or two. Buy every bond you have the cash to pay for and then every one you can pay for in future installments.

Stop, think and loosen. Buy! Bonds versus Bonds, which? Strike the sneer from the Hun! Bonds are symbols of RIGHT. Remember. Chateau-Thierry! Bonds fight in the trenches.

### BLIND THE HUNS

In this war aeroplanes are the eyes of the army.

Overwhelming thousands of these air fighters will place in the hands of General Pershing the exact location of enemy forces in every sector of the front and prevent the enemy from learning the disposal of our own boys. This alone may save the life of your son or brother or husband, and perhaps tens of thousands of others.

Measure your risk against the risk of every noble aviator fighting for you. He goes up today and returns, he may do the same thing tomorrow and the next day, but he never knows if he will come down alive or dead. Yet he does it day after day and feels his job is never done. Neither is yours, not even if you bought a Liberty Bond every day.

Americans, FIGHT with your dollars, stand staunch behind the brave boys. Bring with you cash and buy on installments. And do it NOW!

Stick to YOUR Bond-Trench. They even crucified prisoners. Keep YOUR conscience clear. The Hun MUST be crushed. His sister urges you to buy. Money talks! Buy more Bonds.

### "ON-WITH THE TANKS"

Smash 'em and crush 'em and treat 'em rough!

Jam 'em and cram 'em—that's the stuff!

Every man-jack of 'em wants you in back of 'em—

Taking the bonds from the banks!

Every last son of 'em says to buy more of 'em—

While they go on—with the tanks!

Yes, on with the tanks, and on with the ships, and on with the bullets, and on with the guns, and on with the bayonettes, and on with your dollars to send them over and keep them there and send them forward—forward to Berlin!

Buy Liberty Bonds with every dollar you can possibly spare and then buy more on installments with all you can save in the months to come. Six billion dollars is a vast sum, but it's the least we can do for the boys who are fighting for us. Get back of the Loan—buy more Bonds!

High School ..... 304

Total ..... 2,508

As we had a larger number of pupils than last year in the First Grade in the Fifth Ward, we found it necessary to open another First Grade in the Twelfth street building and we closed one Second Grade in the Mahanoy street building.

Our average attendance for the month was 2,779. The enrollment in the Junior High School for this year in 1917-18 more than last year. The High School enrollment is 5 more than last year. Thus, you see that about the same number of pupils left school this year to go to work as did last year. This speaks well for the community as many places report a larger number than we, dropping out at the end of the Sixth Grade.

We have had quite a number of pupils enter our schools from the parochial schools and from schools out of town. They have come to us from

Parochial School	Out of Town

Sixth Grade—2	Sixth Grade—11
Fifth Grade—15	Fifth Grade—3
Fourth Grade—5	Fourth Grade—2
Third Grade—	Third Grade—5
Second Grade—1	Second Grade—1

A total from the parochial school of 24; out of town—33; making a total entered of 57.

During the month there have moved away to Philadelphia ..... 9  
Mahanoy Township ..... 16  
Other places ..... 20

Total ..... 51  
So, you see we have had come to us from out of town 33; while we have sent out of town—15—a loss of 18.

For one reason or another we have had a large number of teachers absent this month but we have been fortunate in most cases in securing substitutes. We are still in need of a permanent Latin teacher in our High School.

The two days of Institute held just before the opening of school proved very satisfactory and much good work was accomplished. It seemed to put teachers in the proper frame of mind for the opening of school and the first month has been very satisfactory.

The Compulsory Education Law is being strictly enforced and much praise is due Truant Officer Thomas for his faithful performance of duty.

Respectfully submitted,

H. A. ODAY, Superintendent

The Mahanoy City School Board decided not to send directors to the Schuylkill County Directors' Association to be held at Pottsville during the week of October 14th.

Resignations Accepted

The resignations of Miss Mary Moll, Miss Mary E. Maddock and Miss Catherine Malloy were accepted and in motion of Post-Morgan, the board went into the election of two teachers. Miss Mary Calton and Miss Mae Foley, first and second substitutes, were selected to regular teachings, receiving all the votes of members present. Their salaries will be \$55 per month. Both are Normal School graduates.

Teacher Asked Increase  
Miss Annette McInerney, in a well written letter to the Board of Education, outlined the great scope and usefulness of the department over which she presides and asked that commensurate salary for her work be paid. The letter was filed.

# What Do You Mean "AFFORD"?

By GEORGE ADE

We come to another big task. This time we need not call for helpers. The volunteer workers stream in myriad hosts along the main highway leading to victory and vindication.

All patriots, by confession. The grumblers are awed into silence. If the taint of disloyalty remains anywhere it is hidden as a shameful secret. The heads are wagging and we hear many bold assurances:

"I'll do all I can."

"I'll go as far as the next fellow."

"I'll take all I can afford to take."

We are speaking of course of the Fourth Liberty Loan and the willingness of the war-brothers to subscribe.

This time we do not explain a Liberty Loan and how it works, or why we battle with Germany or that a war costs money. It will just about require a search warrant to find a man who does not say that he will take all of the bonds he can "afford" to take.

But, O my countrymen, we need night schools and correspondence schools, private tutors and Chautauques and special information bureaus to enlighten Mr. A. and Mr. B. and Mr. C. as to the real meaning of the word "afford."

Are you penciling around to find out how much money you can set aside without the slightest inconvenience to any of your pet, private projects?

Are you trying to decide how many bonds you will have to take in order to escape the charge of being a slacker?

Hurry to the bank and break through the line and order so many Liberty Bonds that the man inside will be dazed and all of the neighbors surprised and all of your relatives proud.

Works, of Reading, in which that company agreed to deliver and place the escapes for the sum of \$610. On motion of Christ the board decided to award the contract to the Remppis people on condition that the same is approved by the State authorities preparatory to the board being obliged to pay for same. The Secretary was instructed to notify the firm.

A communication was received from the Tax Revision Association asking the co-operation of the school board and a contribution toward financing the movement. No action was taken.

### OVERWORKED MAN

Couldn't Get Man to Fill His Place, Had to Keep On. How He Did It.

Saratoga, Cal.—"I am an engineer, and overworked so I could not sleep, was tired all the time. I could not get a man to fill my place so had to keep on working. My druggist asked me to try Vinol and it built me up and strengthened me so I feel fine and sleep all right."—Isaac W. Bradford.

There is no secret about Vinol. It owes its success in such cases to beef and cod liver peptonates, iron and manganese peptonates and glycerophosphates, the greatest body building and strength creating tonics.

We strongly recommend Vinol. H. J. Krebs and leading druggists everywhere.
